(FSA) Eligibility Forms

**for Individuals**

APRIL 2024

[farmers.gov/](https://farmers.gov/)

## Dear Agricultural Partners and New or Prospective Customers,

Thank you for your interest in working with USDA's Farm Service Agency (FSA). Our agency is honored to partner with farmers and ranchers as they navigate every stage of their operation—from getting started to expanding. FSA offers a full suite of programs to help agricultural producers access capital, protect the land and manage risk. We recognize it can be challenging for new customers to navigate the Agency and to get started so we have developed a packet of information that will help producers get to know FSA and will ensure a more productive customer experience when visiting with local FSA staff. FSA is here to grow with you, and you do not have to navigate the agency alone. **Enclosed in this FSA Apply Now Packet is your gateway to USDA Farm Production & Conservation (FPAC) mission area support.**

These forms are needed for customers to participate in FSA and Natural Resources and Conservation Service (NRCS) programs. Specific programs will also have a program application and may also have additional program eligibility forms that need to be completed. Instructions for completing these forms are available at: [farmers.gov/working-with-us/common-forms](https://farmers.gov/working-with-us/common-forms). FSA encourages new customers to contact their local USDA Service Center and schedule a one-on-one appointment with our dedicated FSA employees who are ready and willing to assist new customers in the process of getting started with USDA. You can locate your USDA Service Center's address and phone number at [farmers.gov/service-center-locator](https://farmers.gov/service-center-locator).

We have tools and flexibilities built into many programs to support you as your farming operation changes, and we want to hear from you as these things change so that we can leverage available resources to assist you. We will also work with you to update your customer records. Also, to participate in FSA's [County Committee election](#) nomination and voting process—an important and unique producer right and privilege—new FSA customers need to report any changes to their agricultural operation to FSA. It's important to file ongoing notice of loss reports, acreage/crop certifications, and to participate in FSA's County Committee election nomination and voting processes.

Additionally, [FSA's Loan Assistance Tool](#) is an online platform that guides interested applicants through the farm loan application process. It helps users check their eligibility, directs them to suitable loan types, provides a documentation checklist, and assists with loan application forms. It was launched by the USDA to expand credit access and provide consistent customer experience for all farm loan applicants.

Our skilled and knowledgeable FSA County Office staff delivers direct, in-person, support to producers in every county in the nation and many U.S. territories. Each

state has a State Outreach Coordinator ([fsa.usda.gov/programs-and-services/outreach-and-education/state-outreach-coordinators/index](https://fsa.usda.gov/programs-and-services/outreach-and-education/state-outreach-coordinators/index)) and Beginning Farmer Coordinator ([farmers.gov/your-business/beginning-farmers/coordinators](https://farmers.gov/your-business/beginning-farmers/coordinators)) who can connect you to specific resources available through USDA and our partner organizations. The USDA Farmers website ([farmers.gov](https://farmers.gov)) compiles all farmer-related content from multiple agencies into a one-stop online resource. Here you will find our latest news and announcements, deadlines, tools, the local service center locator and tips on how to prepare for your first visit to your local service center office.

The [Receipt for Service \(RFS\)](#), as required by federal law and USDA regulations, ensures that all USDA customers are properly served in their local offices. All FSA, NRCS, and Rural Development offices are required to provide documentation to you of any services you request. This includes in-person, telephone, and virtual meeting and appointments as well as requests and documentation received via the US Postal Service or email. If the RFS is not offered at the end of your business transaction, you may request it for your records.

FSA is committed to helping you navigate the many opportunities and federal farm program benefits we provide to farmers, ranchers, and landowners to help you reach your production agriculture goals. On behalf of FSA offices and employees nationwide, we look forward to serving you and supporting American agriculture.

Sincerely,

Zach Ducheneaux  
Administrator

# NEW FARMERS

From farm loans to crop insurance, and conservation programs to disaster assistance, the U.S. Department of Agriculture (USDA) is here to support you and your operation.

## GET STARTED

### Contact Your Beginning Farmer and Rancher Coordinator

Each State has a coordinator that can help you with questions on working with USDA.

Find yours at [farmers.gov/manage/newfarmers/coordinators](https://farmers.gov/manage/newfarmers/coordinators).

### Contact Your Local USDA Service Center

Service Centers are USDA offices where Farm Service Agency (FSA) and Natural Resources Conservation Service (NRCS) staff can meet with you one-on-one to discuss your vision, goals, and ways USDA can help. Steps to the process are on the next page.

## USDA SERVICE CENTER AGENCIES

### Farm Service Agency (FSA)

FSA provides disaster assistance, safety net, farm loan, and conservation programs and is the go-to agency for many USDA records. If you're new to working with USDA, your FSA team member will help you register your farm with a farm number. Depending on what you raise or grow, filing an acreage report each season can ensure you're eligible for many programs and allows you to vote in county FSA elections.

### Natural Resources Conservation Service (NRCS)

NRCS provides financial and technical assistance and easement programs for conservation on working lands. Your NRCS team member will ask about your goals for your land and can help you develop a conservation plan and file an application for the wide range of NRCS programs.

## ADDITIONAL USDA RESOURCES

### Risk Management Agency (RMA)

RMA administers federal crop insurance through Approved Insurance Providers to help farmers prepare for the future. Special provisions are available to beginning farmers.

### Rural Development (RD)

RD provides loans, grants, loan guarantees, and technical assistance, along with support for affordable housing, infrastructure modernization, businesses, cooperatives, and other essential community services.

### Cooperative Extension

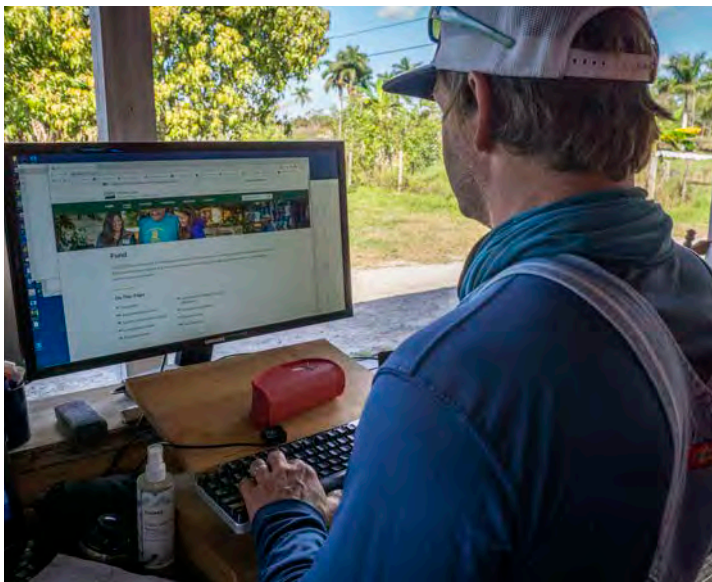

USDA and agricultural colleges around the country work together to support an extensive network of State, regional, and county Cooperative Extension offices, which can help answer questions you may have about your operation and address common issues faced by agricultural producers.

## GET STARTED WITH YOUR LOCAL USDA SERVICE CENTER

Find your local USDA Service Center at [farmers.gov/service-locator](https://farmers.gov/service-locator), which has staff who can meet with you one-on-one to discuss your vision for your land and how we can help. Free, real-time translation service is also available at the Service Center for non-English speakers. Learn more at [farmers.gov/interpret](https://farmers.gov/interpret).

### BEFORE YOUR MEETING

- 1. Make an appointment.** This will ensure quick service. Our offices can get busy, especially at times around program sign-up and reporting deadlines.
- 2. Prepare.** Ask what documents are needed to help to make the most of your appointment. Examples could include lease agreements, bank account information, inventory or production records, legal paperwork, or personal identification numbers.
- 3. Think about your vision.** What is your vision for your land and farm? What are your challenges?

### MORE INFORMATION

Learn more at [farmers.gov/newfarmers](https://farmers.gov/newfarmers).

### DURING YOUR MEETING

- 1. Register for a farm number.** This is required to participate in USDA programs. Have available an official tax identification (Social Security number or employer ID) and a property deed. If you do not own the land, be sure to have your lease agreement. If your operation is incorporated or an entity, we may need proof of your signature authority and legal ability to sign contracts with USDA.
- 2. Discuss your business and conservation goals.** Your local FSA or NRCS team members need to understand your vision to recommend programs for your operation. For example, are you looking for access to capital, to rebuild after a natural disaster, or to improve your farm's soil health, improve irrigation, or attract more wildlife?
- 3. Make a plan to meet conservation compliance provisions.** You'll need to file form AD-1026 to ensure wetland areas and highly erodible lands are not farmed, unless following an NRCS conservation plan. This is required for all USDA program eligibility, including disaster assistance.
- 4. Verify eligibility.** For most USDA programs, producers must file a CCC-941 to verify they do not exceed an adjusted gross income of \$900,000.
- 5. File your program application.** We can help you complete the forms.
- 6. Sign up for email or text updates.** This will help you stay informed about program signups or deadlines.

### AFTER YOUR MEETING

- 1. File your acreage reports throughout the year.**
- 2. Keep in touch with your local office.** Let us know if your business changes or you experience a disaster or hardship.
- 3. Learn about self-service options.** Create a [farmers.gov](https://farmers.gov) account to manage some of your USDA business online.

# Farm Loans Overview

## Overview

The U.S. Department of Agriculture's Farm Service Agency (FSA) offers direct and guaranteed loans to farmers and ranchers to promote, build, and sustain family farms for a thriving agricultural economy.

Farm ownership, operating, and emergency loans are available under the Direct Loan Program. Farm ownership, operating, and conservation loans are available under the Guaranteed Loan Program. FSA offers two types of guarantees under the Land Contract Guarantee Program.

The goal of FSA's farm loan programs is to help farmers and ranchers obtain commercial credit. Once you are able to obtain credit from a commercial lender, our mission of providing temporary, supervised credit is complete.

## Direct Farm Loans

FSA's Direct Loan Program is designed to help farmers start, purchase, or expand their farming operation. From beginning farmers who have limited financial history to qualify for commercial credit to farmers who have suffered financial setbacks from natural disasters, FSA offers a variety of loans to provide additional resources farmers need to establish and maintain profitable farming operations. Farmers may apply for direct loans at their local FSA offices.

## Guaranteed Farm Loans

FSA guaranteed loans are available to farmers who may not meet loan qualifications from a commercial lender. Guaranteed loans are made and serviced by commercial lenders, such as banks, Farm Credit System institutions, or credit unions. Under a guaranteed loan, a commercial lender makes and services the loan, and FSA guarantees it against loss up to a maximum of 90 percent in most cases or 95 percent in limited circumstances. FSA approves eligible loan guarantees and provides oversight of lenders' activities. Contact a local FSA office for a list of participating lenders.

## Farm Ownership Loans

Farm Ownership Loans may be used to purchase a farm, enlarge an existing farm, construct new farm buildings and/or improve structures, pay closing costs, and promote soil and water conservation and protection. The direct loans are available up to a maximum of \$600,000. Microloans are also available. FSA will guarantee farm ownership loans through a commercial leader up to \$2,251,000. The maximum repayment term is 40 years for both direct and guaranteed farm ownership loans.

## Farm Operating Loans

Farm Operating Loans may be used for normal operating expenses, machinery and equipment, minor real estate repairs or improvements, and refinancing debt. The direct loans are available up to a maximum of \$400,000. Microloans are also available. FSA will guarantee farm operating loans through a commercial leader up to \$2,251,000. The repayment term may vary, but it cannot exceed seven years. Annual operating loans are generally repaid within 12 months or when the commodities produced are sold.

Direct operating loans require applicants to have sufficient education, training, or at least one year's experience in managing or operating a farm or ranch within the last five years.

## Down Payment Program

The Down Payment loan assists socially disadvantaged and beginning farmers in purchasing a farm.

Requirements:

- The applicant must make a cash-down payment of at least 5 percent of the purchase price;
- The maximum loan amount does not exceed 45 percent of the least of the purchase price of the farm to be acquired, the appraised value of the farm to be acquired or \$667,000 (Note: This results in a maximum loan amount of \$300,150);
- The term of the loan is a maximum of 20 years. The interest rate is 4 percent below the direct farm ownership rate, but not lower than 1.5 percent;
- The remaining balance may be obtained from a commercial lender or private party. FSA can provide up to a 95 percent guarantee if financing is obtained from a commercial lender. Participating lenders do not have to pay a guarantee fee
- Financing from participating lenders must have an amortization period of at least 30 years and cannot have a balloon payment due within the first 20 years of the loan.

## Youth Loans

Youth loans may be made to young persons who are sponsored by a project advisor, such as a 4-H club, FFA, tribal youth organization, or similar agriculture affiliated group. The project must provide an opportunity for the young person to acquire experience and education in agriculture-related skills. These loans are only available as direct loans with a maximum loan amount of \$10,000. Youth loans are available to those between the ages of 10 and 20 years at the time of loan closing.

## Emergency Loans

Emergency loans help farmers and ranchers who have suffered a loss caused by natural disasters that damaged their farming or ranching operation.

Emergency loan funds may be used to restore or replace essential property, pay all or part of production costs associated with the disaster year, pay essential family living expenses, reorganize the farming operation, and refinance certain debts. The county or counties where the farm is located must be declared a disaster area by the President or designated by the Secretary of Agriculture. "For production loss loans, applicants must have suffered a loss of production below the normal production yield of the crop or realized a physical loss to livestock, livestock products, real estate or personal property."

Producers can borrow up to 100 percent of actual production or physical losses to a maximum amount of \$500,000, excluding any duplicate payments such as crop insurance indemnity payment or other government payments.

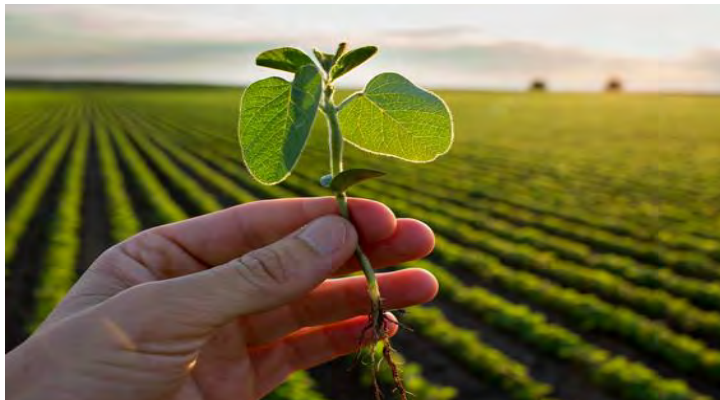

## Conservation Loans

Conservation Loans provide access to credit for farmers and ranchers who want to implement conservation measures on their land. These loans are available to both smaller and less financially established farmers and ranchers, and to larger and financially stronger farmers and ranchers. The family farm and test for credit requirements are not applicable to Conservation Loans.

Farmers and ranchers may use conservation loans to complete any conservation activity included in a USDA approved conservation plan or Forestry Management Plan. The maximum loan amount is \$2,251,000 with a maximum repayment term of 30 years. Conservation Loans are available as guaranteed loans only.

## Loans for Beginning and Socially Disadvantaged Farmers

Each year, Congress targets a percentage of farm ownership and farm operating loan funds to beginning and socially disadvantaged farmers. Providing loan programs is important as these groups of farmers have historically experienced more difficulties obtaining financial assistance. FSA offers several loan programs to assist beginning and socially disadvantaged farmers (refer to the fact sheets titled Loans for Socially Disadvantaged Farmers and Ranchers and Loans for Beginning Farmers and Ranchers). FSA's Down Payment Program is offered to assist socially disadvantaged and beginning farmers in purchasing a farm with a maximum loan amount of \$300,150.

## Land Contract Guarantees

FSA also offers financial guarantees for land sale contracts to a beginning or socially disadvantaged farmer. The seller may request either of the following:

- **Prompt Payment Guarantee:** A guarantee up to the amount of three amortized annual installments plus the cost of any related real estate taxes and insurance.
- **Standard Guarantee:** A guarantee of 90 percent of the outstanding principal balance under the land contract.

The purchase price of the farm cannot exceed the lesser of \$500,000 or the market value of the property.

The buyer must provide a minimum down payment of 5 percent of the purchase price of the farm. The interest rate is fixed at a rate not to exceed the direct farm ownership loan interest rate in effect at the time the guarantee is issued, plus three percentage points. The guarantee period is 10 years for either plan regardless of the term of the land contract. The contract payments must be amortized for a minimum of 20 years. Balloon payments are prohibited during the 10-year term of the guarantee.

## Who is Eligible

Eligibility requirements:

- Be a family farmer;
- Have a satisfactory credit history;
- Be a citizen of the United States, including Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, Commonwealth of the Northern Mariana Islands, Republic of Palau, Federated States of Micronesia and the Republic of Marshall Islands; a U.S. non-citizen national or a qualified alien under federal immigration law;
- Be unable to obtain credit elsewhere at reasonable rates and terms to meet actual needs;
- Have the legal capacity to incur the obligations of the loan;
- Not have outstanding unpaid judgments obtained by the U.S. in any court, excluding judgments filed in U.S. Tax Courts;

- Not be delinquent on a federal debt;
- Must not have provided FSA with false or misleading documents or statements in the past;
- Not have been convicted under federal or state laws of planting, cultivating, growing, producing, harvesting, or storing a controlled substance within the last 5 crop years;
- Not have received debt forgiveness from FSA (certain exceptions apply); and
- Be within the time restrictions as to the number of years they can receive FSA assistance.

Applications may also be made by entities. Entities are corporations, cooperatives, joint operations, partnerships, trusts, and limited liability companies. Their members/stockholders must meet these same eligibility requirements. The entity must also be authorized to operate a farm or ranch in the state where the land is located.

For socially disadvantaged members, they must hold a majority interest in the entity applicant to receive targeted funding

## Working with Farmers and Ranchers

FSA does more than just provide credit - it works with farmers and ranchers to identify strengths and opportunities for improvement in farm production and management. FSA helps farmers and ranchers find alternative options, so they can achieve success. Learning and improving business planning and financial insight through FSA's credit management is the difference between success and failure for many farm families.

FSA works to keep farmers and ranchers farming. FSA may be able to support direct loan borrowers whose accounts are distressed or delinquent, including:

- Re-amortization, rescheduling, consolidation, and/or deferral of loans;
- Rescheduling at a lower interest rate;
- Acceptance of conservation contracts on environmentally sensitive land in exchange for reduction of debt; and
- Writing down the debt.

If none of these options results in a feasible farm operating plan, FSA will work with borrowers to determine if they are eligible for consideration to retain the homestead and up to 10 acres. Borrowers may be offered the opportunity to pay off their debt for an amount below the full debt if that amount represents the market value of the loan collateral.

Farms that come into FSA ownership are sold at market value, with preference given to socially disadvantaged and beginning farmers.

# Reimbursement Transportation Cost Payment Program (RTCP) for Geographically Disadvantaged Farmers and Livestock Producers

## Overview

The Consolidated Appropriations Act of 2024 re-authorized the Reimbursement Transportation Cost Payment Program (RTCP) for geographically disadvantaged farmers and livestock producers to reimburse producers for a portion of the cost to transport agricultural commodities or inputs used to produce an agricultural commodity.

## Funding

TCP is subject to appropriated funding and rescissions may apply. The Consolidated Appropriations Act of 2024 authorized \$3.5 million for fiscal year 2024.

## Who is Eligible?

Producers eligible for RTCP include geographically disadvantaged farmers and livestock producers in an insular area. This includes farmers and livestock producers from the following states, territories and areas:

- ♦ Hawaii;
- ♦ Alaska;
- ♦ Commonwealth of Puerto Rico;
- ♦ Guam;
- ♦ American Samoa;
- ♦ Commonwealth of the Northern Mariana Islands;
- ♦ Federated States of Micronesia;
- ♦ Republic of the Marshall Islands;
- ♦ Republic of Palau; and
- ♦ Virgin Islands of the United States.

## What is Eligible?

The following agricultural commodities are eligible for the RTCP:

- ♦ Aquaculture;
- ♦ Feed;
- ♦ Fiber;
- ♦ Floriculture;
- ♦ Horticulture, including trees;
- ♦ Insects or products thereof; and
- ♦ Livestock, including elk, reindeer, bison, horses and deer.

## How it Works Eligibility Requirements

To be eligible for RTCP benefits, producers must:

- ♦ Be a geographically disadvantaged farmer or rancher producing, marketing and transporting an agricultural commodity in an approved area;
- ♦ Submit an application during the specified period applicable for each fiscal year;

## More Information

For more information about FSA programs, contact the closest USDA service center or visit the FSA website at [fsa.usda.gov](https://fsa.usda.gov). To locate an FSA county office or USDA service center, visit [farmers.gov/servicelocator](https://farmers.gov/servicelocator).

- ♦ Provide proof of the amount of costs incurred for the transportation of the agricultural commodity or input;
- ♦ Comply with conservation and wetland protection requirements on all their land;
- ♦ Be a person or legal entity with an average adjusted gross income that does not exceed \$900,000; and
- ♦ Be a citizen or a legal resident alien of the United States in accordance with 7 CFR Part 1400 for foreign persons.
- ♦ Note: Commercial fishermen are not eligible for RTCP benefits

## Payment Calculation

RTCP payments will be calculated based on the amount of costs incurred by the producer for transportation of the agricultural commodity or inputs during a fiscal year and multiplied by the applicable percentage of allowance (cost-of-living allowance or COLA) for the applicable fiscal year in the applicable area.

Example: A producer incurred transportation costs in Hawaii for fiscal year 2024 totaling \$15,000.

The fiscal year 2024 percentage of allowance in Maui County, Hawaii, is 25 percent.  $\$15,000 \times 25 \text{ percent} = \$3,750$ .

Note: RTCP payments are subject to an \$8,000 per producer cap per fiscal year. A higher payment cap may be determined if claims for payments do not exceed available funding. Therefore, applicants are encouraged to submit all eligible receipts. If claims for payments exceed the funds available from the program for a fiscal year, payments will be reduced on a pro-rata basis.

## Transportation Rates

Types of transportation rates used to determine reimbursable amounts are as follows:

- ♦ **Actual Rate** — is based on the actual transportation costs incurred by the applicant and must be determined, in all cases, from verifiable records. No other type of transportation rate is permitted under this option for the same request.
- ♦ **Fixed Rate** — is established by the FSA state committee (STC) with Deputy Administrator for Farm Programs (DAFP) concurrence and reflects transportation rates applicable to certain agricultural commodities or inputs used to produce the agricultural commodity.
- ♦ **Set Rate** — is established by the STC with DAFP concurrence and reflects a percent of the total cost used to represent the transportation cost incurred. This rate will only be used if the inputs do not have an established fixed rate or if a breakdown of the transportation costs is not available.

Applicants who have certified their costs, and either a fixed or set transportation rate is used to determine the reimbursable amounts, are subject to a compliance spot check to provide verifiable proof that the transportation of the agricultural commodities or inputs occurred for the applicable fiscal year.

## Fiscal Year 2024 Enrollment Period

Enrollments for fiscal year 2024 will begin July 8, 2024, and end Sept. 30, 2024. Since RTCP benefits are based on transportation costs incurred during a fiscal year. Producers will have until Nov. 1, 2024 to provide supporting documentation of their actual transportation costs to replace any certified amounts for fiscal year 2024.

## How to Apply

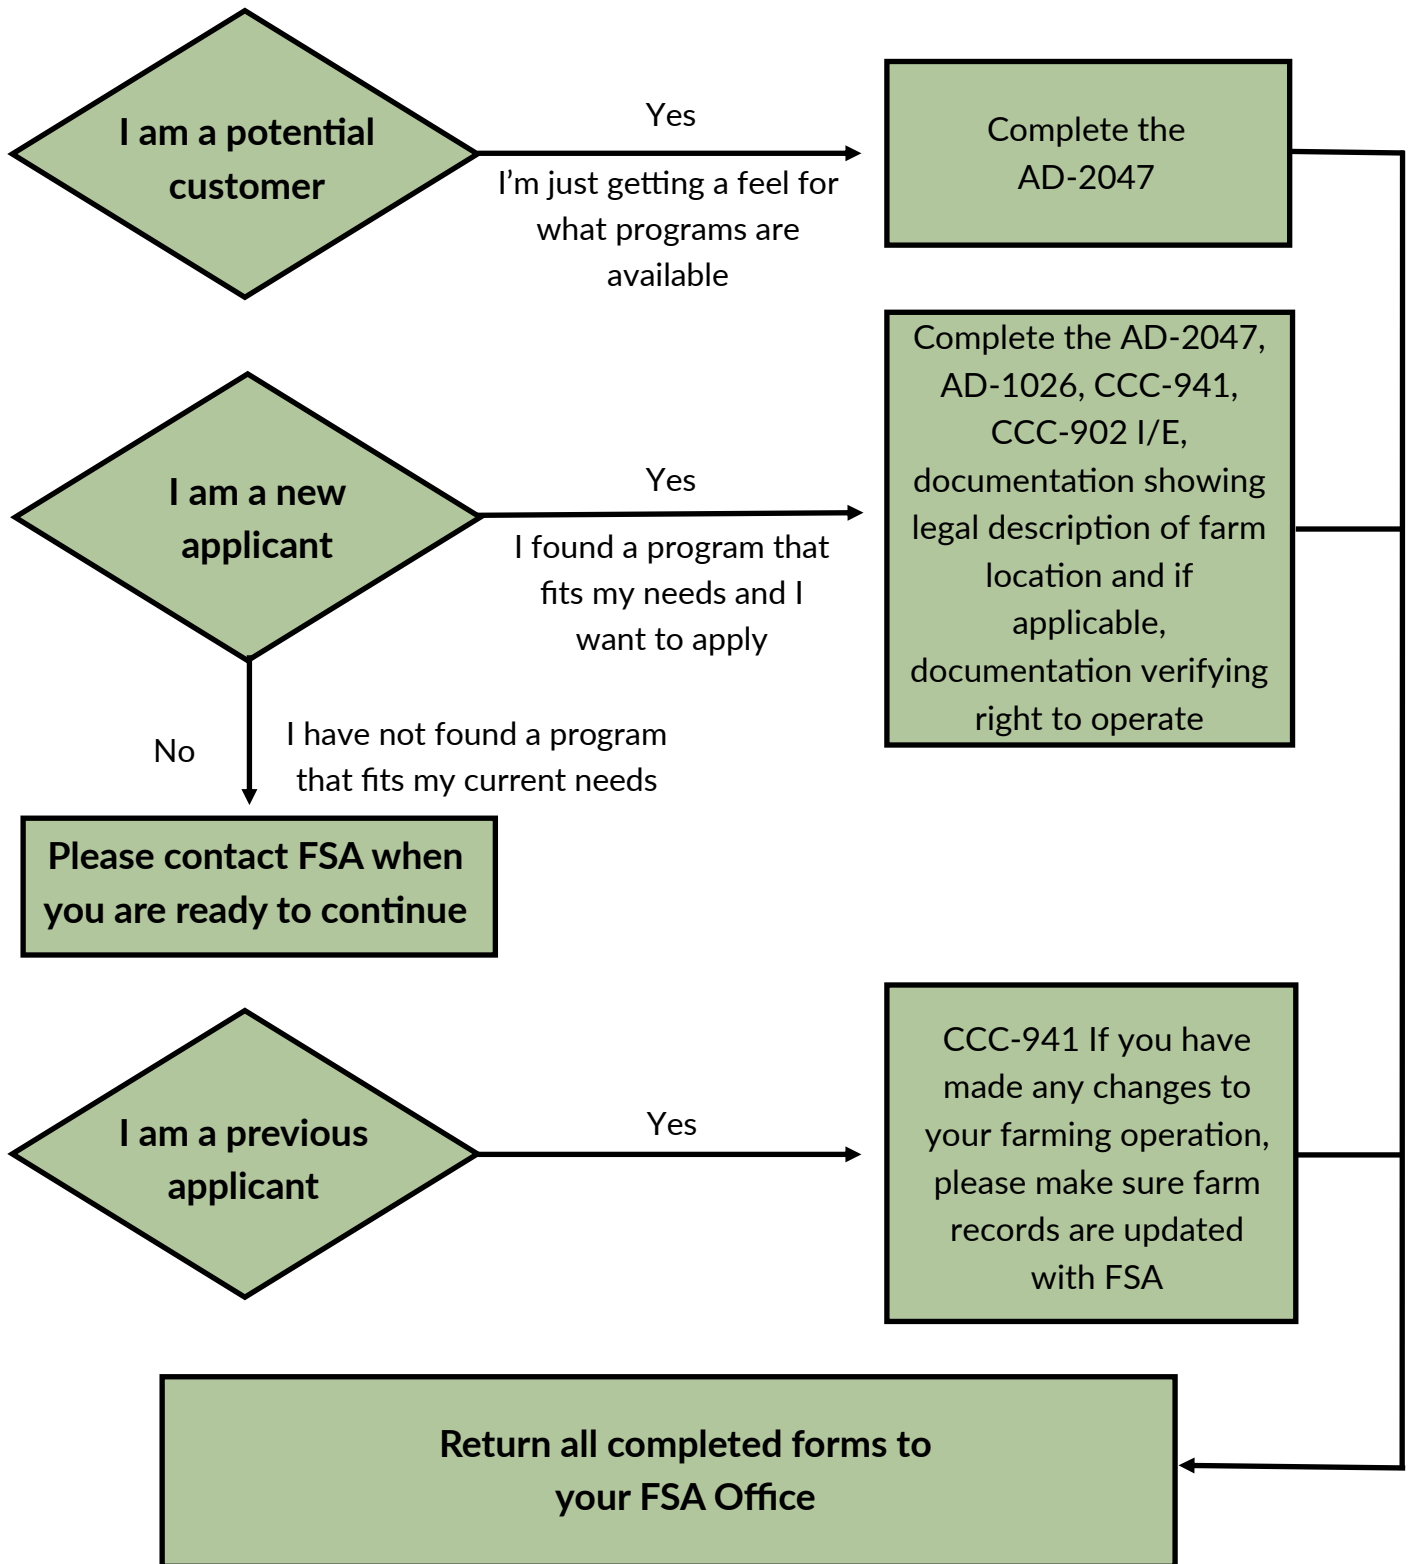

Applicants must file an application for benefits at the FSA service center that maintains the farm records for their business. To locate an FSA county office or service center, visit [farmers.gov/service-center-locator](https://farmers.gov/service-center-locator).

Applicants located in the insular areas of the Pacific Basin must file an application for benefits directly with the Hawaii State and Pacific Basin Office. Applicants in the insular areas of the Pacific Basin may submit completed RTCP documents to the following address during the announced enrollment period. Hawaii State and Pacific Basin Farm Service Agency Office P.O. Box 50065 300 Ala Moana Blvd, Rm 5-108 Honolulu, HI 96850 Applications and other documents required for RTCP participation may be obtained by calling toll-free 1-888-709-8957.

## Steps to Eligibility:

1. Form AD-2047, *Customer Data Worksheet*.
  - This form will be filled out for all individuals and legal entities (including entity members) who have not previously provided their personal information to USDA that positively identifies the applicant.
2. Form CCC-860, *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification*, (if applicable).
  - This form is used to certify that an individual, legal entity, or joint operation is a member of one or more of the specific producer groups listed on the form.
3. Establish a Farm Record and Obtain a Farm Number
  - This is required to participate in USDA programs. FSA will need documents to prove your association with the land in your farming operation. There are several ways to prove association with land. For an owner, this may be a property deed. If you do not own the land, you may provide a lease agreement. Additionally, FSA has further methods for operators on heirs' property to prove their association. If your operation is incorporated or an entity, we may need proof of your signature authority and legal ability to sign contracts with USDA.
4. Form AD-1026 *Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) Certification*
  - Most USDA programs require a producer complete the AD-1026. If the applicant does not have any farming interests, this can be certified in box 5A. If the applicant does have a farming interest, the form must be completed in its entirety and information must be submitted to establish the farm records for which the certification applies.
5. Form CCC-941, *Average Adjusted Gross Income (AGI)*
  - To participate in many programs, you can't have an average adjusted gross income of more than \$900,000. To certify this, you file the Average Adjusted Gross Income (AGI) Certification and Consent to Disclosure of Tax Information (CCC-941) each year.
6. Form CCC-902I, *Farm Operating Plan for an Individual*
  - Your local Farm Service Agency representative assists you in completing a Farm Operating Plan (CCC-902). Every farming operation completes a CCC-902 to provide information regarding the operation's structure and contributions of capital, equipment, land, labor, and management.
7. Form SF-3881, *Payment Enrollment Form for FSA*
  - USDA payments are generally directly deposited with your bank. This form will allow you to set up or change your direct deposit information for USDA payments.
8. Form SF-1199A, *Payment Enrollment Form for NRCS*
  - USDA payments are generally directly deposited with your bank. This form will allow you to set up or change your direct deposit information for USDA payments.

**Definitions:****A. Socially Disadvantaged Farmer or Rancher:**

A socially disadvantaged farmer or rancher is a farmer or rancher who is a member of a group whose members have been subject to racial, ethnic, or gender prejudice because of their identity as members of a group without regard to their individual qualities. Groups include: American Indians or Alaskan Natives, Asians or Asian Americans, Blacks or African Americans, Native Hawaiians or other Pacific Islanders, Hispanics, and women (for those selecting a group that includes gender). Note that if applicant only checks “women” without also selecting the other category the selection does not make applicant socially disadvantaged for conservation programs.

For entities requesting to be considered socially disadvantaged, at least 50% of the interest must be held by socially disadvantaged individuals.

**B. Limited Resource Farmer or Rancher:**

A limited resource farmer or rancher is a farmer or rancher that meets the criteria for both of the following:

- A producer whose direct or indirect gross farm sales do not exceed the amount identified in the Limited Resource Farmer/Rancher Self-Determination Tool\* in each of the 2 calendar years that precede the complete taxable year before the relevant program year, adjusted upwards in later years for any general inflation, and

Table 1: Direct and Indirect Gross Sales	
Program Year	Corresponding Years
2017	2014 and 2015
2018	2015 and 2016
2019	2016 and 2017
2020	2017 and 2018

- A producer whose total household income was at or below the national poverty level for a family of four in each of the same 2 previous years reference in paragraph (1) of this definition.

\* A limited resource farmer or rancher status can be determined using the web site available through the Limited Resource Farmer and Rancher Online Self-Determination Tool through Natural Resources Conservation Service at <https://lrftool.sc.egov.usda.gov/>.

For entities requesting to be considered limited resource farmer or rancher, all members must be a limited resource farmer or rancher.

**Note:** This definition is not applicable to Farm Loan Programs.

**C. Beginning Farmer or Rancher:**

A beginning farmer or rancher is a person or legal entity for which both of the following are true for the farmer or rancher:

- Has not operated a farm or ranch for more than 10 years, and
- Materially and substantially participates in the operation.

**NOTE:** This definition is not inclusive of all Farm Loan Programs requirements.

**D. Veteran Farmer or Rancher:**

- Has not operated a farm or ranch for more than 10 years total, or
- Has obtained status as a veteran (as so defined in 38 U.S.C. 101(2)) during the most recent 10-year period.

For entities requesting to be considered a veteran farmer or rancher, at least 50% of the interest must be held by veteran farmers or ranchers.

**E. NAP Coverage Option:**

The Noninsured Crop Disaster Assistance Program (NAP) provides financial assistance to producers of non-insurable crops when a low yield, loss of inventory, or prevented planting occurs due to natural disasters. Non-insurable crops are those not insured by the Federal Crop Insurance Corporation. Eligible crops for NAP are commercially grown for food or fiber (excluding livestock and their by-products), commodities, and industrial crops for which crop insurance, excluding pilot coverage, is not available.

Catastrophic coverage is equal to 50 percent of your expected yield and 55 percent of the expected price for the eligible crop (referred to as Basic 50/55). You are not required to pay a fee or a premium for this level of coverage. Additional coverage options and higher levels of coverage are available with a premium. To avail yourself to these options, you must timely file CCC-471 (NAP Application for Coverage) in any FSA County office.

For additional information regarding NAP, visit FSA's NAP page at:

**HIGHLY ERODIBLE LAND CONSERVATION (HELC) AND  
WETLAND CONSERVATION (WC) CERTIFICATION****Read attached AD-1026 Appendix before completing form.****PART A – BASIC INFORMATION**

1. Name of Producer	2. Tax Identification Number (Last 4 digits)	3. Crop Year
4. Names of affiliated persons with farming interests. Enter "None," if applicable.		
<i>Affiliated persons with farming interests must also file an AD-1026. See Item 7 in the Appendix for a definition of an affiliated person.</i>		
5. Check one of these boxes if the statement applies; otherwise continue to Part B. A. <input type="checkbox"/> The producer in Part A does not have interest in land devoted to agriculture. Examples include bee keepers who place their hives on another person's land, producers of crops grown in greenhouses, and producers of aquaculture AND these producers do not own/lease any agricultural land themselves. <b>Note:</b> Do not check this box if the producer shares in a crop.  B. <input type="checkbox"/> The producer in Part A meets all three of the following: <ul style="list-style-type: none"> <li>does not participate in any USDA program that is subject to HELC and WC compliance except Federal Crop Insurance.</li> <li>only has interest in land devoted to agriculture which is exclusively used for perennial crops, except sugarcane, and</li> <li>has not converted a wetland after February 7, 2014.</li> </ul> <p>Perennial crops include, but are not limited to, tree fruit, tree nuts, grapes, olives, native pasture and perennial forage. A producer that produces alfalfa should contact the Natural Resources Conservation Service at the nearest USDA Service Center to determine whether such production qualifies as production of a perennial crop.</p> <p><b>Note:</b> If either box is checked, and the producer in Part A does not participate in Farm Service Agency (FSA) or Natural Resources Conservation Service (NRCS) programs, the full tax identification number of the producer must be provided, but establishment of detailed farm records with FSA is not required. Go to Part D and sign and date.</p>		

**PART B - HELC/WC COMPLIANCE QUESTIONS**

Indicate YES or NO to each question. <i>If you are unsure of whether a HEL determination, wetland determination, or NRCS evaluation has been completed, contact your local USDA Service Center.</i>	YES	NO
6. During the crop year entered in Part A or the term of a requested USDA loan, did or will the producer in Part A plant or produce an agricultural commodity (including sugarcane) on land for which an HEL determination has not been made?		
7. Has anyone performed (since December 23, 1985), or will anyone perform any activities to:		
A. Create new drainage systems, conduct land leveling, filling, dredging, land clearing, or excavation that has <b>NOT</b> been evaluated by NRCS? <b>If "YES", indicate the year(s):</b> _____		
B. Improve or modify an existing drainage system that has <b>NOT</b> been evaluated by NRCS? <b>If "YES", indicate the year(s):</b> _____		
C. Maintain an existing drainage system that has <b>NOT</b> been evaluated by NRCS? <b>If "YES", indicate the year(s):</b> _____ <b>Note:</b> Maintenance is the repair, rehabilitation, or replacement of the capacity of existing drainage systems to allow for the continued use of wetlands currently in agricultural production and the continued management of other areas as they were used before December 23, 1985. This allows a person to reconstruct or maintain the capacity of the original system or install a replacement system that is more durable or will realize lower maintenance or costs.		
<b>Note:</b> If "YES" is checked for Item 7A or 7B, then Part C must be completed to authorize NRCS to make an HELC/WC and/or certified wetland determination on the identified land. If "YES" is checked for Item 7C, NRCS does not have to conduct a certified wetland determination.		
8. Check one or both boxes, if applicable; otherwise, continue to Part C or D.		
A. <input type="checkbox"/> Check this box only if the producer in Part A has FCIC reinsured crop insurance and filing this form represents the <u>first time</u> the producer in Part A, including any affiliated person, has been subject to HELC and WC provisions.

I have received and read the AD-1026 Appendix and understand and agree to the terms and conditions therein on all land in which I (or the producer in Part A if different) and any affiliated person have or will have an interest. I understand that eligibility for certain USDA program benefits is contingent upon this certification of compliance with HELC and WC provisions and I am responsible for any non-compliance. I understand and agree that this certification of compliance is considered continuous and will remain in effect unless revoked or a violation is determined. I further understand and agree that:

- all applicable payments must be refunded if a determination of ineligibility is made for a violation of HELC or WC provisions.
- NRCS may verify whether a HELC violation or WC has occurred.
- a revised Form AD-1026 must be filed if there are any operation changes or activities that may affect compliance with the HELC and WC provisions. I understand that failure to revise Form AD-1026 for such changes may result in ineligibility for certain USDA program benefits or other consequences.
- affiliated persons are also subject to compliance with HELC and WC provisions and their failure to comply or file Form AD-1026 will result in loss of eligibility for applicable benefits to any individuals or entities with whom they are considered affiliated.

**APPENDIX TO FORM AD-1026  
HIGHLY ERODIBLE LAND CONSERVATION (HELC) AND  
WETLAND CONSERVATION (WC) CERTIFICATION**

**1. Overview**

The following conditions of eligibility are required for a producer to receive any U.S. Department of Agriculture (USDA) loans or other program benefits that are subject to the highly erodible land conservation (HELC) and wetland conservation (WC) provisions. Unless an exemption has been granted by USDA, the producer agrees to all of the following on all farms in which the producer, and any affiliated person to the producer (as specified in 7 CFR Part 12), has an interest:

- **NOT** to plant or produce an agricultural commodity on highly erodible land or fields unless being farmed in accordance with a conservation plan or system approved by the Natural Resources Conservation Service.
- **NOT** to plant or produce an agricultural commodity on a wetland that was converted after December 23, 1985.
- **NOT** to have converted a wetland after November 28, 1990, for the purpose, or to have the effect, of making the production of an agricultural commodity possible on such converted wetland.
- **NOT** to convert a wetland by draining, dredging, filling, leveling, removing woody vegetation, or any other activity that results in impairing or reducing the flow and circulation of water in a way that would allow the planting of an agricultural commodity.
- **NOT** to use proceeds from any Farm Service Agency farm loan, insured or guaranteed, or any USDA financial assistance program, in such a way that might result in negative impacts to a wetland, except for those projects evaluated and approved by Natural Resources Conservation Service.

**2. Statutory and Regulatory Authority**

The Food Security Act of 1985, as amended, requires producers participating in most programs administered by the Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS), and the Risk Management Agency (RMA) to comply with HELC and WC provisions on all land owned or farmed that is considered highly erodible or a wetland unless USDA determines an exemption applies. Producers participating in these programs, and any individual or entity considered to be an affiliated person of a participating producer, are subject to these provisions. The regulations covering these provisions are set forth at 7 CFR Part 12; all such provisions, whether or not explicitly stated herein, shall apply.

**3. Explanation of Terms**

Agricultural commodity is **any** crop planted and produced by annual tilling of the soil, including tilling by one-trip planters, or sugarcane.

Highly erodible land is any land that has an erodibility index of 8 or more.

Highly erodible fields are fields where either:

- 33.33 percent or more of the total field acreage is identified as soil map units that are highly erodible; or
- 50 or more acres in such field are identified as soil map units that are highly erodible.

Perennial crop is any crop that is planted once and produces crops over multiple years. Go to [www.nrcs.usda.gov/compliance](http://www.nrcs.usda.gov/compliance) for a list of perennial and annual crops.

Wetland is an area that:

- has a predominance of hydric soils (wet soils);
- is inundated or saturated by surface or groundwater (hydrology) at a frequency and duration sufficient to support a prevalence of hydrophytic (water tolerant) vegetation typically adapted for life in saturated soil conditions; and
- under normal circumstances supports a prevalence of such vegetation, except that this term does not include lands in Alaska identified as having a high potential for agricultural development and a predominance of permafrost soils.

#### 4. NRCS and FSA Determinations

When making HELC and WC compliance determinations:

- NRCS makes technical determinations; these include :
  - For HELC compliance:
    - whether land is considered highly erodible ;
    - establishing conservation plans or systems; and
    - whether highly erodible fields are being farmed in accordance with a conservation plan or system approved by NRCS.
  - For WC compliance:
    - whether land is a wetland and if certain technical exemptions apply , such as prior converted;
    - whether a wetland conversion has occurred.
- FSA's responsibilities include:
  - making eligibility determinations, such as who is ineligible based upon NRCS technical determinations of non-compliance.
  - acting on requests for application of certain eligibility exemptions, such as the good faith relief exemption.
  - maintaining the official USDA records of highly erodible land and wetland determinations. The determinations are recorded both within the geographic information system and the automated farm and tract records maintained by FSA; however, it is important to know that determinations may not include all of a producer's land. If a producer is uncertain of the highly erodible land and wetland determinations applicable to any of the producer's land, the producer should contact the appropriate USDA Service Center for assistance.

#### 5. HELC and WC Non-Compliance - FSA and NRCS Programs

Producers who are not in compliance with HELC and WC provisions are not eligible to receive benefits for most programs administered by FSA and NRCS. If a producer received program benefits and is later found to be non-compliant, the producer may be required to refund all benefits received and/or may be assessed a penalty.

In particular, unless exemptions apply, a producer participating in FSA and NRCS programs must: not plant or produce an agricultural commodity on a highly erodible field unless such production is in compliance with a conservation plan or system approved by NRCS; not have planted or produced an agricultural commodity on a wetland converted after December 23, 1985; and, after November 28, 1990, must not have converted a wetland for the purpose, or to have the effect, of making the production of an agricultural commodity possible on such converted wetland.

A producer who violates HELC or WC provisions is ineligible for applicable FSA and NRCS benefits for the year(s) in violation. A planting violation, whether on highly erodible land or a converted wetland, results in ineligibility for benefits for the year(s) when the planting occurred. A wetland conversion violation results in ineligibility beginning with the year in which the conversion occurred and continuing for subsequent years, unless the converted wetland is restored or mitigated before January 1<sup>st</sup> of the subsequent year.

#### 6. HELC and WC Non-Compliance - Risk Management Agency - Crop Insurance Policies Reinsured by the Federal Crop Insurance Corporation

Producers obtaining federally reinsured crop insurance will not be eligible for any premium subsidy paid by the Federal Crop Insurance Corporation (FCIC) for any policy or plan of insurance if the producer:

- has not filed a completed Form AD-1026 with FSA certifying compliance with HELC and WC provisions; or
- is not in compliance with HELC and WC provisions.

Unless an exemption applies, a producer must:

- not plant or produce an agricultural commodity on a highly erodible field, unless such production is in compliance with a conservation plan approved by NRCS;
- not plant or produce an agricultural commodity on a wetland converted after February 7, 2014; and
- not have converted a wetland for the purpose, or to have the effect, of making the production of an agricultural commodity possible on such converted wetland after February 7, 2014.

A producer is ineligible for any premium subsidy paid by FCIC on all policies and plans of insurance for the reinsurance year (July 1 – June 30) following the reinsurance year of a final determination of a violation of HELC or WC provisions, including all administrative appeals, unless specific exemptions apply. Further, a producer will be ineligible for any premium subsidy paid by FCIC on all policies and plans of insurance for a reinsurance year if they do not have a completed Form AD-1026 on file with FSA certifying compliance on or before the June 1 prior to the beginning of the subsequent reinsurance year (July 1), unless otherwise exempted. RMA will contact FSA to determine compliance with HELC and WC provisions and the filing of Form AD-1026 prior to the beginning of a reinsurance year, which begins on July 1. If the producer is not in compliance and is not exempt, the producer will be ineligible for premium subsidy for all crops with a sales closing date between the following July 1 through the next June 30.

## 7. Affiliated Persons

Any affiliated person of a producer requesting benefits subject to HELC and WC provisions must also be in compliance with those provisions. Ineligibility of a producer will also apply to affiliated persons of that producer. If an affiliated person has a farming interest (as owner, operator, or other producer on any farm), the affiliated person must also file Form AD-1026 certifying compliance with HELC and WC provisions in order for the producer requesting benefits to be eligible.

**Use this table to determine affiliated persons who must be in compliance with HELC and WC provisions and file Form AD-1026. If you are unsure about an affiliated person determination, please contact FSA at your local USDA Service Center for assistance.**

**GENERAL INFORMATION ON AVERAGE ADJUSTED GROSS INCOME – PART A**

Individuals or legal entities that receive benefits under most programs administered by CCC cannot have incomes that exceed a certain limit set by law. For entities, both the entity itself, and its members cannot exceed the income limitation. If a member, whether an individual or an entity, of an entity exceeds the limitation, payments to that entity will be commensurately reduced according to that member's direct or indirect ownership share in the entity. (All members of the entity must also submit this form to verify income the limitation is met.)

**Adjusted Gross Income** is the individual's or legal entity's IRS-reported adjusted gross income consisting of both farm and nonfarm income. A three-year average of that income will be computed for the three years of the relevant base period identified on the first page of this form to determine eligibility for the applicable program year. Individuals or legal entities with average **adjusted gross income** greater than \$900,000 shall be ineligible for all payments and benefits under the commodity, price support, disaster assistance, and conservation programs.

**HOW TO DETERMINE ADJUSTED GROSS INCOME (AGI)**

**Individual** – Internal Revenue Service (IRS) Form 1040 filers, specific lines on that form represent the adjusted gross income and the income from farming, ranching, or forestry operations.

**Trust or Estate** – the adjusted gross income is the total income and charitable contributions reported to IRS.

**Corporation** – the adjusted gross income is the total of the final taxable income and any charitable contributions reported to IRS.

**Limited Partnership (LP), Limited Liability Company (LLC), Limited Liability Partnership (LLP) or Similar Entity** – the adjusted gross income is the total income from trade or business activities plus guaranteed payments to the members as reported to the IRS.

**Tax-exempt Organization** – the adjusted gross income is the unrelated business taxable income excluding any income from non-commercial activities as reported to the IRS.

**HOW TO DETERMINE AVERAGE ADJUSTED GROSS INCOME**

The period for calculation of the average AGI will be of the three taxable years preceding the most immediately preceding complete taxable year for which benefits are requested. This table shows examples for applicable years to be used in determining average AGI.

IF the crop year is...	THEN... Average AGI will be based on the following years....
2019	2017, 2016, and 2015
2020	2018, 2017, and 2016
2021	2019, 2018, and 2017
2022	2020, 2019, and 2018
2023	2021, 2020, and 2019

**GENERAL INFORMATION ON CONSENT TO DISCLOSURE OF TAX INFORMATION – PART B**

This consent allows IRS's access to, and use of, certain items of return information to perform calculations, using a methodology prescribed by the USDA, that will assist USDA in its verification of a program participant's compliance with the adjusted gross income (AGI) limitations necessary for participation in, and receipt of, commodity, conservation, price support or disaster program benefits. This consent also permits the USDA to receive certain items of return information for its eligibility determination.

This consent authorizes the disclosure of these items of return information for only the time period specified. Each item of information requested on this form is needed for the IRS to (1) locate, and verify, your tax information; (2) perform the requisite Average AGI calculations; and (3) provide the USDA with the legal entity's name and Taxpayer Identification Number (TIN), the type of return from which the specified items were located for use in the calculation, and whether or not the average AGI is above or below eligibility requirements. The IRS will not provide the USDA with any of the items specified on this consent form that it uses to perform the calculations or the average AGI figure.

This form can only be signed by the person authorized under state law to sign this consent for the legal entity identified in Item 2. **An approved Power of Attorney (Form FSA-211) on file with USDA cannot be used as evidence of signature authority when completing this form.**

Internal Revenue Code, §6103(c), limits disclosure and use of return information received pursuant to the taxpayer's consent and holds the recipient subject to penalties for any unauthorized access, other use, or redisclosure without the taxpayer's express permission or request.

# Glossary of Terms

---

**Acreage Report** — documents the crops grown on your farm or ranch and their intended uses. You must file timely acreage reports to be eligible for many USDA programs.

**Advance Payment** — a payment that may be made available in advance of the installation of the conservation practice.

**Assignment of Payment** — this form known as the CCC-36 allows the participant to directly assign part or all of a payment received for **Farm Bill** program participation to another individual, group of individuals or entities.

**Farm Bill** — a package of legislation passed roughly once every 5 years that impacts farming livelihoods, how food is grown, what kinds of foods are grown. It covers commodities, conservation, nutrition, loans, rural development, research, extension services, forestry, energy, horticulture, crop insurance, labor safety, workforce development, and much more.

**Conservation Concern** — an expected degradation of the soil, water, air, plant, animal, or energy resource base to an extent that the sustainability or intended use of the resource is impaired. This may also be called a **Resource Concern**.

**Conservation Loan** — an FSA Direct or Guaranteed Loan that can be used to fund the implementation of approved conservation practices in accordance with an NRCS Conservation Plan of Forest Service Steward Management Plan.

**Conservation Plan** — a free tool designed to help you better manage the natural resources on your farm or ranch. An NRCS **conservationist** will meet with you to evaluate the soil, water, air, plant, and animal resources on your property and offer several alternatives to address the resource conditions. The alternatives you decide to use are recorded in your conservation plan, which includes a schedule for installation.

**Conservation Planning Activities** — activities for which producers can receive NRCS funding to engage **Technical Service Providers** (TSPs) to help identify and assess the resource concerns against planning criteria in a **conservation plan** and determine the practices to implement.

**Conservation Practice Standard** — NRCS guidance that contains information on why and where a practice is applied and sets forth the minimum quality criteria that must be met during the application of a practice in order for it to achieve its intended purpose.

**Conservationist** — an individual who provides technical expertise and conservation planning for farmers, ranchers, and forest landowners wanting to make conservation improvements to their land.

**Cooperative Extension Service** — assists the public in the areas of agriculture, lawn and garden, community development, 4H and youth development, family, and consumer education.

**FSA County Committee** — a committee elected by the agricultural producers in the county or area to help deliver farm program at the local level and work to ensure programs serve the needs of local producers.

**Direct Loan** — Direct Loans offer up to 100 percent financing and are a valuable resource to help farmers and ranchers purchase or enlarge family farms, improve and expand current operations, increase agricultural productivity, purchase livestock or equipment, recover from natural disasters and assist with land tenure to save farmland for future generations. With a maximum loan amount of \$600,000 (\$300,150 for Beginning Farmer Down Payment), all FSA Direct Loans are financed and serviced by the Agency through local Farm Loan staff. The funding comes from Congressional appropriations as part of the USDA budget.

**Emergency Loan** — an FSA Direct Loan that can be used to help qualified operators recover from a declared natural disaster. This loan can help with paying costs of repairing or replacing damaged property, replacing lost crop income and provide funds for operating costs. The maximum loan amount for a Direct Emergency Loan is \$500,000.

**Easement** — an interest in land defined and delineated in a deed whereby the landowner conveys rights, title, and/or interests in a property to the grantee, but the landowner retains fee-title ownership.

Financial institutions receive additional loan business as well as benefit from the safety net the FSA provides by guaranteeing farm loans up to 95 percent against possible financial loss of principal and interest.

**Heirs Property** — a legal term that refers to family land inherited without a will or legal documentation of ownership.

**Highly Erodible Land (HEL)** — cropland, hayland, or pasture that can erode at excessive rates. It would contain soils that have an erodibility index of eight or more. If a producer has a field identified as highly erodible land, that producer is required to maintain a conservation system of practices that keeps erosion rates at a substantial reduction of soil loss.

**Microloan** — an FSA Direct Loan, either Farm Ownership or Operating Loan, designed to meet the needs of small and beginning farmers, or for non-traditional and specialty operations by easing some of the requirements and offering less paperwork. The maximum loan amount for a Microloan is \$50,000.

**Operating Loans** — an FSA Direct or Guaranteed Loan that can be used to purchase livestock, seed, and equipment. **Youth Loan** — a type of Operating Loan for young people between 10–20 years old who need assistance with an educational agricultural project. Typically, these youth are participating in 4-H clubs, FFA, or a similar organization.

**Wetland** — Wetlands are defined differently by different people and different government agencies. But there are three factors of commonality in these various definitions; wetlands can be defined by having wetland vegetation (hydrophytes) or supporting such vegetation under normal circumstances, having a predominance of hydric soils, and having wetland hydrology (inundated or saturated by surface or groundwater at a frequency and duration sufficient to support a prevalence of vegetation typically adapted for life in saturated soil conditions).
