

Locally Led Conservation Customer Feedback Questionnaire

The Natural Resources Conservation Service and Vermont Conservation Districts are seeking your ideas to focus our outreach activities and cost share programs over the next year.

We hope to incorporate the goals and needs of interested residents, producers and partners into developing priorities for program direction and funding. To do this, we need your help in deciding which resource concerns are most important to residents of your local conservation district.

Through this feedback session and our series of public meetings, we hope to gather necessary information to develop a proactive strategic plan to effectively address the issues that are most important to the community.

1. What Conservation District do you live in, or have a conservation interest in (check all that apply)?
- | | |
|---|---|
| Bennington County Conservation District | Ottawaquechee Conservation District |
| Caledonia County Conservation District | Otter Creek Conservation District |
| Essex County Conservation District | Poultney Mettowee Conservation District |
| Franklin County Conservation District | Rutland County Conservation District |
| Grand Isle County Conservation District | White River Conservation District |
| Lamoille County Conservation District | Windham County Conservation District |
| Orleans County Conservation District | Winooski Conservation District |

2. What is your interest in conservation?
- | | |
|--|---|
| I am a farmer | I am a local resident |
| I am a forester | I am employed by a conservation partner |
| I am an entrepreneur (not ag producer) | Other (please specify) |

3. What resource issues concern you the most?
- | | |
|-----------------------|------------------------|
| Surface Water Quality | Wildlife |
| Ground Water Quality | Plant Health |
| Soil Erosion | Insufficient Water |
| Soil Health | Other (please specify) |
| Animal Health | |

4. What areas concern you the most?
- | | |
|------------------------|------------------------|
| Farmstead/headquarters | Water |
| Forest landings | Forests |
| Cropland | Wildlife Areas |
| Hay Land | Buffers |
| Grazing Land | Other (please specify) |

5. Are there other concerns specific to your locality that you believe should be addressed? Are there other concerns specific to your locality that you believe should be addressed? For example, is there a specific watershed or area of your District where water quality, soil health, wildlife habitat, or any other resource concern is a high priority for treatment over other areas in your District?
