

## PART 512 - CONSTRUCTION

### SUBPART C – EVALUATION OF CONSTRUCTION MATERIALS

#### **WA512.21B.(1) Evaluation Procedures**

- (i.) Used material will not be allowed for the application of cost shared NRCS engineering practices in the following cases:
  - a. When disallowed by the NRCS financial assistance program,
  - b. Utilized as component of a NRCS Practice or;
  - c. As a component of a NRCS Conservation Practice System.
  
- (ii.) The following exceptions to this policy shall apply. Used material is allowable in the following cases:
  - a. Where used material has been refurbished or rehabilitated by a company or vendor in that particular business and;
  - b. The vendor provides a certification of suitability for the intended use and;
  - c. The refurbished or rehabilitated product meets or exceeds the NRCS practice design life and;
  - d. Complies with the applicable NRCS practice standard(s) and specifications.
  
- (iii.) Used material waiver requests can be submitted to the SCE for consideration. The following shall be provided for all requests:
  - a. Documentation of the evaluation,
  - b. Recommendation of approval by the Area Engineer,

#### **WA512.23(c) Prequalification of Materials**

It will be the standard practice in Washington State not to develop or maintain a State list of pre-qualified materials.
