	Yerington LWG	Humboldt- Lander LWG (Lander CD)	Humboldt- Lander LWG (Quinn River CD)	Humboldt- Lander LWG (Paradise- Sonoma CD)	Minden LWG	Las Vegas LWG	Las Vegas LWG (Lincoln County CD)	Ely LWG (Tonopah CD)	Ely LWG (White Pine CD)	Elko/Eureka LWG	Lovelock LWG
#1	Water Quantity - Irrigation water efficiency	Insufficient Irrigation Water	Insufficient Irrigation Water- dropping wells & Lack of water table recharge	Insufficient Irrigation Water- delivery and ditches	Noxious and Invasive Weeds	Degraded Plant Condition- Plant productivity and health	Livestock and Wildlife Water Availability- Inadequate Distribution	Inefficient use of Irrigation Water	Inefficient use of Irrigation Water	Source Water Depletion	Soil Quality Limitation
NRCS Resource Concern Category	Source Water Depletion	Source Water Depletion	Source Water Depletion	Source Water Depletion	Degraded Plant Condition	Degraded Plant Condition	Livestock Production Limitation <b>AND</b> Terrestrial Habitat	Source Water Depletion	Source Water Depletion	Source Water Depletion	Soil Quality Limitation
	Yerington LWG	Humboldt- Lander LWG (Lander CD)	Humboldt- Lander LWG (Quinn River CD)	Humboldt- Lander LWG (Paradise- Sonoma CD)	Minden LWG	Las Vegas LWG	Las Vegas LWG (Lincoln County CD)	Ely LWG (Tonopah CD)	Ely LWG (White Pine CD)	Elko/Eureka LWG	Lovelock LWG
#2	Water Quality- sediment in surface water	Weather Reliance- drought susceptibility , grass banking	Soil Degradation	Insufficient Water for Livestock- lack on locations and maintenanc e especially in conjunction with public lands	Fuels Treatment and Fire Rehab	Degraded plant condition- Pest Pressure	Invasive Species including Plant Pests, Weeds and Aquatics	Feed and Forage Imbalance	Sheet, rill and wind and soil organism habitat loss or degradation	Degraded Plant Condition	Wind and Water Erosion
NRCS Resource Concern Category	Field Sediment, Nutrient & Pathogen Loss	Weather Reliance	Soil Quality Limitations	Livestock Production Limitation	Fire Managemen t and/or Degraded	Degraded plant condition <b>And</b> Pest Pressure	Degraded plant condition <b>And</b> Pest Pressure	Livestock Production Limitation	Wind and Water Erosion <b>AND</b> Soil	Degraded plant condition	Wind and Water Erosion

					Plant Condition		And Aquatic Habitat		Quality Limitations		
	Yerington LWG	Humboldt-Lander LWG (Lander CD)	Humboldt-Lander LWG (Quinn River CD)	Humboldt-Lander LWG (Paradise-Sonoma CD)	Minden LWG	Las Vegas LWG	Las Vegas LWG (Lincoln County CD)	Ely LWG (Tonopah CD)	Ely LWG (White Pine CD)	Elko/Eureka LWG	Lovelock LWG
#3	Plants-Wildfire Hazard	Degraded Plant Condition-weeds, no IPM follow up, wildfire biomass	Degraded Plant Condition	Degraded Plant Condition-weeds and no restoration	Water-Quality, Quantity (Forage & livestock), Drought	Livestock Production Limitation-Inadequate livestock water quality, quantity and distribution	Degraded Plant Condition - Undesirable Productivity and Health	Energy Efficiency of Equipment and facilities	Plant pest pressure and plant structure and composition	Livestock Production Limitation	Inefficient Water Use
NRCS Resource Concern Category	Fire Management	Degraded Plant Condition AND Fire Management	Degraded Plant Condition	Degraded Plant Condition	Livestock Production Limitation	Livestock Production Limitation	Degraded Plant Condition	Inefficient Energy Use	Pest Pressure AND Degraded Plant Condition	Livestock Production Limitation	Source Water Depletion
	Yerington LWG	Humboldt-Lander LWG (Lander CD)	Humboldt-Lander LWG (Quinn River CD)	Humboldt-Lander LWG (Paradise-Sonoma CD)	Minden LWG	Las Vegas LWG	Las Vegas LWG (Lincoln County CD)	Ely LWG (Tonopah CD)	Ely LWG (White Pine CD)	Elko/Eureka LWG	Lovelock LWG
#4	Soil Erosion-Streambanks	Soil Degradation	Insufficient Water for Livestock-lack of locations and maintenance especially in conjunction with public lands	Soil degradation	*Secondary Concerns: Floodplain/Floodway Protection	Source Water Depletion-Inefficient Irrigation Water Use	Human Concerns	Inadequate Livestock Water Quality, Quantity and Distribution	Feed and Forage Imbalance	Soil Quality Limitations	

<b>NRCS Resource Concern Category</b>	Concentrate d Erosion	Soil Quality Limitation	Livestock Production Limitation	Soil Quality Limitation		Source Water Depletion		Livestock Production Limitation	Livestock Production Limitation	Soil Quality Limitations	
	<b>Yerington LWG</b>	<b>Humboldt- Lander LWG (Lander CD)</b>	<b>Humboldt- Lander LWG (Quinn River CD)</b>	<b>Humboldt- Lander LWG (Paradise- Sonoma CD)</b>	<b>Minden LWG</b>	<b>Las Vegas LWG</b>	<b>Las Vegas LWG (Lincoln County CD)</b>	<b>Ely LWG (Tonopah CD)</b>	<b>Ely LWG (White Pine CD)</b>	<b>Elko/Eureka LWG</b>	<b>Lovelock LWG</b>
<b>#5</b>	Plants- Noxious Weeds					Soil Quality Degradation -Organic Matter Depletion	Habitat Degradation and Loss and Organic Matter Depletion		Human	Wind and Water Erosion	
<b>NRCS Resource Concern Category</b>	Degraded Plant Condition					Soil Quality Limitations	Soil Quality Limitations			Wind and Water Erosion
