Land Uses and Modifiers

Land Use	Grazed	Wildlife	Irrigated	Hayed	Drained	Organic	Water Feature	Protected	Urban	Aquaculture
Forest	--	--	--	N/A	N/A	--	--	--	--	--

Resource Concern Categories

Categories			
Category	Min %	Default %	Max %
Concentrated erosion	0	5	35
Degraded plant condition	0	30	50
Fire management	0	30	100
Pest pressure	0	20	50
Terrestrial habitat	0	15	100

Concentrated erosion			
Resource Concern	Min %	Default %	Max %
Classic gully erosion	0	100	100

Degraded plant condition			
Resource Concern	Min %	Default %	Max %
Plant structure and composition	0	100	100

Fire management			
Resource Concern	Min %	Default %	Max %
Wildfire hazard from biomass accumulation	0	100	100

Pest pressure			
Resource Concern	Min %	Default %	Max %
Plant pest pressure	0	100	100

Terrestrial habitat			
Resource Concern	Min %	Default %	Max %
Terrestrial habitat for wildlife and invertebrates	0	100	100

Practices

Practice Name	Practice Code	Practice Type
Forest Management Plan	106	Activities
Forest Management Practice Design	165	Activities
Brush Management	314	Conservation Practices
Prescribed Burning	338	Conservation Practices
Firebreak	394	Conservation Practices
Forest Stand Improvement	666	Conservation Practices

Ranking Weights

Factors	Algorithm	Allowable Min	Default	Allowable Max
Vulnerabilities	Default	15	25	40
Planned Practice Effects	Default	10	15	15
Resource Priorities	Default	20	40	60
Program Priorities	Default	5	10	15
Efficiencies	Default	10	10	10

Survey: Applicability Questions

Section: Applicability		
Question	Answer Choices	Points
Does the assessed practice schedule intersect the boundary of a selected and active JCLRP project?	Yes.	--
	No.	--

Survey: Category Questions

Section: Category		
Question	Answer Choices	Points
Is there a planning land unit in the JCLRP project area?	Yes.	--
	No.	--

Survey: Program Questions

Section: Program		
Question	Answer Choices	Points
Identify the current forest management plan the applicant has that is no older than 10 years: (select one)	Forest Management Plan (FMP) that was approved by IDNR or approved partner.	50
	Forest Management Plan (FMP) Conservation Activity Plan (CAP) written and/or approved by a qualified Technical Service Provider (TSP).	50
	106 Conservation Planning Activity (CPA) and 165 Design and Implementation Activity (DIA) developed by a qualified Technical Service Provider (TSP).	50
	None of the above or plan is older than 10 years.	0
Does the FMP identify a resource concern of oak regeneration in an existing oak stand(s) and the EQIP application includes the treatment of understory shade tolerant tree species, such as maple, ironwood, dogwood, etc.?	YES	50
	NO	0
Did NRCS determine a 106 Forest Management Plan and/or 165 Forest Management Design and Implementation Activity is a necessary and efficient way to provide an NRCS client with technical assistance and will a qualified Technical Service Provider (TSP) develop the conservation activity?	YES	50
	NO	0

Survey: Resource Questions

Section: Resource		
Question	Answer Choices	Points

Section: Resource

Question	Answer Choices	Points
Does the EQIP contract leverage the management of natural resources across land ownership (public-private) boundaries? (select one)	EQIP project is located in an area that is bordering land management treatments on public land as identified in the selected JCLRP project proposal.	100
	EQIP project is located in an area near, but not bordering, land management treatments on public land as identified in the selected JCLRP project proposal.	75
	EQIP project is located in an area bordering public land that is identified in the selected JCLRP project proposal, even though the public land is not under active land management treatments.	50
	EQIP project is located in an area near, but not bordering, public land that is identified in the selected JCLRP project proposal, even though the public land is not under active land management treatments.	25
	Not Applicable	0
Does the assessed practice schedule intersect a targeted stewardship cluster?	Yes.	50
	No.	0
