USDA Natural Resources Conservation Service
U.S. DEPARTMENT OF AGRICULTURE

STAC Meeting

Brittany Hummel, Acting State Conservationist

FARM PRODUCTION AND CONSERVATION
FSA | NRCS | RMA | Business Center

Local Working Groups (LWGs)

- We are considering either removing the requirement that LWGs must be held during certain months OR change when they must be held to the middle of summer.
- Why?
  - We typically don't receive updated programs information from NHQ until later in the year.
  - The timing (early in the FY) can be confusing for participants.
- Also, national policy allows LWG notes/minutes to be kept at the local level & provided upon request.
- If you have feedback – please share by Dec. 19th brittany.hummel@usda.gov

THANK YOU!

- We appreciate your support and patience during the time we were furloughed.

- NRCS staff has been working hard to make up for lost time, especially when it comes to serving our producers.

Any questions?
