

Zone 1 - Western Fund Pool

Targeted Resource Concerns

SOIL EROSION	Temporary or permanent rills do not exist on the land management system; Or, All temporary or permanent rills are stabilized; AND all areas expected to have high erosion rates are stable.	20
	Water runoff from hard surfaces, such as building roofs, is controlled to the point that does not cause erosion or Permanent ground cover > 90% and slope < 10%; OR, The water erosion rate is <= T.	20
INSUFFICIENT WATER	Will an enhancement be planned to convert land to non-irrigated crop production?	10
	Will an enhancement be planned to utilize advance irrigation water management techniques and/or improvement to pumping operations to further reduce irrigation water usage, evaporation and/or energy?	10
WATER QUALITY DEGREDDATION	Will an enhancement be planned that will further reduce nutrient or pesticide inputs by improving nutrient uptake efficiency or utilize precision application techniques?	10
	Are you using precision application technology or techniques to reduce risk of nutrients or pesticides in surface waters on 100% of the agricultural operation OR will enhancement E590118X and/or E595116X be planned that will utilize precision application technology or techniques to reduce risk of nutrients or pesticide in surface waters?	10
DEGRADED PLANT CONDITION	Will an enhancement be planned on areas adjacent to or in cropland fields that will provide nectar and pollen for beneficial insects?	10
	Will an enhancement be planned that will increase the width of an existing forest or herbaceous, buffer that is on a known 303d listed water coarse?	20
	Will a cover crop enhancement be used to treat more than one resource concern?	10
	Is there active management on the agricultural operation to suppress invasive species?	10
	Will there be enhancements planned to improve grazing management techniques that will maintain and improve desired plant communities or riparian areas?	10
FISH AND WILDLIFE - INADAQAUTE HABITAT	Will an enhancements be planned that will provide additional habitat benefit to species listed in the Oregon Conservation Strategy?	10
