

WA Regional Conservation Partnership Program (RCPP)

RCPP 2243 WRIA 1 Salmon Recovery and Water Quality 2.0 - Fiscal Year 2023

This screening tool is required for all RCPP 2243 Funding applications.

Instructions: Applications will be accepted on a continuous basis; however, “cut-off” dates are established for purposes of ranking and funding allocation.

The goal of this screening tool is to streamline workload and to ensure that conservation technical assistance and RCPP program benefits are efficiently allocated to address Programmatic Partnership Agreement priorities. Completion of this worksheet and documentation does not constitute agreement to provide RCPP program benefits nor approval of an RCPP contract. This original screening worksheet must be filed in the applicant case file and the screening priority (High or Low). Upon request, a copy of any completed screening worksheet will be provided to the applicant. Planning and/or CART Assessments and Ranking will only occur on High screened applications

Screening Worksheet must be completed for only eligible RCPP applications.

ALIGNMENT WITH RCPP 2243 PRIORITIES

(LOW) Application is Low priority if any bullet is answered YES

- In the last 3 RCPP program fiscal years, the applicant had a NRCS contract terminated;
- Has a current contract not on schedule
- Has received an NRCS-CPA-153 on an active contract that is still out of compliance (does not include 153s as a result of NRCS error).
- Applicant has any existing contract (active, completed, terminated, canceled), and the applicant did not meet the O&M requirements for the lifespan of the conservation practice previously funded.
- Is not located in the RCPP 2243 project area.

(HIGH) Application is High priority if all questions answered NO
