**USDA'S NATURAL RESOURCES CONSERVATION SERVICE
(NRCS) IS A LOCAL RESOURCE FOR INNOVATIVE
CONSERVATION SOLUTIONS TO IMPROVE THE LAND
AND PROTECT YOUR WAY OF LIFE.**

The **Environmental Quality Incentives Program (EQIP)** is a
voluntary program that provides assistance to growers and
landowners who want to install measures to protect the soil,
water, air, and other natural resources on their working land.

Through EQIP, the Natural Resources Conservation Service (NRCS)
provides funding and professional expertise for measures that
protect natural resources while ensuring sustainable production
on farms, ranches and working forest land. The focus of EQIP is to
promote sustainable production with activities to:

- Protect water quality
- Conserve water supplies and improve irrigation efficiency
- Promote healthy soil and reduce erosion
- Improve air quality
- Save energy
- Improve forest health
- Protect plant and animal communities
- And more!

Contact your local NRCS field office to learn more about how
NRCS may benefit you and your land.

USDA is an equal opportunity provider and employer.
