### Final Ranking Score:

- Address: 
- Telephone: 
- Planner: 
- Farm Location: 

## National Priorities Addressed

### Issue Questions

If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.

1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.

### Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)

- 2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?
- 2. b. Implementing the practices in a Nutrient Management Plan (NMP)?
- 2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?
- 2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?
- 2. e. Implementing practices that improve water quality through animal mortality and carcass management?

### Water Conservation – Will the proposed project conserve water by: (select all that apply)

- 3. a. Implementing irrigation practices that reduce aquifer overdraft.
- 3. b. Implementing irrigation practices that reduce on-farm water use?
- 3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?
- 3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?

### Air Quality - Will the proposed project improve air quality by: (select all that apply)

- 4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?
- 4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?
- 4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?
- 4. d. Implementing practices that increase on-farm carbon sequestration?

### Soil Health:– Will the proposed project improve soil health by: (select all that apply)

- 5. a. Reduce erosion to tolerable limits (Soil “T”)?
- 5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?

### Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)

- 6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.
- 6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation
### Reserve Program (CRP) or other set-aside program?

| 6. c. Implementing practices benefitting honey bee populations or other pollinators? | Yes O or No O |
| 6. d. Implementing land-based practices that improve habitat for aquatic wildlife? | Yes O or No O |

### Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)

| 7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland? | Yes O or No O |
| 7. b. Implementing practice in an Integrated Pest Management Plan (IPM)? | Yes O or No O |

### Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)

| 8. a. Reducing on-farm energy consumption? | Yes O or No O |
| 8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria? | Yes O or No O |

### Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:

| 9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received? | Yes O or No O |

### State Issues Addressed

<table>
<thead>
<tr>
<th>Issue Questions</th>
<th>Responses</th>
</tr>
</thead>
<tbody>
<tr>
<td>State Questions:</td>
<td></td>
</tr>
<tr>
<td>1. Does the proposed project area have soil quality resource concerns (example: compaction, low fertility, erosion) that will be addressed with practices applied as part of the contract?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>2. Does the proposed project have problems with off-farm runoff and/or sedimentation that the applicant wants to control?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>3. Will the planned treatment improve water quality in streams that transport runoff from the proposed land?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>4. Does the proposed project support the management of animal manure or other agricultural organic waste that will benefit the environment?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>5. Does the proposed project support the management of pesticides in a more environmentally and production friendly way?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>6. Is there a current conservation plan (plan that adequately addresses soil erosion, water quality, including nutrients if applicable) for the proposed project area?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>7. Are livestock excluded or will be excluded from surface water sources (except for stable crossings) and the protected riparian buffer is at least 35 feet wide?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>8. Is there an existing Riparian Forest Buffer (minimum width 35 feet) on all streams on the project area, or will the applicant establish these forest buffers within the contract?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>9. Is the applicant applying one or more practices to include filter areas, field borders to provide edge of field protection for the management of Nitrogen, Phosphorus, and Sediment?</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>10. Is the majority of the offered acreage located in the 12-Digit HUC that Pennsylvania NRCS has identified as a FY 2018 Targeted Priority Watershed? (Information found in GIS layer 2018_Priority_watersheds.shp located in F:/Priority_Resource_Inventory_2018_“countyname” data-layers?)</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>11. Is the applicant applying one or more of the following practices (327, 329, 330, 340, 362, 386, 390, 391, 393, 412, 512, 528, 585, 590, 600) in a land unit that contains poorly, somewhat poorly drained soils to reduce surface runoff from these areas? (Information found in GIS layer High Runoff [Potential] Soils PA located in F:/Priority_Resource_Inventory_2018_“countyname” data-layers?)</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>12. Is the applicant applying one or more of the following practices (327, 340, 386, 390, 391, 393, 512, 528, 561, 590, 595, 635) in a land unit that contains high leaching potential soils to reduce nutrient or pesticide movement? (Information found in GIS layer High Leaching [Potential] Soils PA located in F:/Priority_Resource_Inventory_2018_“countyname” data-layers?)</td>
<td>Yes O or No O</td>
</tr>
<tr>
<td>13. Is the majority of the offered acreage located in the 12-Digit HUC that Pennsylvania NRCS has identified as a FY 2018 Brook Trout, Greatly Reduced Targeted Priority Watershed? (Information found in GIS layer (Brook Trout_Greatly_Reduced_Watersheds.shp) located in</td>
<td>Yes O or No O</td>
</tr>
</tbody>
</table>
14. Is the applicant someone who has not received an NRCS (EQIP or RCPP-EQIP) contract within the last 3 fiscal years, other than a Conservation Activity (CAP) Plan?  
Yes O or No O

15. Is the producer a Limited Resource Farmer based on the USDA online self determination tool?  
Yes O or No O

### Local Issues Addressed

<table>
<thead>
<tr>
<th>Questions</th>
<th>Issue Questions</th>
<th>Responses</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Is a resource concern affecting water quality within 100 feet of a stream, well, wetland, sinkhole or other water body whereas the applicant will address the concern by implementation of practices contained in the application?</td>
<td>Yes O or No O</td>
<td></td>
</tr>
<tr>
<td>2. Is a resource concern affecting water quality within 200’ feet of a stream, well, wetland, sinkhole or other water body whereas the applicant will address the concern by implementation of practices contained in the application?</td>
<td>Yes O or No O</td>
<td></td>
</tr>
</tbody>
</table>

### General Questions (Continued)

1. Is the applicant willing to adopt or has the applicant already adopted any of the following additional practices (329, 340, 390, 391, 590, 592, 595)?  
Yes O or No O

2. Is the application for practices on a preserved farm or does the farm have a conservation easement?  
Yes O or No O

3. Will the applicant establish a prescribed grazing system on all pastures on the contracted tract?  
Yes O or No O

4. Will practices implemented through this application result in the reduction of excessive pesticide and nutrient runoff on cropland?  
Yes O or No O

5. Will practices implemented through this application result in the reduction or treatment of compaction on cropland and/or forestland?  
Yes O or No O

6. Will practices implemented through application result in the reduction or treatment of compaction on cropland and/or forestland?  
Yes O or No O

7. Will practices implemented through application aide in controlling noxious plants on cropland and/or forestland?  
Yes O or No O

8. Will the proposed contract include any of the following practices: Conservation Tillage, Cover Crops, Buffers at least 35 feet wide, Contouring, Strip Cropping, Contour Buffer Strips, Pollinator Habitat (0.5 acre minimum)?  
Yes O or No O

9. Does the applicant have a current soil test (within 3 years) on the proposed contract acres?  
Yes O or No O

10. Does the applicant have an unprotected animal concentration area that will be treated?  
Yes O or No O

11. Will the contract include practices to mitigate inputs from odor and/or emission producing facilities or activities?  
Yes O or No O

12. Are the proposed practices based on a completed conservation plan and I&E with the necessary practices and improvements identified to better manage the operations waste management and feeding activities?  
Yes O or No O

13. Will the application and requested practices result in improved forest regeneration and improved forest wildlife habitat?  
Yes O or No O

14. Is the applicant going to implement at least one core four practice (Cover Crops, Residue Management-No Till, Nutrient Management, Riparian Forest Buffer, or Riparian Herbaceous Buffer) in this contract?  
Yes O or No O

15. Is the applicant someone who has not received an NRCS (EQIP or RCPP-EQIP) contract within the last 5 fiscal years, other than a Conservation Activity (CAP) Plan?  
Yes O or No O
