

Recent Study Reports available in electronic or hardcopy format from Bridger Plant Materials Center.

Access the electronic document by clicking the *Link* column.

Use 'Find' to search for specific subjects. For example, search 'cover' to find all cover crop studies.

Contact Monica.Pokorny@usda.gov or Michelle.Majeski@usda.gov for hard copies.

(Jan 2023)

Study Report	Date	Link
Sorghum-Sudangrass Varietal Production	2023	Study Report
Impact of Cover Crop Seeding Rate on Stand Establishment & Aboveground Biomass Production	2022	Study Report
Effect of Berseem Clover Seeding Rate on Density and Biomass Production in a Warm Season Cover Crop Mix – One Year Results	2021	Study Report
Seed Mix Proportions and a Seed Carrier for Establishing Pollinator Habitat	2021	Study Report
Cover Crop Seeding Date Study	2020	Study Report
Effects of Seeding Depth and Propagation Media on Seedling Emergence of Three Conservation Species	2020	Study Report
Mixed- and Alternate-Row Seeding of Native Grasses and Forbs to Enhance Pollinator Habitat	2020	Study Report
Effect of Guar and Sunn Hemp Seeding Rate on Stand Count and Biomass Production in a Warm Season Cover Crop Mix – One Year Results	2020	Study Report
Pheasants Forever Upland Gamebird Cover Crop Mixes for Salt-Affected Sites and Custom Warm Season Cover Crop Mixes for Salt-Affected Sites	2020	Study Report
Evaluation of Cool Season Cover Crops in Southern Montana	2020	Study Report
Seed Moisture as an Indication of Harvest Readiness – One Year Results	2020	Study Report
Effects of Seeding Depth & Mix Compatibility on the Establishment & Growth of Lacy Phacelia	2020	Study Report
Container Depth as it Influences Plains Cottonwood& Bur Oak Seedling Survival & Growth	2019	Study Report
January Frost Seeding of Cover Crops Study	2019	Study Report
Comparing Establishment and Growth of Five Native Grass Species Collected in Yellowstone National Park to those Selected by the Plant Materials Program	2019	Study Report
Effect of Container Size on the Survival and Growth of Plains Cottonwood Seedlings	2018	Study Report
Evaluation of Fava Bean Lines under Irrigated and Dryland Conditions	2018	Study Report
Spring Seeded Native Plants for Enhancing Pollinator Habitat	2018	Study Report
Dormant Seeded, Pollinator-Friendly Planting	2018	Study Report
Impact of Legume Seed Rate in Cover Crop Mix on Legume Presence and Production	2018	Study Report
Evaluation of Cowpea and Mung Bean Varieties	2018	Study Report

Evaluation of Two Cowpea Varieties in a Cover Crop Mix	2018	Study Report
Seeding Date Impact on Production of Four Perennial Cool-Season Forage Species	2018	Study Report
Bluebunch Wheatgrass Initial Evaluation Planting	2018	Study Report
Small-Seeded Fava Bean as Cash Crop and Within Cover Crop Mixture	2017	Study Report
