

Supplement #	Supplement Name
<a href="#">E314133Z</a>	Brush management for improved structure and composition
<a href="#">E314134Z</a>	Brush management that maintains or enhances wildlife or fish habitat
<a href="#">E315132Z</a>	Herbaceous weed treatment that helps create desired plant communities and habitats consistent with the ecological site
<a href="#">E315133Z</a>	Herbaceous weed treatment for inadequate structure and composition that helps create desired plant communities and habitats consistent with the ecological site
<a href="#">E315134Z</a>	Herbaceous weed treatment for plant pest pressures that helps create desired plant communities and habitats consistent with the ecological site
<a href="#">E327136Z1</a>	Conservation cover to provide food habitat for pollinators and beneficial insects
<a href="#">E327136Z2</a>	Establish Monarch butterfly habitat
<a href="#">E327137Z</a>	Conservation cover to provide cover and shelter habitat for pollinators and beneficial insects
<a href="#">E327139Z</a>	Conservation cover to provide habitat continuity for pollinators and beneficial insects
<a href="#">E328101I</a>	Improved resource conserving crop rotation to reduce water erosion
<a href="#">E328101R</a>	Resource conserving crop rotation to reduce water erosion
<a href="#">E328101Z</a>	Conservation crop rotation on recently converted CRP grass/legume cover for water erosion
<a href="#">E328102I</a>	Improved resource conserving crop rotation to reduce wind erosion
<a href="#">E328102R</a>	Resource conserving crop rotation to reduce wind erosion
<a href="#">E328102Z</a>	Conservation crop rotation on recently converted CRP grass/legume cover for wind erosion
<a href="#">E328106I</a>	Improved resource conserving crop rotation for soil organic matter improvement
<a href="#">E328106R</a>	Resource conserving crop rotation for soil organic matter improvement
<a href="#">E328106Z1</a>	Soil health crop rotation
<a href="#">E328106Z2</a>	Modifications to improve soil health and increase soil organic matter
<a href="#">E328106Z3</a>	Conservation crop rotation on recently converted CRP grass/legume cover for soil organic matter improvement
<a href="#">E328107I</a>	Improved resource conserving crop rotation to improve soil compaction
<a href="#">E328107R</a>	Resource conserving crop rotation to improve soil compaction
<a href="#">E328109Z</a>	Conservation crop rotation to reduce the concentration of salts <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E328134I</a>	Improved resource conserving crop rotation to relieve plant pest pressure
<a href="#">E328134R</a>	Resource conserving crop rotation to relieve plant pest pressure
<a href="#">E328136Z</a>	Leave standing grain crops unharvested to benefit wildlife food sources
<a href="#">E328137Z</a>	Leave standing grain crops unharvested to benefit wildlife cover and shelter
<a href="#">E329101Z</a>	No till to reduce water erosion
<a href="#">E329102Z</a>	No till system to reduce wind erosion
<a href="#">E329106Z</a>	No till system to increase soil health and soil organic matter content
<a href="#">E329114Z</a>	No till to increase plant-available moisture: irrigation water
<a href="#">E329115Z</a>	No till to increase plant-available moisture: moisture management
<a href="#">E329128Z</a>	No till to reduce tillage induced particulate matter
<a href="#">E329144Z</a>	No till to reduce energy
<a href="#">E334107Z</a>	Controlled traffic farming to reduce compaction
<a href="#">E338134Z</a>	Strategically planned, patch burning for grazing distribution and wildlife habitat (undesirable plant pressure)
<a href="#">E338135Z</a>	Strategically planned, patch burning for grazing distribution and wildlife habitat (fuel loading)
<a href="#">E338136Z</a>	Short-interval burns to promote a healthy herbaceous plant community for wildlife food
<a href="#">E338137Z1</a>	Sequential patch burning
<a href="#">E338137Z2</a>	Short-interval burn
<a href="#">E338140Z</a>	Short-interval burns to promote a healthy herbaceous plant community
<a href="#">E340101Z</a>	Cover crop to reduce water erosion
<a href="#">E340102Z</a>	Cover crop to reduce wind erosion
<a href="#">E340106Z1</a>	Intensive cover cropping to increase soil health and soil organic matter content
<a href="#">E340106Z2</a>	Use of multi-species cover crops to improve soil health and increase soil organic matter
<a href="#">E340106Z3</a>	Intensive cover cropping (orchard/vineyard floor) to increase soil health and soil organic matter content <b>*Not typically used in Nebraska. Contact State Specialist for info</b>

<a href="#">E340106Z4</a>	Use of soil health assessment to assist with development of cover crop mix to improve soil health and increase soil organic matter
<a href="#">E340107Z</a>	Cover crop to minimize soil compaction
<a href="#">E340118Z</a>	Cover crop to reduce water quality degradation by utilizing excess soil nutrients-surface water
<a href="#">E340119Z</a>	Cover crop to reduce water quality degradation by utilizing excess soil nutrients-ground water
<a href="#">E340134Z</a>	Cover crop to suppress excessive weed pressures and break pest cycles
<a href="#">E345101Z</a>	Reduced tillage to reduce water erosion
<a href="#">E345102Z</a>	Reduced tillage to reduce wind erosion
<a href="#">E345106Z</a>	Reduced tillage to increase soil health and soil organic matter content
<a href="#">E345114Z</a>	Reduced tillage to increase plant-available moisture: irrigation water
<a href="#">E345115Z</a>	Reduced tillage to increase plant-available moisture: moisture management
<a href="#">E345128Z</a>	Reduced tillage to reduce tillage induced particulate matter
<a href="#">E345144Z</a>	Reduced tillage to reduce energy use
<a href="#">E374144Z1</a>	Install variable frequency drive(s) on pump(s)
<a href="#">E374144Z2</a>	Switch fuel source for pump motor(s)
<a href="#">E376128Z</a>	Modify field operations to reduce particulate matter <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E381133Z</a>	Silvopasture for wildlife habitat (structure and composition)
<a href="#">E381137Z</a>	Silvopasture for wildlife habitat (cover and shelter)
<a href="#">E382136Z</a>	Incorporating "wildlife friendly" fencing for connectivity of wildlife food resources
<a href="#">E383135Z</a>	Grazing-maintained fuel break to reduce the risk of fire
<a href="#">E384135Z</a>	Biochar production from woody residue
<a href="#">E386101Z</a>	Enhanced field borders to reduce water induced erosion along the edge(s) of a field
<a href="#">E386102Z</a>	Enhanced field borders to reduce wind induced erosion along the edge(s) of a field
<a href="#">E386106Z</a>	Enhanced field borders to increase carbon storage along the edge(s) of the field
<a href="#">E386128Z</a>	Enhanced field borders to decrease particulate emissions along the edge(s) of the field
<a href="#">E386136Z</a>	Enhanced field borders to increase food for pollinators along the edge(s) of a field
<a href="#">E386137Z</a>	Enhanced field borders to increase wildlife food and cover along the edge(s) of a field
<a href="#">E386139Z</a>	Enhanced field border to provide wildlife habitat continuity along the edge(s) of a field
<a href="#">E390118Z</a>	Increase riparian herbaceous cover width for nutrient reduction
<a href="#">E390126Z</a>	Increase riparian herbaceous cover width to reduce sediment loading
<a href="#">E390136Z</a>	Increase riparian herbaceous cover width to enhance wildlife habitat
<a href="#">E391118Z</a>	Increase riparian forest buffer width for nutrient reduction
<a href="#">E391126Z</a>	Increase riparian forest buffer width to reduce sediment loading
<a href="#">E391127Z</a>	Increase stream shading for stream temperature reduction
<a href="#">E391136Z</a>	Increase riparian forest buffer width to enhance wildlife habitat
<a href="#">E393118Z</a>	Extend existing filter strip to reduce excess nutrients in surface water
<a href="#">E393122Z</a>	Extend existing filter strip to reduce excess pathogens and chemicals in surface water
<a href="#">E393126Z</a>	Extend existing filter strip to reduce excess sediment in surface water
<a href="#">E395137X</a>	Stream habitat improvement through placement of woody biomass
<a href="#">E399137X</a>	Fishpond management for native aquatic and terrestrial species
<a href="#">E449114Z5</a>	Complete pumping plant evaluation for all pumps on a farm
<a href="#">E449114Z7</a>	Advanced Automated IWM-Year 2-5, Soil moisture monitoring
<a href="#">E449114Z8</a>	Advanced Automated IWM-Year 1, Equipment and soil moisture or water level monitoring
<a href="#">E449144Z</a>	Complete pumping plant evaluation for all pumps on a farm
<a href="#">E472118Z</a>	Manage livestock access to streams, ditches, and other waterbodies to reduce nutrients in surface water
<a href="#">E472122Z</a>	Manage livestock access to streams, ditches, and other waterbodies to reduce pathogens in surface water
<a href="#">E484106Z</a>	Mulching to improve soil health
<a href="#">E511137Z1</a>	Harvest of crops (hay or small grains) using conservation measures that allow desired species to flush or escape

<a href="#">E511137Z</a>	Forage harvest management that helps maintain or improve wildlife habitat (cover and shelter)
<a href="#">E511139Z</a>	Forage harvest management that helps maintain wildlife habitat continuity (space)
<a href="#">E512101Z</a>	Cropland conversion to grass-based agriculture to reduce water erosion
<a href="#">E512101Z</a>	Forage and biomass planting for water erosion to improve soil health
<a href="#">E512102Z</a>	Cropland conversion to grass-based agriculture to reduce wind erosion
<a href="#">E512106Z</a>	Cropland conversion to grass-based agriculture for soil organic matter improvement
<a href="#">E512106Z</a>	Forage plantings that can help increase organic matter in depleted soils
<a href="#">E512132Z</a>	Forage and biomass planting that produces feedstock for biofuels or energy production
<a href="#">E512132Z</a>	Native grasses or legumes in forage base to improve plant productivity and health
<a href="#">E512133Z</a>	Native grasses or legumes in forage base to improve plant community structure and composition
<a href="#">E512133Z</a>	Forage plantings that enhance bird habitat (structure and composition)
<a href="#">E512136Z</a>	Establish pollinator and/or beneficial insect habitat
<a href="#">E512136Z</a>	Native grass or legumes in forage base to provide wildlife food
<a href="#">E512137Z</a>	Forage plantings that enhance bird habitat (cover and shelter)
<a href="#">E512138Z</a>	Establish wildlife corridors to enhance access to water
<a href="#">E512139Z</a>	Establish wildlife corridors to provide habitat continuity
<a href="#">E512139Z</a>	Establish pollinator and/or beneficial insect habitat continuity (space)
<a href="#">E512139Z</a>	Establish Monarch butterfly habitat in pastures
<a href="#">E512140Z</a>	Native grasses or legumes in forage base
<a href="#">E528101Z</a>	Improved grazing management for water erosion through monitoring activities
<a href="#">E528102Z</a>	Improved grazing management for wind erosion through monitoring activities
<a href="#">E528104Z</a>	Grazing management that protects sensitive areas from gully erosion
<a href="#">E528105Z</a>	Prescribed grazing that improves or maintains riparian and watershed function-erosion
<a href="#">E528107Z</a>	Improved grazing management for soil compaction on pasture through monitoring activities
<a href="#">E528107Z</a>	Improved grazing management for soil compaction on rangeland through monitoring activities
<a href="#">E528118Z</a>	Prescribed grazing on pastureland that maintains/improves riparian and watershed function impairment from nutrients
<a href="#">E528118Z</a>	Grazing management that protects sensitive areas- surface water from nutrients
<a href="#">E528119Z</a>	Grazing management that protects sensitive areas- ground water from nutrients
<a href="#">E528122Z</a>	Prescribed grazing on pastureland that maintains/improves riparian/ and watershed function impairment from pathogens/chemicals.
<a href="#">E528126Z</a>	Prescribed grazing on pastureland that maintains/improves riparian and watershed function through minimizing sediment in surface water
<a href="#">E528127Z</a>	Prescribed grazing that improves or maintains riparian and watershed function-elevated water temperature
<a href="#">E528132Z</a>	Improved grazing management on pasture for plant productivity and health through monitoring activities
<a href="#">E528132Z</a>	Stockpiling cool season forage to improve plant productivity and health
<a href="#">E528132Z</a>	Improved grazing management on rangeland for plant productivity and health through monitoring activities
<a href="#">E528133Z</a>	Stockpiling cool season forage to improve structure and composition
<a href="#">E528133Z</a>	Grazing management for improving quantity and quality of plant structure and composition for wildlife
<a href="#">E528133Z</a>	Improved grazing management for plant structure and composition through monitoring activities
<a href="#">E528134Z</a>	Improved grazing management that reduces undesirable plant pest pressure through monitoring activities
<a href="#">E528136Z</a>	Grazing management for improving quantity and quality of food for wildlife
<a href="#">E528136Z</a>	Incorporating wildlife refuge areas in contingency plans for prescribed grazing for wildlife food
<a href="#">E528136Z</a>	Grazing management that improves Monarch butterfly habitat
<a href="#">E528137Z</a>	Grazing management for improving quantity and quality of cover and shelter for wildlife
<a href="#">E528137Z</a>	Incorporating wildlife refuge areas in contingency plans for prescribed grazing for wildlife cover and shelter
<a href="#">E528138Z</a>	Incorporating wildlife refuge areas in contingency plans for prescribed grazing for wildlife access to water
<a href="#">E528140Z</a>	Maintaining quantity and quality of forage for animal health and productivity
<a href="#">E528140Z</a>	Incorporating wildlife refuge areas in contingency plans for prescribed grazing for livestock feed and forage
<a href="#">E550106Z</a>	Range planting for increasing/maintaining organic matter

<a href="#">E550136Z</a>	Range planting for improving forage, browse, or cover for wildlife
<a href="#">E578139X</a>	Stream crossing elimination
<a href="#">E580105Z</a>	Stream corridor bank stability improvement
<a href="#">E580137Z</a>	Stream corridor bank vegetation improvement
<a href="#">E590118X</a>	Reduce risks of nutrient losses to surface water by utilizing precision agriculture technologies to plan and apply nutrients
<a href="#">E590118Z</a>	Improving nutrient uptake efficiency and reducing risk of nutrient losses to surface water
<a href="#">E590119X</a>	Reduce risks of nutrient losses to ground water by utilizing precision agriculture technologies to plan and apply nutrients
<a href="#">E590119Z</a>	Improving nutrient uptake efficiency and reducing risk of nutrient losses to groundwater
<a href="#">E590130Z</a>	Improving nutrient uptake efficiency and reducing risks to air quality – emissions of greenhouse gases (GHGs)
<a href="#">E595116X</a>	Reduce risk of pesticides in surface water by utilizing precision pesticide application techniques
<a href="#">E595116Z</a>	Reduce risk of pesticides in surface water by utilizing IPM PAMS techniques
<a href="#">E595116Z2</a>	Reducing routine neonicotinoid seed treatments on corn and soybean crops
<a href="#">E595129Z</a>	Reduce ozone precursor emissions related to pesticides by utilizing IPM PAMS techniques
<a href="#">E612126Z</a>	Cropland conversion to trees or shrubs for long term improvement of water quality
<a href="#">E612130Z</a>	Planting for high carbon sequestration rate
<a href="#">E612132Z</a>	Establishing tree/shrub species to restore native plant communities
<a href="#">E612133X1</a>	Adding food-producing trees and shrubs to existing plantings
<a href="#">E612133X2</a>	Cultural plantings
<a href="#">E612133X3</a>	Sugarbush management <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E612136Z</a>	Tree/shrub planting for wildlife food
<a href="#">E612137Z</a>	Tree/shrub planting for wildlife cover
<a href="#">E643132X</a>	Restoration of sensitive coastal vegetative communities <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E643139X</a>	Creating native plant refugia
<a href="#">E644136Z</a>	Managing Flood-Irrigated Landscapes for Wildlife
<a href="#">E645137Z</a>	Reduction of attractants to human-subsidized predators in sensitive wildlife species habitat
<a href="#">E646136Z1</a>	Close structures to capture and retain rainfall to improve food sources for waterfowl and other wading birds during winter <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E646136Z2</a>	Extend retention of captured rainfall to provide enhanced food sources for late winter habitat for migratory waterfowl and shorebirds <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E646136Z3</a>	Shorebird habitat, late season shallow water with manipulation to improve food sources <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E646136Z4</a>	Shorebird habitat, extended late season shallow water with manipulation to improve food sources <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E646137X</a>	Renovate small, shallow pothole and playa sites which may seasonally hold water
<a href="#">E646137Z1</a>	Close structures to capture and retain rainfall to improve cover and shelter for waterfowl and other wading birds during winter <b>*Not typically used in Nebraska. Contact State Specialist for information</b>

<a href="#">E64613722</a>	Extend retention of captured rainfall to provide enhanced cover and shelter for late winter habitat for migratory waterfowl and shorebirds <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613723</a>	Shorebird habitat, late season shallow water with manipulation to improve cover and shelter <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613724</a>	Shorebird habitat, extended late season shallow water with manipulation to improve cover and shelter. <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613821</a>	Close structures to capture and retain rainfall to provide water for waterfowl and other wading birds during winter <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613822</a>	Extend retention of captured rainfall to provide late winter water habitat for migratory waterfowl and shorebirds. <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613823</a>	Shorebird habitat, late season shallow water with manipulation <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613824</a>	Shorebird habitat, extended late season shallow water with manipulation <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613921</a>	Close structures to capture and retain rainfall for waterfowl and wading birds to improve habitat continuity <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613922</a>	Extend retention of captured rainfall to provide habitat continuity during late winter for migratory waterfowl and shorebirds <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613923</a>	Shorebird habitat, late season shallow water with manipulation to enhance habitat continuity and space <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64613924</a>	Shorebird habitat, extended late season shallow water with manipulation to enhance habitat continuity and space <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64713621</a>	Manipulate vegetation on fields where rainfall is to be captured and retained to provide enhanced food sources for wildlife <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64713622</a>	Provide early successional habitat between first rice crop and ratoon crop to support important wildlife food sources <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64713623</a>	Establish and maintain moist soil vegetation on cropland edges to increase wildlife food sources and habitat diversity
<a href="#">E64713721</a>	Manipulate vegetation on fields where rainfall is to be captured and retained to provide enhanced cover and shelter for wildlife <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E64713722</a>	Establish and maintain moist soil vegetation on cropland edges to increase wildlife cover, shelter and habitat diversity
<a href="#">E64713921</a>	Establish and maintain wildlife habitat continuity by providing early successional, naturally occurring vegetation in ditches and ditch bank borders
<a href="#">E64713922</a>	Provide early successional habitat between first rice crop and ratoon crop to support space and continuity for wildlife <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E66610621</a>	Implementing sustainable practices for pine straw raking <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E66610622</a>	Maintaining and improving forest soil quality
<a href="#">E6661072</a>	Maintaining and improving forest soil quality by limiting compaction
<a href="#">E66611521</a>	Converting loblolly and slash pine plantations to longleaf pine to retain soil moisture <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E66611522</a>	Forest Stand Improvement to manage understory vegetation to aid in moisture management
<a href="#">E6661182</a>	Enhance development of the forest understory to capture nutrients in surface water
<a href="#">E6661192</a>	Enhance development of the forest understory to capture nutrients and limit their movement into ground water
<a href="#">E6661302</a>	Increase on-site carbon storage
<a href="#">E66613221</a>	Crop tree management for mast production
<a href="#">E66613222</a>	Reduce forest stand density to improve a degraded plant community
<a href="#">E66613321</a>	Creating structural diversity with patch openings
<a href="#">E66613322</a>	Converting loblolly and slash pine to longleaf plantations with forest stand improvement and prescribed burning <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E666133X</a>	Forest Stand Improvement to rehabilitate degraded hardwood stands
<a href="#">E6661342</a>	Enhance development of the forest understory to create conditions resistant to pests
<a href="#">E66613521</a>	Reduce height of the forest understory to limit wildfire risk
<a href="#">E66613522</a>	Reduce forest density and manage understory along roads to limit wildfire risk
<a href="#">E66613621</a>	Reduce forest density and manage understory along roads to improve wildlife food sources
<a href="#">E66613622</a>	Reduce forest stand density to improve wildlife food sources
<a href="#">E66613623</a>	Create patch openings to enhance wildlife food sources and availability
<a href="#">E66613721</a>	Snags, den trees, and coarse woody debris for wildlife habitat
<a href="#">E66613722</a>	Summer roosting habitat for native forest-dwelling bat species
<a href="#">E66613723</a>	Increase diversity in pine plantation monocultures <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E66613724</a>	Converting loblolly and slash pine plantations to longleaf pine to enhance wildlife habitat <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E66613725</a>	Implementing sustainable practices for pine straw raking to enhance wildlife habitat <b>*Not typically used in Nebraska. Contact State Specialist for information</b>
<a href="#">E66613726</a>	Create patch openings to enhance wildlife cover and shelter
<a href="#">E66613727</a>	Enhance development of the forest understory to provide wildlife cover and shelter
