National Priorities Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?	Yes <input type="radio"/> or No <input type="radio"/>
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	Yes <input type="radio"/> or No <input type="radio"/>
Water Conservation – Will the proposed project conserve water by: (select all that apply)	
3. a. Implementing irrigation practices that reduce aquifer overdraft.	Yes <input type="radio"/> or No <input type="radio"/>
3. b. Implementing irrigation practices that reduce on-farm water use?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	Yes <input type="radio"/> or No <input type="radio"/>
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	Yes <input type="radio"/> or No <input type="radio"/>
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	Yes <input type="radio"/> or No <input type="radio"/>
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	Yes <input type="radio"/> or No <input type="radio"/>
4. d. Implementing practices that increase on-farm carbon sequestration?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Health :- Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil “T”)?	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	Yes <input type="radio"/> or No <input type="radio"/>
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	Yes <input type="radio"/> or No <input type="radio"/>
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation	Yes <input type="radio"/> or No <input type="radio"/>

Reserve Program (CRP) or other set-aside program?	
6. c. Implementing practices benefitting honey bee populations or other pollinators?	Yes <input type="radio"/> or No <input type="radio"/>
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	Yes <input type="radio"/> or No <input type="radio"/>
Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	Yes <input type="radio"/> or No <input type="radio"/>
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	Yes <input type="radio"/> or No <input type="radio"/>
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	Yes <input type="radio"/> or No <input type="radio"/>
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	Yes <input type="radio"/> or No <input type="radio"/>
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "Yes" to the following question. Answering "Yes" to question 1a will result in the application being awarded the maximum amount of points that can be earned for the state priority category.	
1. a. Is the program application for development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other state level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Water Quality: If the contracted practice(s) result in elimination or minimization of the potential for contaminants entering water bodies, SELECT ONE of the following based on proximity to the specific water bodies. Guidance: Refer to the DEQ Shape File located at f:\geodata\hydrography and the "Wyoming Water Quality Assessment and Impaired Waters List (2012 Integrated 305(d) and 303(d) Report) Table 9.4 for the list of pollutant causes and sources". Award points for one or more contracted practices that will eliminate or minimize the potential for the listed water quality impairments (E.coli, sediment, etc.) from entering water bodies. The contracted practices must address the resource concern; if additional practices are needed to address the resource concern, they must be contracted to award the points.	
2. a. Field(s) directly borders a surface water body listed on the 303(d) list as impaired or threatened for the pollutant cause "E-Coli" , "Fecal Coliform" , "Sediment" , "Phosphate" , or "Selenium" when the Source(s) is "Unknown" , "Irrigated Crop Production" or "Non-Point Source" .	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Field(s) directly borders a ditch, canal or tributary that flows directly into a surface water body listed on the 303(d) list as impaired or threatened for the pollutant cause "E-Coli" , "Fecal Coliform" , "Sediment" , "Phosphate" , or "Selenium" when the Source(s) is "Unknown" , "Irrigated Crop Production" or "Non-Point Source" . Guidance: If the application directly borders the impaired stream, but the impaired section is below the property, award points for one or more contracted practices that address the water quality concern.	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Field(s) directly borders a solid blue line stream as marked on a USGS topographic 7.5-minute, 1:24,000-scale quadrangle series map.	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Field(s) directly borders a ditch, canal or tributary that flows into a solid blue line stream as marked on a USGS topographic 7.5-minute, 1:24,000-scale quadrangle series map.	Yes <input type="radio"/> or No <input type="radio"/>
Soil Health: SELECT ONE of the following: Soil Health Principals include: 1) Using plant diversity to increase diversity in the soil, 2) Managing soils more by disturbing them less, 3) Growing a living root throughout the year, 4) Keeping the soil covered as much as possible 5) Integrate livestock grazing of cover crops where possible. Guidance: For 3a, 3b, and 3c, award points for one or more of the following contracted practices: Conservation Cover (327), Conservation Crop Rotation (328), Cover Crop (340), Forage and Biomass planting (512), Nutrient Management (590), Integrated Pest Management (595), Prescribed Grazing (528), Residue Management – Reduced Till (345), and/or Residue and Tillage Management - No Till (329).	
3. a. Will the proposed project result in the implementation of three practices that address three or more	Yes <input type="radio"/> or No <input type="radio"/>

of the soil health principals?	
3. b. Will the proposed project result in the implementation of two practices that address two of the soil health principals?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Will the proposed project result in the implementation of one practice that addresses one of the soil health principals?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Erosion:	
4. Will the proposed project result in the implementation of practices that will result in the long term reduction of soil erosion in stream corridors or riparian areas? Guidance: Award points for one or more of the following contracted practices: Riparian Herbaceous Cover (390), Riparian Forest Buffer (391), Filter Strip (393), Access Control (472), Livestock Shelter Structure (576), Channel Stabilization (584), and/or Streambank and Shoreline Protection (580).	Yes <input type="radio"/> or No <input type="radio"/>
Healthy Plants and Wildlife: Will the proposed project address Plant Structure and Composition, Plant Pests and Wildlife Habitat Degradation? Answer all that apply for a maximum of 15 points	
5. a. Will the proposed project result in the implementation of practices for the management of noxious and invasive species ONLY on “non-cropland” acreage? (One of the following practices must be contracted to take points - 314 - Brush Management and/or 315 Herbaceous Weed Control). Guidance: Required documentation that noxious or invasive species are present and will be eradicated or controlled by the practice.	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Land enrolled in this application establishes native grassland/sagebrush habitat and/or manages grassland/sagebrush habitat within Sage Grouse Core Area. Guidance: Use “sg_core_areas_v4.shp” located in f:\geodata\wildlife. Place GIS map documentation in case file. Award points for one or more contracted practices that will improve sage-grouse habitat within the sage-grouse core area.	Yes <input type="radio"/> or No <input type="radio"/>
5. c. Will the proposed project result in the implementation of practices that increase habitat and forage for pollinators and/or beneficial insects? Guidance: Award points for one or more of the following contracted practices with an approved pollinator seeding/planting plan: Conservation Cover (327), Field Border (386), Tree/Shrub Establishment (612), Cover Crop (340), Forage and Biomass Planting (512), Forage Harvest Management (511), Windbreak/Shelterbelt Establishment (380), and/or Upland Wildlife Habitat Management (645).	Yes <input type="radio"/> or No <input type="radio"/>
Insufficient water – inefficient use of irrigation water resource concern:	
6. Will the proposed project result in the implementation of practices that will improve the efficiency of an existing irrigation system and/or result in the implementation of practices that will improve irrigation water management? Guidance: The contract must include Irrigation Water Management (449). Additional practices include one or more of the following conservation practices: Irrigation System - Microirrigation (441), Irrigation System – Surface and Subsurface (443), Sprinkler System (442), and/or Residue and Tillage Management – No Till (329).	Yes <input type="radio"/> or No <input type="radio"/>
Livestock Resource Concerns:	
7. EQIP Schedule of Operations includes implementation of practices AND management that solve resource concerns on a livestock operation?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Erosion-Crop Land Resource Concerns:	
8. Will the proposed project result in the implementation of practices that will limit sheet, rill and/or wind erosion losses to Tolerable levels if currently above T; or reduce erosion by 50% if already at T, as determined by RUSLE2, WEPS, or IET. Guidance: Award points for one or more of the following contracted practices that will reduce erosion to tolerable levels: Conservation Crop Rotation (328), Cover Crop (340), Forage and Biomass Planting (512), Integrated Pest Management (595), Nutrient Management (590), and/or Residue and Tillage Management – No Till (329).	Yes <input type="radio"/> or No <input type="radio"/>
Forest Resource Concerns:	
9. Will the application implement practices that will solve resource concerns associated with forestry? Guidance: The application must include one or more of the following conservation practices: Forest Stand Improvement (666), Tree and Shrub Planting (612), and/or Woody Residue Treatment (384).	Yes <input type="radio"/> or No <input type="radio"/>

Local Issues Addressed

Issue Questions	Responses
If the application is for the development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "YES" to the following question. Answering "Yes" to question 1a will result in the application being awarded the maximum amount of points that can be	

earned for the local level questions.	
1. Is the application for the development of a TSP prepared Conservation Activity Plan (CAP)? If the answer is "Yes", do not answer any other Local level questions. If the answer is "No", proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Application Objectives:	
2. a. Is pre-commercial thinning for the improvement of forest land health the primary objective of the applicatn by applying Forest Stand Improvement (666)?	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Will this application reestablish meadows or prevent encroachment by applying Forest Stand Improvement (666) or Brush management (314)?	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Will this application reduce the risk of catastrophic wildfire through fuel reduction by applying Fuel Break (383)?	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Will this application remove INVASIVE wood species with the application of Brush Management (314)?	Yes <input type="radio"/> or No <input type="radio"/>
2. e. Will this application include aspen regeneration with the application of Forest Stand Improvement (666)?	Yes <input type="radio"/> or No <input type="radio"/>
Management within the last 3 years:	
3. a. Will the contracted practices (666, 384, 338, 383, 314) be located immediately adjacent to an existing Forest Health Improvement project? (timber harvest does not apply)	Yes <input type="radio"/> or No <input type="radio"/>
Tree Size: Is the average size of trees in the planned treatment area...	
4. a) 0-3.9" dbh?	Yes <input type="radio"/> or No <input type="radio"/>
4. b) 4-6.9" dbh?	Yes <input type="radio"/> or No <input type="radio"/>
4. c) 7-9.9" dbh?	Yes <input type="radio"/> or No <input type="radio"/>
4. d) >10" dbh?	Yes <input type="radio"/> or No <input type="radio"/>
Density: Is the average density of planned treatment areas...	
5. a) 0-303 trees/acre? (>12' O.C.)	Yes <input type="radio"/> or No <input type="radio"/>
5. b) 304-538 trees/acre? (9'-12' O.C.)	Yes <input type="radio"/> or No <input type="radio"/>
5. c) 539-1210 trees/acre? (6'-9' O.C.)	Yes <input type="radio"/> or No <input type="radio"/>
5. d) 1211-4840 trees/acre? (3'-6' O.C.)	Yes <input type="radio"/> or No <input type="radio"/>
5. e) >4840 trees/acre? (<3' O.C.)	Yes <input type="radio"/> or No <input type="radio"/>
Slash Treatment: Will the majority of the slash in this application be treated by...	
6. b) Lop and scatter	Yes <input type="radio"/> or No <input type="radio"/>
6. a) Mastication	Yes <input type="radio"/> or No <input type="radio"/>
6. c) Piling	Yes <input type="radio"/> or No <input type="radio"/>

National Priorities Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?	Yes <input type="radio"/> or No <input type="radio"/>
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	Yes <input type="radio"/> or No <input type="radio"/>
Water Conservation – Will the proposed project conserve water by: (select all that apply)	
3. a. Implementing irrigation practices that reduce aquifer overdraft.	Yes <input type="radio"/> or No <input type="radio"/>
3. b. Implementing irrigation practices that reduce on-farm water use?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	Yes <input type="radio"/> or No <input type="radio"/>
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	Yes <input type="radio"/> or No <input type="radio"/>
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	Yes <input type="radio"/> or No <input type="radio"/>
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	Yes <input type="radio"/> or No <input type="radio"/>
4. d. Implementing practices that increase on-farm carbon sequestration?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Health :- Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil “T”)?	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	Yes <input type="radio"/> or No <input type="radio"/>
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	Yes <input type="radio"/> or No <input type="radio"/>
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation	Yes <input type="radio"/> or No <input type="radio"/>

Reserve Program (CRP) or other set-aside program?	
6. c. Implementing practices benefitting honey bee populations or other pollinators?	Yes <input type="radio"/> or No <input type="radio"/>
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	Yes <input type="radio"/> or No <input type="radio"/>
Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	Yes <input type="radio"/> or No <input type="radio"/>
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	Yes <input type="radio"/> or No <input type="radio"/>
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	Yes <input type="radio"/> or No <input type="radio"/>
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	Yes <input type="radio"/> or No <input type="radio"/>
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "Yes" to the following question. Answering "Yes" to question 1a will result in the application being awarded the maximum amount of points that can be earned for the state priority category.	
1. a. Is the program application for development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other state level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Water Quality: If the contracted practice(s) result in elimination or minimization of the potential for contaminants entering water bodies, SELECT ONE of the following based on proximity to the specific water bodies. Guidance: Refer to the DEQ Shape File located at f:\geodata\hydrography and the "Wyoming Water Quality Assessment and Impaired Waters List (2012 Integrated 305(d) and 303(d) Report) Table 9.4 for the list of pollutant causes and sources". Award points for one or more contracted practices that will eliminate or minimize the potential for the listed water quality impairments (E.coli, sediment, etc.) from entering water bodies. The contracted practices must address the resource concern; if additional practices are needed to address the resource concern, they must be contracted to award the points.	
2. a. Field(s) directly borders a surface water body listed on the 303(d) list as impaired or threatened for the pollutant cause "E-Coli" , "Fecal Coliform" , "Sediment" , "Phosphate" , or "Selenium" when the Source(s) is "Unknown" , "Irrigated Crop Production" or "Non-Point Source" .	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Field(s) directly borders a ditch, canal or tributary that flows directly into a surface water body listed on the 303(d) list as impaired or threatened for the pollutant cause "E-Coli" , "Fecal Coliform" , "Sediment" , "Phosphate" , or "Selenium" when the Source(s) is "Unknown" , "Irrigated Crop Production" or "Non-Point Source" . Guidance: If the application directly borders the impaired stream, but the impaired section is below the property, award points for one or more contracted practices that address the water quality concern.	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Field(s) directly borders a solid blue line stream as marked on a USGS topographic 7.5-minute, 1:24,000-scale quadrangle series map.	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Field(s) directly borders a ditch, canal or tributary that flows into a solid blue line stream as marked on a USGS topographic 7.5-minute, 1:24,000-scale quadrangle series map.	Yes <input type="radio"/> or No <input type="radio"/>
Soil Health: SELECT ONE of the following: Soil Health Principals include: 1) Using plant diversity to increase diversity in the soil, 2) Managing soils more by disturbing them less, 3) Growing a living root throughout the year, 4) Keeping the soil covered as much as possible 5) Integrate livestock grazing of cover crops where possible. Guidance: For 3a, 3b, and 3c, award points for one or more of the following contracted practices: Conservation Cover (327), Conservation Crop Rotation (328), Cover Crop (340), Forage and Biomass planting (512), Nutrient Management (590), Integrated Pest Management (595), Prescribed Grazing (528), Residue Management – Reduced Till (345), and/or Residue and Tillage Management - No Till (329).	
3. a. Will the proposed project result in the implementation of three practices that address three or more	Yes <input type="radio"/> or No <input type="radio"/>

of the soil health principals?	
3. b. Will the proposed project result in the implementation of two practices that address two of the soil health principals?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Will the proposed project result in the implementation of one practice that addresses one of the soil health principals?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Erosion:	
4. Will the proposed project result in the implementation of practices that will result in the long term reduction of soil erosion in stream corridors or riparian areas? Guidance: Award points for one or more of the following contracted practices: Riparian Herbaceous Cover (390), Riparian Forest Buffer (391), Filter Strip (393), Access Control (472), Livestock Shelter Structure (576), Channel Stabilization (584), and/or Streambank and Shoreline Protection (580).	Yes <input type="radio"/> or No <input type="radio"/>
Healthy Plants and Wildlife: Will the proposed project address Plant Structure and Composition, Plant Pests and Wildlife Habitat Degradation? Answer all that apply for a maximum of 15 points	
5. a. Will the proposed project result in the implementation of practices for the management of noxious and invasive species ONLY on “non-cropland” acreage? (One of the following practices must be contracted to take points - 314 - Brush Management and/or 315 Herbaceous Weed Control). Guidance: Required documentation that noxious or invasive species are present and will be eradicated or controlled by the practice.	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Land enrolled in this application establishes native grassland/sagebrush habitat and/or manages grassland/sagebrush habitat within Sage Grouse Core Area. Guidance: Use “sg_core_areas_v4.shp” located in f:\geodata\wildlife. Place GIS map documentation in case file. Award points for one or more contracted practices that will improve sage-grouse habitat within the sage-grouse core area.	Yes <input type="radio"/> or No <input type="radio"/>
5. c. Will the proposed project result in the implementation of practices that increase habitat and forage for pollinators and/or beneficial insects? Guidance: Award points for one or more of the following contracted practices with an approved pollinator seeding/planting plan: Conservation Cover (327), Field Border (386), Tree/Shrub Establishment (612), Cover Crop (340), Forage and Biomass Planting (512), Forage Harvest Management (511), Windbreak/Shelterbelt Establishment (380), and/or Upland Wildlife Habitat Management (645).	Yes <input type="radio"/> or No <input type="radio"/>
Insufficient water – inefficient use of irrigation water resource concern:	
6. Will the proposed project result in the implementation of practices that will improve the efficiency of an existing irrigation system and/or result in the implementation of practices that will improve irrigation water management? Guidance: The contract must include Irrigation Water Management (449). Additional practices include one or more of the following conservation practices: Irrigation System - Microirrigation (441), Irrigation System – Surface and Subsurface (443), Sprinkler System (442), and/or Residue and Tillage Management – No Till (329).	Yes <input type="radio"/> or No <input type="radio"/>
Livestock Resource Concerns:	
7. EQIP Schedule of Operations includes implementation of practices AND management that solve resource concerns on a livestock operation? Guidance: Award points for contracted practices and contacted management that treat a livestock resource concern.	Yes <input type="radio"/> or No <input type="radio"/>
Soil Erosion-Crop Land Resource Concerns:	
8. Will the proposed project result in the implementation of practices that will limit sheet, rill and/or wind erosion losses to Tolerable levels if currently above T; or reduce erosion by 50% if already at T, as determined by RUSLE2, WEPS, or IET. Guidance: Award points for one or more of the following contracted practices that will reduce erosion to tolerable levels: Conservation Crop Rotation (328), Cover Crop (340), Forage and Biomass Planting (512), Integrated Pest Management (595), Nutrient Management (590), and/or Residue and Tillage Management – No Till (329).	Yes <input type="radio"/> or No <input type="radio"/>
Forest Resource Concerns:	
9. Will the application implement practices that will solve resource concerns associated with forestry? Guidance: The application must include one or more of the following conservation practices: Forest Stand Improvement (666), Tree and Shrub Planting (612), and/or Woody Residue Treatment (384).	Yes <input type="radio"/> or No <input type="radio"/>

Local Issues Addressed

Issue Questions	Responses
If the application is for the development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "YES" to the following question. Answering	

"Yes" to question 1a will result in the application being awarded the maximum amount of points that can be earned for the local level questions.	
1. Is the application for the development of a TSP prepared Conservation Activity Plan (CAP)? If the answer is "Yes", do not answer any other Local level questions. If the answer is "No", proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
General: Select all that apply:	
2. Will the planned conservation practice(s) scheduled in the contract be completed within 3 years? Guidance: EQIP schedule of operations must have all practices scheduled within the first 3 years of the contract. (Yes or No)	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the proposed project replace previously installed practices that have out-lived their lifespan, and will be replaced with a practice that will result in a more reliable source of water (i.e.: replacing 20+ year old pipeline with a new pipeline system)? This could include improving water quality, providing supplemental water or replacing an existing low producing water source. (Yes or No)	Yes <input type="radio"/> or No <input type="radio"/>
4. Will planned conservation practice(s) include Well Decommissioning that will address a WATER QUALITY resource concern? (Yes or No) Contracted practices include: 351. Concurrence of NRCS Cultural Resources Specialist is required prior to contracting.	Yes <input type="radio"/> or No <input type="radio"/>
5. Will 528 – Prescribed Grazing be implemented on the entire grazing operation through EQIP (Contracted)? Note: Prescribed Grazing will be applied on all contracted acres that are included in the planned grazing schedule ECS-29. Prescribed grazing will be implemented following the installation of planned facilitating practices (water development, fencing, seeding's etc.) A grazing operation is defined as all the range and pasture lands that are grazed by livestock; however, this excludes special use pastures (calving and winter feeding areas used the same time of year) and hayland/cropland acres that are aftermath grazed. The whole grazing operation is not required to be included in the grazing plan, however all grazed range and pastureland fields that are part of the planned grazing system must be identified and included in the plan and contract. (Yes or No)	Yes <input type="radio"/> or No <input type="radio"/>
Cross - Fencing: By the end of the contract period, will there be additional pastures created by cross-fencing? Guidance: 528 - Prescribed Grazing and 382 - Fence must be contracted. (Select only one)	
6. a. 5 or more additional pastures created by cross-fencing?	Yes <input type="radio"/> or No <input type="radio"/>
6. b. 4 additional pastures created by cross-fencing?	Yes <input type="radio"/> or No <input type="radio"/>
6. c. 3 additional pastures created by cross-fencing?	Yes <input type="radio"/> or No <input type="radio"/>
6. d. 2 additional pastures created by cross-fencing?	Yes <input type="radio"/> or No <input type="radio"/>
6. e. 1 additional pasture created by cross-fencing?	Yes <input type="radio"/> or No <input type="radio"/>
Livestock Shelter Structure: must be contracted for these points. Select all that apply:	
7. a. Will there be a watering facility within 300 feet of the shelter structure? (Yes or No)	Yes <input type="radio"/> or No <input type="radio"/>
7. b. Are livestock currently utilizing sensitive areas (riparian, wetlands, cultural resources, etc) for shelter and the contracted livestock shelter structure will eliminate use of that area? (Yes or No)	Yes <input type="radio"/> or No <input type="radio"/>
7. c. Will the planned conservation practice allow for alternating of livestock wintering locations from year to year once the practices are installed? At least one will be contracted to allow for a rotation where no sensitive areas exist. (Yes or No)	Yes <input type="radio"/> or No <input type="radio"/>
Livestock Water Development: Will the schedule of operations include practice(s) that address LIVESTOCK PRODUCTION LIMITATION: Inadequate Livestock Water by reducing distance to dependable water? Guidance: For the water source to be considered dependable, water must be available in adequate quantity for entire length of time that area might be grazed. (Select only one)	
8. a. Will there be a water development/enhancement planned for a field where the current water source limits the season of use?	Yes <input type="radio"/> or No <input type="radio"/>
8. b. Will there be dependable water source(s) spaced 0.5 mile apart on rough terrain or up to 1.0 mile apart on level terrain by end of the contract period?	Yes <input type="radio"/> or No <input type="radio"/>
8. c. Will there be dependable water source(s) spaced 0.75 miles apart on rough terrain or 1.0 to 1.5 miles apart on level terrain by end of the contract period?	Yes <input type="radio"/> or No <input type="radio"/>
8. d. Will there be dependable water source(s) spaced > 1.0 miles apart on rough terrain or 1.5 to 2 miles apart on level terrain by end of the contract period?	Yes <input type="radio"/> or No <input type="radio"/>
Guidance: To be considered dependable, water must be available in the adequate quantity for the entire length of time that the areas could be grazed (water developments must be contracted): (Select only one)	

9. a. Will > 76% of the acres in the operation have a dependable water supply within NRCS distance and quantity guidelines by the end of the contract?	Yes <input type="radio"/> or No <input type="radio"/>
9. b. Will 51% to 75% of the acres in the operation have a dependable water supply within NRCS distance and quantity guidelines by the end of the contract?	Yes <input type="radio"/> or No <input type="radio"/>
9. c. Will 25-50% of the acres in the operation have a dependable water supply within NRCS distance and quantity guidelines by the end of the contract?	Yes <input type="radio"/> or No <input type="radio"/>
9. d. Will <24% of the acres in the operation have a dependable water supply within NRCS distance and quantity guidelines by the end of the contract?	Yes <input type="radio"/> or No <input type="radio"/>
Riparian: Will riparian resources be protected by reducing the time of use of the riparian area with one of the following measures to address a SOIL EROSION or WATER QUALITY resource concern?	
10. a. Will the proposed project utilize both cross-fencing and off-site water development?	Yes <input type="radio"/> or No <input type="radio"/>
10. b. Will the proposed project utilize just cross-fencing?	Yes <input type="radio"/> or No <input type="radio"/>
Range/Forage Seeding:	
11. Will the plan include a range seeding practice on rangeland and/or a forage seeding practice on pastureland that will address a DEGRADED PLANT CONDITION resource concern? (Yes or No)	Yes <input type="radio"/> or No <input type="radio"/>

National Priorities Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?	Yes <input type="radio"/> or No <input type="radio"/>
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	Yes <input type="radio"/> or No <input type="radio"/>
Water Conservation – Will the proposed project conserve water by: (select all that apply)	
3. a. Implementing irrigation practices that reduce aquifer overdraft.	Yes <input type="radio"/> or No <input type="radio"/>
3. b. Implementing irrigation practices that reduce on-farm water use?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	Yes <input type="radio"/> or No <input type="radio"/>
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	Yes <input type="radio"/> or No <input type="radio"/>
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	Yes <input type="radio"/> or No <input type="radio"/>
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	Yes <input type="radio"/> or No <input type="radio"/>
4. d. Implementing practices that increase on-farm carbon sequestration?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Health :- Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil “T”)?	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	Yes <input type="radio"/> or No <input type="radio"/>
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	Yes <input type="radio"/> or No <input type="radio"/>
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation	Yes <input type="radio"/> or No <input type="radio"/>

Reserve Program (CRP) or other set-aside program?	
6. c. Implementing practices benefitting honey bee populations or other pollinators?	Yes <input type="radio"/> or No <input type="radio"/>
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	Yes <input type="radio"/> or No <input type="radio"/>
Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	Yes <input type="radio"/> or No <input type="radio"/>
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	Yes <input type="radio"/> or No <input type="radio"/>
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	Yes <input type="radio"/> or No <input type="radio"/>
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	Yes <input type="radio"/> or No <input type="radio"/>
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "Yes" to the following question. Answering "Yes" to question 1a will result in the application being awarded the maximum amount of points that can be earned for the state priority category.	
1. a. Is the program application for development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other state level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Water Quality: If the contracted practice(s) result in elimination or minimization of the potential for contaminants entering water bodies, SELECT ONE of the following based on proximity to the specific water bodies. Guidance: Refer to the DEQ Shape File located at f:\geodata\hydrography and the "Wyoming Water Quality Assessment and Impaired Waters List (2012 Integrated 305(d) and 303(d) Report) Table 9.4 for the list of pollutant causes and sources". Award points for one or more contracted practices that will eliminate or minimize the potential for the listed water quality impairments (E.coli, sediment, etc.) from entering water bodies. The contracted practices must address the resource concern; if additional practices are needed to address the resource concern, they must be contracted to award the points.	
2. a. Field(s) directly borders a surface water body listed on the 303(d) list as impaired or threatened for the pollutant cause "E-Coli" , "Fecal Coliform" , "Sediment" , "Phosphate" , or "Selenium" when the Source(s) is "Unknown" , "Irrigated Crop Production" or "Non-Point Source" .	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Field(s) directly borders a ditch, canal or tributary that flows directly into a surface water body listed on the 303(d) list as impaired or threatened for the pollutant cause "E-Coli" , "Fecal Coliform" , "Sediment" , "Phosphate" , or "Selenium" when the Source(s) is "Unknown" , "Irrigated Crop Production" or "Non-Point Source" . Guidance: If the application directly borders the impaired stream, but the impaired section is below the property, award points for one or more contracted practices that address the water quality concern.	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Field(s) directly borders a solid blue line stream as marked on a USGS topographic 7.5-minute, 1:24,000-scale quadrangle series map.	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Field(s) directly borders a ditch, canal or tributary that flows into a solid blue line stream as marked on a USGS topographic 7.5-minute, 1:24,000-scale quadrangle series map.	Yes <input type="radio"/> or No <input type="radio"/>
Soil Health: SELECT ONE of the following: Soil Health Principals include: 1) Using plant diversity to increase diversity in the soil, 2) Managing soils more by disturbing them less, 3) Growing a living root throughout the year, 4) Keeping the soil covered as much as possible 5) Integrate livestock grazing of cover crops where possible. Guidance: For 3a, 3b, and 3c, award points for one or more of the following contracted practices: Conservation Cover (327), Conservation Crop Rotation (328), Cover Crop (340), Forage and Biomass planting (512), Nutrient Management (590), Integrated Pest Management (595), Prescribed Grazing (528), Residue Management – Reduced Till (345), and/or Residue and Tillage Management - No Till (329).	
3. a. Will the proposed project result in the implementation of three practices that address three or more	Yes <input type="radio"/> or No <input type="radio"/>

of the soil health principals?	
3. b. Will the proposed project result in the implementation of two practices that address two of the soil health principals?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Will the proposed project result in the implementation of one practice that addresses one of the soil health principals?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Erosion:	
4. Will the proposed project result in the implementation of practices that will result in the long term reduction of soil erosion in stream corridors or riparian areas? Guidance: Award points for one or more of the following contracted practices: Riparian Herbaceous Cover (390), Riparian Forest Buffer (391), Filter Strip (393), Access Control (472), Livestock Shelter Structure (576), Channel Stabilization (584), and/or Streambank and Shoreline Protection (580).	Yes <input type="radio"/> or No <input type="radio"/>
Healthy Plants and Wildlife: Will the proposed project address Plant Structure and Composition, Plant Pests and Wildlife Habitat Degradation? Answer all that apply for a maximum of 15 points	
5. a. Will the proposed project result in the implementation of practices for the management of noxious and invasive species ONLY on “non-cropland” acreage? (One of the following practices must be contracted to take points - 314 - Brush Management and/or 315 Herbaceous Weed Control). Guidance: Required documentation that noxious or invasive species are present and will be eradicated or controlled by the practice.	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Land enrolled in this application establishes native grassland/sagebrush habitat and/or manages grassland/sagebrush habitat within Sage Grouse Core Area. Guidance: Use “sg_core_areas_v4.shp” located in f:\geodata\wildlife. Place GIS map documentation in casefile. Award points for one or more contracted practices that will improve sage-grouse habitat within the sage-grouse core area.	Yes <input type="radio"/> or No <input type="radio"/>
5. c. Will the proposed project result in the implementation of practices that increase habitat and forage for pollinators and/or beneficial insects? Guidance: Award points for one or more of the following contracted practices with an approved pollinator seeding/planting plan: Conservation Cover (327), Field Border (386), Tree/Shrub Establishment (612), Cover Crop (340), Forage and Biomass Planting (512), Forage Harvest Management (511), Windbreak/Shelterbelt Establishment (380), and/or Upland Wildlife Habitat Management (645).	Yes <input type="radio"/> or No <input type="radio"/>
Insufficient water – inefficient use of irrigation water resource concern:	
6. Will the proposed project result in the implementation of practices that will improve the efficiency of an existing irrigation system and/or result in the implementation of practices that will improve irrigation water management? Guidance: The contract must include Irrigation Water Management (449). Additional practices include one or more of the following conservation practices: Irrigation System - Microirrigation (441), Irrigation System – Surface and Subsurface (443), Sprinkler System (442), and/or Residue and Tillage Management – No Till (329).	Yes <input type="radio"/> or No <input type="radio"/>
Livestock Resource Concerns:	
7. EQIP Schedule of Operations includes implementation of practices and management that solve resource concerns on a livestock operation? Guidance: Award points for contracted practices and contacted management that treat a livestock resource concern.	Yes <input type="radio"/> or No <input type="radio"/>
Soil Erosion-Crop Land Resource Concerns:	
8. Will the proposed project result in the implementation of practices that will limit sheet, rill and/or wind erosion losses to Tolerable levels if currently above T; or reduce erosion by 50% if already at T, as determined by RUSLE2, WEPS, or IET. Guidance: Award points for one or more of the following contracted practices that will reduce erosion to tolerable levels: Conservation Crop Rotation (328), Cover Crop (340), Forage and Biomass Planting (512), Integrated Pest Management (595), Nutrient Management (590), and/or Residue and Tillage Management – No Till (329).	Yes <input type="radio"/> or No <input type="radio"/>
Forest Resource Concerns:	
9. Will the application implement practices that will solve resource concerns associated with forestry? Guidance: The application must include one or more of the following conservation practices: Forest Stand Improvement (666), Tree and Shrub Planting (612), and/or Woody Residue Treatment (384).	Yes <input type="radio"/> or No <input type="radio"/>

Local Issues Addressed

Issue Questions	Responses
If the application is for the development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "YES" to the following question. Answering	

"Yes" to question 1a will result in the application being awarded the maximum amount of points that can be earned for the local level questions.	
1. . Is the application for the development of a TSP prepared Conservation Activity Plan (CAP)? If the answer is "Yes", do not answer any other Local level questions. If the answer is "No", proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Soil Health: Answer ONE of the following Soil Health Principals:	
2. a. The producer will adopt 3 or more of the soil health principles AND will add cover crops to the system: 1)Using plant diversity to increase diversity in the soil., 2) Managing soils more by disturbing less, 3) Growing a living root throughout the year, 4) Keeping the soil covered as much as possible, 5) Integrate livestock grazing of cover crops where possible.	Yes <input type="radio"/> or No <input type="radio"/>
2. b. The producer will adopt 2 of the soil health principles AND will add cover crops to the system: 1)Using plant diversity to increase diversity in the soil., 2) Managind soils more by disturbing less, 3) Growing a living root throughout the year, 4) Keeping the soil covered as much as possible, 5) Integrate livestock grazing of cover crops where possible.	Yes <input type="radio"/> or No <input type="radio"/>
General Questions:	
3. a. Reduce erosion to tolerable limits? (Soil "T" levels)	Yes <input type="radio"/> or No <input type="radio"/>
3. b. Will the application include practices in the Schedule of Operations that documents a positive change in the Rotation Soil Conditioning Index (SCI)?	Yes <input type="radio"/> or No <input type="radio"/>
Tillage Systems:	
4. a. Will a basic mulch till sytem (Residue Management 345) be used continuously in the crop rotation, will be converting from a more intensive tillage practice AND contracted for the greatest extent possible (3 full years)?	Yes <input type="radio"/> or No <input type="radio"/>
4. b. Will a No-Till/Residue Management (329) system be used continuously in the crop rotation, will be converting from a more intensive tillage practice AND contracted for the greatest extent possible (3 full years)?	Yes <input type="radio"/> or No <input type="radio"/>
Implementation of Cover Crops:	
5. a. Will the application implement Cover Crop (340) where the seed mix will include 5 species?	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Will the application implement Cover Crop (340) where the seed mix will include 8 species?	Yes <input type="radio"/> or No <input type="radio"/>
5. c. Will compaction be addressed by the Cover Crop (340) mix by including species such as: mustards, sunflower, Phacelia or other broadleaf species. (Turnips and Radishes do not count)	Yes <input type="radio"/> or No <input type="radio"/>
5. d .Will the application implement Cover Crop (340) mix that includes flowering species such as phacelia, buckwheat, clovers etc. to promote pollinator habitat.	Yes <input type="radio"/> or No <input type="radio"/>
5. e. Will the implementation of the Cover Crop (340) provide a full season cover crop)	Yes <input type="radio"/> or No <input type="radio"/>
Grazing	
6. Will the producer sub-divide their field to increase utilization of the Cover Crop to implement the 5th principle of Soil Health. (528 - Prescribed grazing must be contracted for points)	Yes <input type="radio"/> or No <input type="radio"/>
