

EXPERIENCE IS IMPORTANT: WE WANT TO HEAR FROM YOU!

IDAHO SOIL HEALTH 5 FOR 5

Many of you are doing amazing work for soil health across Idaho and we want to highlight your experience! You are invited to present on a soil health topic and share about your ideas, field trials, lessons learned, and progress made. Topics can include:

- First steps toward soil health & hurdles in adoption
 - Changes in tillage, crops, or inputs
 - Use of new technology or equipment
 - Changes in soil properties or performance (ex: soil moisture)
 - Incorporation of livestock
 - Influence of soil health on farm/ranch economics
- ... and any combination of these.

After presentations, the floor is open for Q&A and open conversation about topics shared.

See the U of I Soil Health [Youtube playlist](#) for recordings of past Soil Health 5 for 5 meetings.

All are invited to attend this virtual roundtable. If you would like to present **5** slides for **5** minutes: please contact shawn.nield@usda.gov

Our first Soil Health 5 for 5 Virtual Meeting of the year will be held:
Dec. 7th at 10 am MST
