

EQIP FY 2021 Payment Caps

Practice Code and Name	Scenario Name and Number	Unit Type	Max Payment Cap	Max HU Cap
*340 Cover Crop	Cover Crop - Basic (Organic and Non-organic), Scenario #1	AC	\$31,000/year	\$37,000/year
*340 Cover Crop	Cover Crop - Multiple Species (Organic and Non-organic), Scenario #11	AC	\$38,000/year	\$46,000/year
*328 Conservation Crop Rotation	Basic Rotation Organic and Non-Organic, Scenario #1	AC	\$6,000/year	\$8,000/year
*328 Conservation Crop Rotation	Specialty Crops Organic and Non-Organic, Scenario #5	AC	\$16,000/year	\$19,000/year
*590 Nutrient Mgmt.	Basic NM (Non-Organic/Organic), Scenario #1	AC	\$4,000/year	\$5,000/year
*590 Nutrient Mgmt.	Basic NM with Manure Injection or Incorporation, Scenario #2	AC	\$16,000/year	\$19,000/year
*590 Nutrient Mgmt.	Basic NM with Manure and/or Compost (Non-Organic/Organic), Scenario #4	AC	\$8,000/year	\$10,000/year
*590 Nutrient Mgmt.	Basic Precision NM (Non-Organic/Organic), Scenario #5	AC	\$23,000/year	\$28,000/year
*329 Residue Mgmt. No-till	Residue and Tillage Management, No-Till, Scenario #1	AC	\$10,000/year	\$12,000/year
*645 Upland Wildlife Habitat Mgmt.	Monitoring, Management, No Foregone Income, No Training Required, Low Intensity and Low Complexity, Scenario #1	AC	\$9,000/year	\$10,000/year

Notes:

Management practices are limited to a maximum of three separate payments during the life of a contract with applicable annual payment rate CAPS unless there is an approved waiver for the associated Targeted Implementation Plan.

*Payment Caps for the following conservation practices are only applicable in the Willow Creek – Implementing the 5th Principle of Soil Health TIP and the Judith Basin Soil Health Targeted Implementation Plans. Conservation Practices 340 - Cover Crop, 328 - Conservation Crop Rotation, 329 - Residue Management, 590 – Nutrient Management, 645 – Upland Wildlife Habitat Management
