Farm tract eligibility (FTE) reflects the combined result of highly erodible land (HEL), converted wetland (CW), and planted converted wetland (PCW) determinations recorded in Farm Service Agency's (FSA's) subsidiary system. Average adjusted gross income (AGI) certification is required to be filed for all business types where AGI eligibility required is "Yes" and for entity members where the member's AGI affect payment is "Yes." AGI certifications for landowners and entity members are completed using the CCC-941, "Average Adjusted Gross Income (AGI) Certification and Consent to Disclosure of Tax information." The CCC-941 form must be supplied to FSA and the eligibility value will be available in the Subsidiary System.

1/ For business types where members required is "Yes," Forms CCC-901A or CCC-902 **must** be on file with the FSA.

2/ FTE should be documented at both the joint operation (general partnership) level **and** the member level since a member may be ineligible on another tract impacting eligibility. The joint operation at the entity level (not member level) needs to have an association with the land.

3/AGI is not evaluated at the entity level for this business type, but is checked at the member level.

4/ Joint ventures are not an eligible landowner type for easement programs.

5/ Refer to FSA CM-1 Paragraph 178.6 for additional guidance regarding single member LLC using a SSN as the tax id.
