

Ranking Pool: ID - Ag Lands - NORTH - Classic - BFR

Survey: Applicability Questions

Section: Applicability	
Question	Answer Choices
Did the applicant self-certify as a beginning farmer or rancher on the NRCS-CPA-1200 Conservation Program Application AND the majority of the eligible land in the application is within the CSP - North Area	YES
	NO

Survey: Category Questions

Section: Category	
Question	Answer Choices
Is the majority of the eligible land in the application within Idaho?	Idaho
	Otherwise

Survey: Program Questions

Section: Program Questions	
Question	Answer Choices
Idaho has identified five ID priority resource concern categories for this fund pool; 'Degraded Plant Condition', 'Terrestrial Habitat', 'Concentrated Erosion', 'Soil Quality Limitation', and 'Field Sediment, Nutrient, and Pathogen Loss'. Using the CART Summary Report completed for this application, identify the one LAND USE GROUP (within Crop, Pasture, or Range) with the smallest number of ID priority resource concern categories met AT THE TIME OF APPLICATION. Choose the response that is the best match. Note: Associated Ag Land and Farmstead land uses are excluded from consideration.	All five ID priority resource concern categories are met.
	Four ID priority resource concern categories are met.
	Three ID priority resource concern categories are met.
	Two ID priority resource concern categories are met.
	One ID priority resource concern categories are met.
	No ID priority resource concern categories are met.
	Considering the LAND USE GROUP with the greatest number of acres (within Crop, Range, or Pasture), how many Resource Concern Categories (ID priority and non-ID priority) are met AT THE TIME OF APPLICATION?
Six resource concern categories are met.	
Five resource concern categories are met.	
Four resource concern categories are met.	
Three resource concern categories are met.	
Two resource concern categories are met.	
Does the applicant meet the NRCS definition of a veteran farmer or rancher (VFR)?	YES
	NO

Survey: Resource Questions

Section: Resource Questions	
Question	Answer Choices

Considering all irrigated land, by the end of the contract period will one or more activities be implemented to meet OR exceed the Source Water Depletion resource concern category on one or more land uses?	YES
	NO
Considering all cropland in the application, by the end of the contract period will one or more activities be implemented to meet OR exceed the Wind and Water Erosion or Soil Quality Limitation resource concern category on:	YES
	NO

Section: Resource Questions

Question	Answer Choices
Considering all cropland in the application, what proportion of the acres are in perennial vegetation 50% or more of the time (i.e. rotation length) or will have an enhancement implemented to meet this criteria by the end of the contract (This may include conversion from cropland to pastureland)?	75-100% of the eligible acres
	50-74% of the eligible acres
	Less than 50% of the eligible acres
Considering all range and pasture land in the application, by the END of the contract period will one or more activities be implemented to meet OR exceed the Degraded Plant Condition resource concern category on either land use?	YES
	NO
One or more activities will be implemented to meet OR exceed the Terrestrial Habitat resource concern category associated with a riparian area OR a species identified in the Idaho State Wildlife Action Plan by the END of the contract period.	YES
	NO
