

**KANSAS SUPPLEMENT TO  
CONSERVATION ENHANCEMENT ACTIVITY  
E666A**

**CONSERVATION  
STEWARDSHIP  
PROGRAM**

**Maintaining and improving forest soil quality**

**Additional Criteria for Kansas**

In addition to the criteria specified in National Enhancement E666A, the following apply in Kansas:

- Develop a Forest Stewardship Plan (FSP) to inventory existing vegetation to determine management of the resource. Through NRCS, a Kansas Forest Service (KFS) district forester may be requested to complete an FSP and to assist the producer with practice planning.
- Forest soil quality must be part of the FSP for this enhancement to be applicable.
- Refer to [Kansas Conservation Practice Standard 660, Tree/Shrub Pruning, Construction Specifications](#), for methods and guidance to proper tree pruning.

**Additional Documentation Requirements for Kansas**

In addition to the documentation requirements specified in National Enhancement E666A, the following applies in Kansas:

- A detailed map identifying locations of forest stand improvement activities using a Global Positioning System (GPS) unit meeting NRCS specifications will be included with planning documentation.
