CROPLAND ENHANCEMENT BUNDLE

B000CPL21

Crop Bundle #21 – Crop Bundle (Organic)

APPLICABLE LAND USE: Crop (annual & mixed)

RESOURCE CONCERN ADDRESSED: Soil, Water & Plant

BUNDLE LIFE SPAN: 1 year

Enhancement Description

By implementing this combination of enhancements together, a synergy is achieved that should result in more conservation benefits than would be expected from implementing the enhancements individually.

Criteria

• All of the component enhancements in the required group must be adopted as shown in the table below.

• If an applicant has already adopted one or more component enhancements within a bundle, the applicant may schedule the bundle as long as the applicant is newly adopting the majority (more than 50 percent) of the component enhancements within the bundle.

• Applicants may choose to adopt a bundle on any portion of the agricultural operation and will be required to install component enhancements on all applicable acres where the bundle is adopted.

• The bundle is scheduled in the year in which all component enhancements in the bundle are applied but no later than the third fiscal year of the contract.

• The bundle, once adopted, may continue to be implemented in all subsequent years through the end of the contract.
• This Bundle may be applied multiple times.
**Documentation and Implementation Requirements**

Participant will:

- Follow the documentation and implementation requirements outlined in the respective enhancement job sheets to document the implementation of each component enhancement in the bundle.

- Prior to and after implementation, document the planned amount, fields, applied amount and the year each component enhancement in the bundle is applied:
