

Prescribed Grazing (528)
Inventory & Producer Interview Worksheet

Completing this worksheet will provide you with the information you need to complete the *DE-Graz* components of a grazing plan. This worksheet itself is not part of the producer's grazing plan.

The final grazing plan for the producer must contain **all** the following documents:

1. Completed *Grazing Narrative* spreadsheet from DE-Graz
2. Completed *Forage-Animal Balance* spreadsheet from DE-Graz
3. Completed *Pasture Condition Scores* spreadsheet from DE-Graz
4. *Prescribed Grazing Recordkeeping Worksheet* from DE-Graz
5. Conservation plan map
6. Soils map with map unit descriptions

Producer:

Planner:

Address:

Home phone:

Mobile phone:

County:

Region: Piedmont / Coastal Plain

Brief description of the forage-livestock operation:

(Describe forages grown and what they are used for [grazing, selling hay]. Describe livestock raised and what they are fed [pasture, hay, purchased feed]. Describe current grazing system [intensity, frequency of rotations, length of grazing season].)

Resource concerns & enhancement opportunities:

(Describe conservation practices planned or proposed and what the issues are that make those practices beneficial.)

Producer's goals & objectives:

(Describe producer's long-term goals and the specific, measurable objectives they are pursuing to achieve those goals.)

Contingency plan:

(Describe the producer's plan for dealing with emergencies including how they will obtain supplemental feed.)

Evaluate each pasture field using the *Delaware Pasture Condition Score Worksheet*.

Obtain the most recent soil tests (for pH, phosphorus, potassium) from the producer.
