

# Snake River Screening Tool

Funding Pool: \_\_\_\_\_

Applicant Name: \_\_\_\_\_

Application Number: \_\_\_\_\_

Farm & Tract(s): \_\_\_\_\_

*\*Check the low priority box if any of the below questions are true.*

- If an applicant has a current or past EQIP contract within the last three years that the 1155 needed to be modified due to a delay in implementation. (Excludes delays by NRCS)

**AND/OR**

- If an NRCS CPA 153 was issued on an EQIP contract in the last three years. (Excludes delays by NRCS)

**AND/OR**

- If an applicant has an EQIP terminated contract within the last three years

LOW PRIORITY

*\*If a box is not checked for Low Priority or High Priority, then check the Medium Priority.*

MEDIUM PRIORITY

*\*Pick a land use. Check mark the high priority if the answer is true for the applicable land use below.*

## **SRT Cropland: Water-Inefficient Use of Irrigation Water**

- Will a drip system or irrigation system that has an estimated efficiency of at least 85% be installed

**AND**

- Do the acres under the irrigation system being installed have irrigation water management being implemented or will the application include Irrigation Water Management

**AND**

- Will a Cover Crop with a minimum of 2 species be planted or will Conservation Cover be planted on the offered acres?

## **SRT Cropland: Soil Degradation-Organic Matter Depletion**

- Will the proposed treatment include Residue Management with a STIR = or < 40

**AND/OR**

- Will the planned treatment include an inter seeded Cover Crop within the cash crop or a minimum of 3 species mix Cover Crop during the Fallow period?

## **SRT Cropland: Fish & Wildlife-Habitat Degradation**

- Will the proposed treatment include at least 0.5 acres wildlife/pollinator perennial planting?

## **SRT Farmstead: Water Quality-Excess Pathogens**

- Has a CNMP been developed?

## **SRT Farmstead: Water Quality-Pesticides**

- Will the proposed treatment area address Water Quality for Pesticides?

HIGH PRIORITY (All SRT Forestry and Range-degraded plant condition applications will be high priority)
