Comments:

Legend	
No-Atyp	Atypical, factor is affected by farming and/or ranching activities
No-Prob	Problem area, factor is affected by climate
ESD	Ecological Site Description (see agency record for ESD identification)
REF	State Reference Site (see agency record for REF identification)
OSD	Official Series Description, Use and Vegetation and/or Remarks (see agency record for OSD identification)
NWI	National Wetland Inventory plant community mapping (see agency record for NWI designation and definition)
HSL	Soil Survey and County Hydric Soils List (see agency record)
PS-1	Problem soil number 1 (Corps Regional Supplement)
PS-2	Problem soil number 2 (Corps Regional Supplement)
PS-3	Problem soil number 3 (Corps Regional Supplement)
PS-4	Problem soil number 4 (Corps Regional Supplement)
PS-5	Problem soil number 5 (Corps Regional Supplement)
S1-6A	Corps Regional Supplement Chapter 5 - Problematic Vegetation Procedure [Great Plains (d); Midwest (c)] Areas affected by grazing approach (4)
S1-6B	Corps Regional Supplement Chapter 5 - Problematic Vegetation Procedure [Great Plains (e); Midwest (d)] Managed plant communities approach (4)
Image	Imagery Review
Other	Record in comments/notes
Other-onsite	Onsite indicator present - see notes

**Comments:** Cells without data are normal years without imagery available for review.

<b>Legend</b>	
Blank	A blank cell means either the year was not used by the AE or the data field was not needed
-	Dash, no wetness signature and/or no drainage manipulation seen
INU	Inundation Wetness Signature - Surface Water
WS	Wetness Signature
Other	Other wetness signature as determined by agency expert; not specifically identified by a different abbreviation; record in comments section
M	Manipulation as defined in the NFSAM
