

## KANSAS SUPPLEMENT TO CONSERVATION ENHANCEMENT ACTIVITY

## CONSERVATION STEWARDSHIP PROGRAM

### E340A

### Cover crop to reduce soil erosion

#### Additional Criteria for Kansas

In addition to the criteria specified in National Enhancement E340A, the following apply in Kansas:

- For species with an excellent or very good rating for erosion reduction, utilize plant species, seedbed preparation, seeding rates, seeding dates, seeding depths, fertility requirements, and planting methods consistent with applicable local criteria and soil/site conditions from Table 1 of Form [KS-ECS-6](#), Cover Crop Design. Determine method and timing of termination to meet grower's objective(s) and current NRCS cover crop termination guidelines.
- Do not burn cover crop residue.
- Do not harvest or graze cover crop.

#### Additional Documentation Requirements for Kansas

In addition to the documentation requirements specified in the National Enhancement E340A, the following applies in Kansas:

- Use Form [KS-ECS-6](#), Cover Crop Design.
