

Notice of Availability of the American Fork-Dry Creek Watershed Plan-Environmental Assessment

The United States Department of Agriculture Natural Resources Conservation Service (USDA-NRCS), with assistance from American Fork City as the project sponsor, and Lehi City as project co-sponsor, is proposing improvements within the American Fork-Dry Creek Watershed, Utah County. The purpose of this project is to reduce the potential risk of personal injury and flood damage to municipal and private properties, agricultural enterprises, and public infrastructure along certain waterways within the watershed that are subject to flooding events during spring runoff and after storms.

The Plan-EA document can be accessed here: <https://www.nrcs.usda.gov/conservation-basics/natural-resource-concerns/watersheds/american-fork-supplemental-watershed>

Hard copies of the Plan-EA are available for public review at the American Fork, Lehi, and Saratoga Springs public works departments and at the American Fork and Lehi public libraries.

As part of the Environmental Assessment (EA), the public is invited to attend a public meeting to discuss the Draft Plan-EA and answer any questions. The presentation will begin at 6:00 PM on June 23rd.

Date: Monday, June 23rd, 2025

Time: 6:00 PM — 7:00 PM

Location: American Fork Historic City Hall

31 North Church Street

American Fork, UT 84003

At this time, NRCS is inviting public review and requesting public comments on the Draft Plan-EA. Written comments are requested between June 9, 2025, and July 9, 2025. They may be submitted via online form, email, or mail. They must be received or post-marked by July 2, 2025. Comments received after this date will be considered on a case-by-case basis. Only formal written comments will be considered. Project information, meeting details, and a copy of the meeting slides, afterward, are available at: <https://www.nrcs.usda.gov/conservation-basics/natural-resource-concerns/watersheds/american-fork-supplemental-watershed>.
