

NRCS Crook County will be holding the annual Local Work Group Meeting at the Prineville Extension Office, 498 SE Lynn Blvd, Prineville, Oregon, on February 14th, 2018 at 1:00 PM.

There are two active Conservation Implementation Strategies (CIS's) in Crook County –Maury Mule Deer Habitat and McKay Creek Steelhead Habitat. Both of these strategies will remain in place for a few more years so this meeting will be looking to the future for possible priority areas or resource concerns within Crook County.

If you have any ideas or considerations for future Farm Bill funding in Crook County, your input would be appreciated.

Contact Chris Mundy, NRCS District Conservationist at 541-699-3177.
