

**KANSAS SUPPLEMENT TO
CONSERVATION ENHANCEMENT ACTIVITY
E391C**

**CONSERVATION
STEWARDSHIP
PROGRAM**

Increase riparian forest buffer width to enhance wildlife habitat

Additional Criteria for Kansas

- Refer to Kansas Conservation Practice Standard 342, Critical Area Planting, Construction Specifications, for development of seed mixes and planting guidance for grass buffers.
- Refer to Kansas Conservation Practice Standard 666, Forest Stand Improvement, Construction Specifications, for guidance on tree removal and selection.

Additional Documentation Requirements for Kansas

- Certification that the application of grass and/or trees meet design and permit requirements in Form KS-ECS-4, Grass Seeding, and/or Form KS-ECS-5, Tree/Shrub Planting.
