

PART 520 – SOIL AND WATER RESOURCE DEVELOPMENT

SUBPART C – DAMS

WA520.29 WA State Dam Safety

- A. All WA NRCS designed or approved Dams or impoundment structures that impound 10 acre-feet or more as defined by the WADOE Dam Safety shall adhere to all applicable provisions outlined in state regulations and technical manuals. Information for WADOE Dam Safety can be located at the following link:
<http://ecy2.wa.gov/programs/wr/dams/dss.html>
- B. All NRCS projects that require a State Dam Safety Permit shall be reviewed by the SCE for concurrence.
- C. Notification shall be provided to the SCE for each permitted Dam that has been assisted by NRCS. The Area Engineer is responsible for providing information to the SCE within 30 days of permit issuance.
