

RANGE ENHANCEMENT BUNDLE

B000WLW

CONSERVATION STEWARDSHIP PROGRAM

Working Lands for Wildlife Bundle

Conservation Practices: (382) Fence; (528) Prescribed Grazing; and an option for three of the following – (314) Brush Management; (315) Herbaceous Weed Control; (390) Riparian Herbaceous Cover; (391) Riparian Forest Buffer; (550) Range Planting; and/or (645) Upland Wildlife Habitat Management

APPLICABLE LAND USE: Range

RESOURCE CONCERNS ADDRESSED: Degraded Plant Condition, Fish & Wildlife Inadequate Habitat, Soil Quality Degradation and/or Water Quality Degradation

PRACTICE LIFE SPAN: 1 year

Enhancement Description

Addresses the following resource concerns on rangeland for degraded plant condition, fish and wildlife inadequate habitat, soil quality degradation and/or water quality degradation.

By implementing these enhancements together a synergy is achieved that should result in more conservation benefits than might be expected from the individual enhancements. Applicants that choose to implement this bundle of enhancements will receive an increase in ranking and payments.

Criteria

- The component enhancements in the required group must be implemented and three additional component enhancements must be adopted from the table below. Required component enhancements and additional component enhancement options must represent at least three unique resource concerns.
- If an applicant has already adopted one or more component enhancements within a bundle, the applicant may schedule the bundle as long as the applicant is newly

CONSERVATION STEWARDSHIP PROGRAM

adopting the majority (more than 50 percent) of the component enhancements within the bundle.

- Applicants may choose to adopt a bundle on any portion of the agricultural operation and will be required to install component enhancements on all applicable acres where the bundle is adopted.
- The bundle is scheduled in the year in which all component enhancements in the bundle are applied but no later than the third fiscal year of the contract. However, the bundle once adopted may continue to be implemented in all subsequent years through the end of the contract.

Documentation Requirements

Follow the documentation requirements in the respective enhancement job sheets to document the implementation of each component enhancement in the bundle. In addition, document the planned amount, fields, applied amount and the year each component enhancement in the bundle will be applied:

<i>Component Enhancement Code</i>	<i>Resource Concern Addressed</i>	<i>Tract, Field No. or Name</i>	<i>Planned Amount (units)</i>	<i>Applied Amount (units)</i>	<i>Year(s)</i>
DO ALL ENHANCMENTS IN THIS GROUP					
E382136Z	Fish & Wildlife – Inadequate Habitat				
E528133Z2	Degraded Plant Condition				

CONSERVATION STEWARDSHIP PROGRAM

PICK THREE FROM THIS GROUP *(must ensure at least 1 additional unique resource concern will be addressed by a component selection to complement requirement and selections above)*

Component Enhancement Code	Resource Concern Addressed	Tract, Field No. or Name	Planned Amount (units)	Applied Amount (units)	Year(s)
E314134Z	Degraded Plant Condition				
E315133Z	Degraded Plant Condition				
E390136Z	Fish & Wildlife – Inadequate Habitat				
E391127Z	Water Quality Degradation				
OR <i>(only allowed one instance of 391)</i>					
E391136Z	Fish & Wildlife – Inadequate Habitat				
E550106Z	Soil Quality Degradation				
E645137Z	Fish & Wildlife – Inadequate Habitat
