Question	Answer Choices	Points
What level of implementation will result if this application is funded?	If funded, this would be the applicant's first EQIP contract.	60
	The applicant has completed all previously funded EQIP contracts and if funded, this application is continuing the progressive implementation of their conservation plan.	60
	The applicant currently has an active EQIP contract. All vegetative and structural practices have been completed as well as the first year of management on all PLUs in the contract have been implemented and the contract is on schedule.	30
	The applicant currently has an active EQIP contract with vegetative and/or structural practices yet to be installed and/or has not yet started any management practices. OR The applicant has cancelled an EQIP contract in the last 5 years.	0
	The applicant currently has an active EQIP contract and this contract is under a current CPA-153.	-50
	The applicant has had a terminated EQIP contract more than three years ago.	-25
	The applicant has had a terminated EQIP contract or failed to maintain a practice on an EQIP contract within the last 3 years	-75
Are the appropriate management practices to facilitate the structural practice or change of land use or operation included in the contract?	The appropriate management practices to support vegetative or structural practices are included in this contract on all PLUs as applicable, if funded (i.e., grazing management must be contracted on all PLUs where structural practices are installed or where there is a change of land use or operation). If application only includes management practices/activities OR if management practices are only included on some PLUs as they are already contracted in another contract, select this response.	70
	The appropriate management practices to support vegetative or structural practices are included in the Conservation Plan only. This may include existing conservation plans that the applicant is continuing to follow.	50
	There are no appropriate management practices to facilitate the structural practice or change of land use or operation included in the contract ("Shelterbelt Establishments").	25
	The applicant will not be implementing any management practices on the PLUs (i.e., no management will be included in the contract or planned via CTA for the applicant).	-100
Do the offered acres intersect with a priority source water zone? (geospatially answered)	The offered acres intersect with Zone A.	20
	The offered acres intersect with Zone B.	10
	Otherwise	0
