

# CONSERVATION STEWARDSHIP PROGRAM

## KANSAS SUPPLEMENT TO CONSERVATION ENHANCEMENT ACTIVITY

### E666H

## Increase on-site carbon storage

### Additional Criteria for Kansas

In addition to the criteria specified in National Enhancement E666130Z, the following apply in Kansas:

- Develop a Forest Stewardship Plan (FSP) to inventory existing vegetation to determine management of the resource. Through NRCS, a Kansas Forest Service (KFS) district forester may be requested to complete a FSP and to assist the producer with practice planning.
  - Definition: Snags are standing dead trees, while den trees are live standing trees with a cavity in the trunk or limbs large enough to shelter wildlife.
- Refer to [Kansas Conservation Practice Standard 666](#), Forest Stand Improvement, Construction Specifications, for practice assistance.
- Refer to [Kansas Conservation Practice Standard 660](#), Tree/Shrub Pruning, Construction Specifications, for methods and guidance to proper tree pruning.

### Additional Documentation Requirements for Kansas

In addition to the documentation requirements specified in National Enhancement E666H, the following applies in Kansas:

- A detailed map identifying locations of forest stand improvement activities using a Global Positioning System (GPS) unit meeting NRCS specifications will be included with planning documentation.
