

Volunteers improve
TODAY for
TOMORROW

Did you know that in FY 2022 112 Earth Team volunteers contributed 2,431 hours to South Dakota NRCS?

Conserving natural resources requires the time, energy, knowledge and talent of many individuals. With the help of Earth Team volunteers, we can expand our services, and ultimately ... *Put more conservation on the ground!*

What can an Earth Team volunteer do for your office?

- Conduct surveys
- Assist with layout of conservation practices
- Work on wetland restoration projects
- Assist with field visits
- Perform clerical duties
- Create communications products
- Aid in field days and banquets
- Computer Support
- Develop and present educational materials
- Test water quality

For more information about the Earth Team Volunteer Program, visit the Earth Team webpage at <https://www.nrcs.usda.gov/conservation-basics/conservation-by-state/south-dakota/south-dakota-earth-team-volunteer-program>.

If you already have Earth Team volunteers working at your locations, remember to submit their Volunteer Services Agreement (OF-301A) and their time volunteered so their valuable service is properly documented. Additionally some volunteers may need to meet security requirements, per **Homeland Security Presidential Directive-12 (HSPD-12)**.
