<th><strong>Urban Ag Program Questions</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Will practices in this application assist producers who supply products to schools or non-profit local community initiative as part of an established Farm to School or other local food initiative?</td>
</tr>
<tr>
<td>2. Will the products grown supply food in areas identified as a Food Desert?</td>
</tr>
<tr>
<td>3. Does the application include a high tunnel for which the applicant has an established off-farm market which will benefit by extending the growing season or improving plant condition of a crop type consistent with the current farm enterprise?</td>
</tr>
<tr>
<td>4. On any land included in the farming operation, is the Resource Concern of Degraded Plant Condition – Undesirable Plant Productivity and Health being currently addressed by an existing high tunnel?</td>
</tr>
<tr>
<td>5. Will practices in this application increase plant diversity through the crop rotation?</td>
</tr>
<tr>
<td>6. Will resource concerns related to livestock operations be addressed or eliminated on the farming operation through practices in this application?</td>
</tr>
<tr>
<td>7. Will practices in this application reduce water consumption from primary, principle, or the Long Island aquifers?</td>
</tr>
<tr>
<td>8. What is the distance to market from where the agricultural products are produced?</td>
</tr>
<tr>
<td>a. 5 miles or less</td>
</tr>
<tr>
<td>b. 6 to 25 miles</td>
</tr>
<tr>
<td>c. 26 to 50 miles</td>
</tr>
<tr>
<td>d. over 50 miles</td>
</tr>
<tr>
<td>e. Not applicable</td>
</tr>
