State Issues Addressed

Issue Questions	Responses
Only answer the National questions that directly relate to forest AQ	
1. Only rank the eligible high priority applications that have an uploaded tool kit plan. Please use the appropriate AQ screening tool..... Screening tool is required for all Air Quality National Initiative applications in WA State..... 6) Identification of the proposed strategy to address the agricultural air quality issues, including an identification of core practice standards to be used. Established eligible practice list and hold-downs: DCs, will monitor contracts to consistently adhere to hold-downs. Hold-downs are based on CINs. Splitting a practice into multiple CINs or contracts to avoid the hold-down will not be permitted.	0 Point(s)
A screen tool will be used on all EQIP applications that were received and completely eligible prior to the application cutoff. If this application did not receive a high priority, please stop and do not continue ranking. (Ranking medium priority applications need approval from the State Con). You may only tag practices in the ranking tool that are included in the uploaded AD-1155. All applications need to have an application cost prior to ranking. (not just an estimate) If the plan is competing in multiple pools, upload the toolkit plan to the application most likely to be funded prior to ranking. Plan maps will clearly identify all contracted CINs and use official NRCS NPPH symbols. Only award points for conservation practices or activities that will be financially assisted in this EQIP contract. Changing or adjusting practices or extents after the application has been submitted for evaluation to achieve a better ranking score is not allowed in EQIP.	
1. Will contracted practices assist the applicant in complying with at least one of the following: AFO/ CFO, Tribal or Forest Practices Act laws and regulations, Water quality compliance on DOE designated water bodies, The Food Quality Protection Act? Identify: _____, 5 points	5 Point(s)
2. Will the contract assist the applicant in implementing an existing comprehensive RMS plan (signed after 9-21-2008) that has been developed for the participant's entire Ag Operation(s)? (Forest Stewardship plan must meet the requirements for RMS to receive points) 15 points	15 Point(s)
3. If selected for contracting, this application will allow the participant to become a first time adopter using all of the planned practices included on the AD-1155. Consider adopted practices on all associated agricultural operation(s) that they are involved in. 30 points	30 Point(s)
4. Answer YES if the State Conservationist has provided approval to rank applications for this pool that are screened as Medium and this application has been screened as such (medium). (No Lows) -200 Points	-200 Point(s)

Likelihood that applicant will complete and maintain contracted practices:	
7. The applicant did NOT properly operate and maintain previously cost-shared practices, or has prior EQIP contract(s) that have not stayed on schedule with the original AD-1155. 10. Cancelled contract: Applicant voluntarily requested cancellation of an obligated contract within the last three years.(FY16, FY17 or FY18) and the status of the cancellation hardship is not documented as being resolved. Example of are solved hardship would be: The participant has fully recovered from the health issue which necessitated the cancellation. Re-applying in hopes to receive a higher cost-share rate, or hold-down, should not be considered resolving the cancellation hardship. -35 Points	-35 Point(s)
