Clear Water Alabama Webinars Planned for October 2020

Clear Water AL 2020 webinars are being planned with support of the International Erosion Control Association to provide 6.0 contact hours of continuing education. One-hour webinars will be presented on Thursday October 15, 22, and 29 at 10:00 a.m. and 1:00 p.m. The focus of the webinars will be on erosion control, sediment control, and stormwater management. Webinar topics, presenters, and registration details will be available in early August at the websites of the Alabama Soil and Water Conservation Committee

<https://alconservationdistricts.gov/resources/erosion-and-sediment-control/> and the International Erosion Control Association <https://ehub.ieca.org/webinars>.

Originally planned for Cullman in 2020, the 2-day event will be rescheduled for Cullman in 2021. The decision to provide webinars was made by the Steering Committee of the Alabama Erosion and Sediment Control Partnership to avoid potential health problems associated with COVID-19.
