

FY 2019 Screening Criteria Worksheet - RCPP/EQIP

Advanced Irrigation Water Management on The High Plains Aquifer

A Screening Worksheet is required to be completed for each eligible application.

Instructions:

This screening worksheet must be completed for each eligible producer applying for EQIP assistance for the Advanced Irrigation Water Management on the High Plains project. Applications will be accepted on a continuous basis. High priority applications will not be batched but will be automatically considered for funding regardless of ranking score.

Completion of this worksheet and documentation does not constitute agreement to provide EQIP program benefits or approval of an EQIP contract. The original screening worksheet should be filed with the applicant case file or EQIP program file and the screening priority (High or Low) must be recorded in ProTracts. A copy of the completed screening worksheet will be provided to the participant.

Detailed Screening Criteria Worksheet - Complete for Each Eligible EQIP Application

Applicant Name:		County:	
Application No:		Field Office:	
Evaluator Name:		Date:	

Priority Determination for ProTracts - Select One:

High Priority Category: The application will be considered high priority if all of the following are met:

- A pumping rate of at least 3.5 gal/min/ac is supplied to each center pivot under application.
- A NRCS Irrigation Water Management Plan for the application acres has been developed, and point of diversion and application acres are located within a Kansas Ground Water Management District.

Participant Signature

Date

Low Priority Category: DO NOT FUND OR RANK LOW-PRIORITY APPLICATIONS

- All other applications.
