Workload Prioritization Worksheet: Sand County Foundation 2320 RCPP Land Management and Rental

A Workload Prioritization Worksheet must be completed for each eligible Sand County Foundation (SCF) RCPP Land Management and Rental application.

Instructions:

This workload prioritization worksheet must be completed for each eligible producer applying for SCF RCPP Land Management and Rental (LMR). Applications will be accepted on a continuous basis; however, application periods are established for purposes of evaluation, ranking, and funding decisions. The goal of this screening tool is to ensure that conservation technical assistance and the RCPP program benefits are managed efficiently to address priority conservation needs related to this initiative.

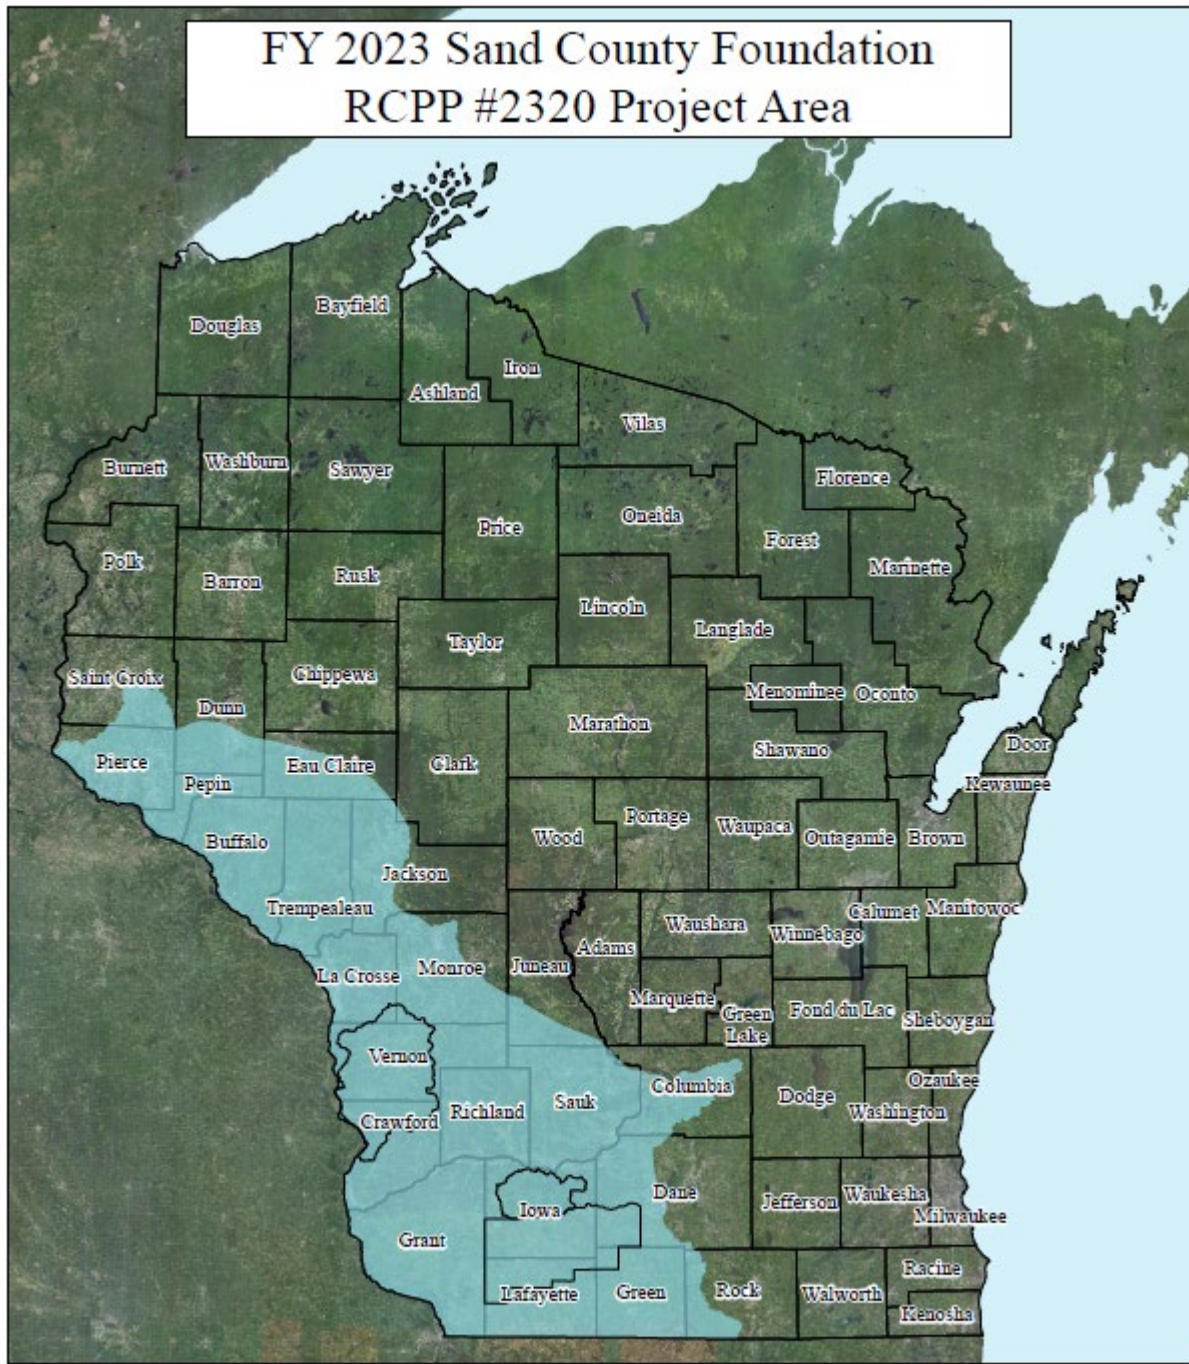

Completion of this worksheet and documentation does not constitute agreement to provide RCPP program benefits nor approval of a program contract. The original worksheet should be filed with the applicant case file or RCPP program file and unless the application is determined to be ineligible, the screening priority (high or low) must be recorded in CD. Upon request, a copy of any completed screening worksheet may be provided to the applicant.

Detailed Screening Criteria Worksheet – Complete for Each Eligible LMR Applicant		
Applicant Name:	County:	
Application No:	Field Office:	
Evaluator Name:	Date:	
Priority Determination for Conservation Desktop (CD)– Select One:
