GLRI Nearshore Core and Supporting Practices		
Practice Code	Practice Name	Type
101	CNMP Design and Implementation Activity	Core
102	Comprehensive Nutrient Management Plan	Core
110	Grazing Management Plan	Core
116	Soil Health Management Plan	Core
157	Nutrient Management Design and Implementation Activity	Core
159	Grazing Management Design and Implementation Activity	Core
161	Pest Management Conservation System Design and Implementation Activity	Core
162	Soil Health Management Design and Implementation Activity	Core
163	Irrigation Water Management Design	Core
164	Improved Management of Drainage Water Design	Core
199	Conservation Plan	Core
216	Soil Health Testing	Core
226	Waste Facility Site Suitability Feasibility Assessment	Core
227	Evaluation of Existing Waste Storage Facility Components	Core
313	Waste Storage Facility	Core
327	Conservation Cover	Core
328	Conservation Crop Rotation	Core
329	Residue and Tillage Management, No-Till	Core
330	Contour Farming	Core
332	Contour Buffer Strips	Core
340	Cover Crop	Core
342	Critical Area Planting**	Core**
345	Residue and Tillage Management, Reduced Till	Core
350	Sediment Basin	Core
362	Diversion	Core
380	Windbreak/Shelterbelt Establishment & Renovation	Core
381	Silvopasture	Core
386	Field Border	Core
391	Riparian Forest Buffer	Core
393	Filter Strip	Core
412	Grassed Waterway	Core
528	Prescribed Grazing	Core
554	Drainage Water Management	Core

561	Heavy Use Area Protection	Core
582	Open Channel	Core
585	Strip-cropping	Core
590	Nutrient Management	Core
605	Denitrifying Bioreactor	Core
612	Tree/Shrub Establishment	Core

657	Wetland Restoration	Core
782	Phosphorous Removal System	Core
309	Agrichemical Handling Facility	Supporting
314	Brush Management	Supporting
315	Herbaceous Weed Treatment	Supporting
316	Animal Mortality Facility	Supporting
317	Composting Facility	Supporting
326	Clearing and Snagging	Supporting
334	Controlled Traffic Farming	Supporting
338	Prescribed Burning	Supporting
351	Well Decommissioning	Supporting
360	Waste Facility Closure	Supporting
366	Anaerobic Digester	Supporting
367	Roofs and Covers	Supporting
382	Fence	Supporting
394	Firebreak	Supporting
396	Aquatic Organism Passage	Supporting
410	Grade Stabilization Structure	Supporting
430	Irrigation Pipeline	Supporting
442	Sprinkler System	Supporting
449	Irrigation Water Management	Supporting
468	Lined Waterway or Outlet	Supporting
472	Access Control	Supporting
484	Mulching	Supporting
490	Tree/Shrub Site Preparation	Supporting
500	Obstruction Removal	Supporting
512	Pasture and Hayland Planting	Supporting
516	Livestock Pipeline	Supporting
520	Pond Sealing or Lining, Compacted Soil Treatment	Supporting
521	Pond Sealing or Lining, Flexible Membrane	Supporting
522	Pond Sealing or Lining, Concrete	Supporting
527	Sinkhole Treatment	Supporting
533	Pumping Plant	Supporting
558	Roof Runoff Structure	Supporting
560	Access Road	Supporting

570	Stormwater Runoff Control	Supporting
572	Spoil Disposal	Supporting
574	Spring Development	Supporting
575	Trails and Walkways	Supporting
578	Stream Crossing	Supporting
580	Streambank and Shoreline Protection	Supporting
584	Channel Bed Stabilization	Supporting
587	Structure for Water Control	Supporting
595	Pest Management Conservation System	Supporting
600	Terrace	Supporting
603	Herbaceous Wind Barriers	Supporting
606	Subsurface Drain	Supporting
614	Watering Facility	Supporting
632	Waste Separation Facility	Supporting
634	Waste Transfer	Supporting
635	Vegetated Treatment Area	Supporting
638	Water and Sediment Control Basin	Supporting
642	Water Well	Supporting
666	Forest Stand Improvement	Supporting

*** Critical Area Planting (342) will only be considered a core practice if 342 will be the primary/dominant practice used to address the resource concern. If 342 is used as the seeding component for another conservation practice (ex. 410, 350, 360, etc.), then 342 will not be considered a core practice, and would then be considered a supporting practice.*
