APPLICABLE LAND USE: Forest

RESOURCE CONCERN: Soil, Water, Plants, Air

ENHANCEMENT LIFE SPAN: 15 Year

Enhancement Description

Address forest management on sites that are not adapted to a natural fire disturbance. Applicants that choose to implement this bundle will receive additional ranking points and a higher payment rate.

Criteria

- All of the component enhancements in the required group must be adopted as shown in the table below.
- If an applicant has already adopted one or more component enhancements within a bundle, the applicant may schedule the bundle as long as the applicant is newly adopting the majority (more than 50 percent) of the component enhancements within the bundle.
- Applicants may choose to adopt a bundle on any portion of the agricultural operation and will be required to install component enhancements on all applicable acres where the bundle is adopted.
