

U.S. Department of Agriculture
Natural Resources Conservation Service

REGIONAL CONSERVATION PARTNERSHIP PROGRAM (RCPP)
CONSERVATION EASEMENT (**NO U.S. RIGHT OF ENFORCEMENT**)
RCPP MINIMUM DEED TERMS FOR AGRICULTURAL USE (LOW RESTRICTIVE LEVEL)

These deed terms must be used only when the RCPP Conservation Easement is not funded to include a U.S. right of enforcement.

1) This paragraph must be inserted at the end of the body of the RCPP-funded Conservation Easement deed:

This Conservation Easement is acquired with funds provided, in part, under the Regional Conservation Partnership Program (RCPP) (16 U.S.C. Section 3871 et seq. and 7 CFR part 1464). The EXHIBIT _____ is attached hereto and incorporated herein by reference and will run with the land [**SELECT ONE:** *in perpetuity* **OR** *for the maximum duration allowed under applicable State law*]. As required by the RCPP, and as a condition of receiving RCPP funds, all present and future use of the Protected Property identified in EXHIBIT ____ (legal description or survey) is and will remain subject to the terms and conditions described forthwith in this Addendum entitled RCPP Minimum Deed Terms in EXHIBIT ____ that is appended to and made a part of this easement deed. The rights of the United States acquired under this Conservation Easement shall be unaffected by any subsequent amendments or repeal of the RCPP.

2) A fully executed copy of the Exhibit below must be attached to and recorded as part of the RCPP funded Conservation Easement deed at the time of closing.

EXHIBIT _____

RCPP MINIMUM DEED TERMS

The Regional Conservation Partnership Program (16 U.S.C. Section 3871 et seq.) facilitated and provided funding for the purchase of a Conservation Easement (“Conservation Easement”) on real property described in Exhibit _____ (*legal description or survey*), hereafter referred to as the “Protected Property,” to further the restoration, protection, enhancement, management, maintenance, and monitoring of **[IDENTIFY THE CONSERVATION VALUES HERE: _____]** on the Protected Property (the “Conservation Values”).

The **[LANDOWNER NAMES]** (collectively “Grantor”), the **[QUALIFIED ENTITY NAMES]** (collectively “Grantee”), and the **United States of America** (the “United States”) and its assigns, acting by and through the United States Department of Agriculture (“USDA”) Natural Resources Conservation Service (“NRCS”) on behalf of the Commodity Credit Corporation (“CCC”) (jointly referred to as the “Parties”) acknowledge that the Conservation Easement is acquired by the Grantee for the purpose of the restoration, protection, enhancement, management, maintenance, and monitoring of the Conservation Values (the “purposes of the Conservation Easement”). Decision making on behalf of NRCS is delegated to the Chief of NRCS or authorized designee (hereafter referred to as “Chief of NRCS”). Baseline conditions of the Protected Property are set forth in a Baseline Documentation Report, a copy of which is **[SELECT ONE: *appended to this easement deed* OR *maintained in the files of the Grantee*].**

In order to ensure compliance with the Regional Conservation Partnership Program, 16 U.S.C. Section 3871 et. seq. and 7 CFR part 1464, the following rule of interpretation will govern any and all inconsistencies between this Exhibit and other provisions of the Conservation Easement. Notwithstanding any other provision of the Conservation Easement, the Parties agree that all present and future use of the Protected Property is and will remain subject to all of the following terms and conditions identified in Sections I and II. If the terms and conditions in Sections I and II are inconsistent with terms and conditions in other sections of the Conservation Easement, Sections I and II will control; however, if other sections of the Conservation Easement have terms and conditions that are consistent with, but more restrictive to the rights of the Grantor than the terms and conditions in Section I, Paragraphs 1, 2, and 4, those more restrictive terms and conditions will control. If other sections of the Conservation Easement are more restrictive to the rights of the Grantor than Section I, Paragraph 3 and Section II, then Section I, Paragraph 3 and Section II will control.

SECTION I - MINIMUM CONSERVATION DEED RESTRICTIONS

Even if the Protected Property consists of more than one parcel for real estate tax or any other purpose or if it was acquired previously as separate parcels, it will be considered one parcel for purposes of the Conservation Easement, and the restrictions and covenants of this Conservation Easement will apply to the Protected Property as a whole.

The terms and conditions of the Conservation Easement run with the land and are binding upon the Grantor and Grantee and their respective heirs, successors, agents, assigns, lessees, and any other person claiming under them must comply with all terms and conditions of this easement, including the following:

1. Limitation on Impervious Surfaces. Impervious surfaces will not exceed **[Insert approved impervious surface percentage]** *[Note: if greater than 2 percent, a written waiver from the Chief of NRCS is required]*, of the Protected Property, excluding NRCS-approved conservation practices. Impervious surfaces are defined as material that does not allow water to percolate into the soil on the Protected Property, including, but not limited to, buildings with or without flooring, paved areas, and any other surfaces that are covered by asphalt, concrete, or roofs. This limitation does not include public roads or other roads owned and controlled by parties with rights superior to those rights conveyed to Grantee by this Conservation Easement.

[Include the following if limited subdivision is allowed below: *In the event the Protected Property is subdivided as provided for in Section I, Paragraph 2(A), the total cumulative impervious surface of the subdivided parcels must not exceed the impervious surface limitation referenced above. The Grantor, with Grantee approval, will allocate the impervious surface limit among the subdivided parcels and ensure said impervious surface limitation is clearly defined in each subdivided parcel's recorded instrument.]*

2. Limitations on Uses. Any uses or activities that are inconsistent with the purposes of the Conservation Easement are prohibited. The following activities are inconsistent with the purposes of the Conservation Easement and are specifically prohibited, subject to the qualifications stated below:

(A) Subdivision – [Select Option 1, 2, or 3.] [Additionally, where required by State law the following may be inserted at the end of the selected option: Notwithstanding the foregoing, subdivision of the Protected Property is permissible when necessary to comply with State or local regulations that explicitly require subdivision to construct residences for employees working on the Protected Property. Grantor must provide written notice and evidence of such requirements to Grantee, prior to division of the Protected Property in accordance with such State or local regulations.]

[[Option 1] Separate conveyance of a portion of the Protected Property or division or subdivision of the Protected Property is prohibited.]

[[Option 2] The Protected Property must not be divided or subdivided into, or separately conveyed as, more than _____ separate parcels (____ divisions allowed), the boundaries and the allocation of the impervious surface limitation of which have been identified in EXHIBIT ____, which is appended to and made a part of this Conservation Easement. To protect the Conservation Values, the boundaries of such divisions have been preapproved in writing by Grantee. Deviations from the identified boundaries will not be allowed. Grantor must give Grantee written notice prior to subdividing, dividing, or separately conveying a parcel of the Protected Property.]

[[Option 3] The Protected Property must not be divided or subdivided into, or separately conveyed as, more than __ separate parcels (____ divisions allowed). To protect the Conservation Values, the boundaries of such divisions must be approved in writing by Grantee before any such division, subdivision, or separate conveyance occurs. After receiving a request from Grantor to approve the division, subdivision, or separate conveyance of the Protected Property into separately conveyable parcels, Grantee may approve such request when—

1. The Grantor certifies to the Grantee that the requested subdivision is required to protect the

Conservation Values and that any new owners of the subdivided parcels intend to use such parcels for such purposes; and

2. Grantee determines that the Parcels resulting from the subdivision of the Protected Property will protect the Conservation Values.].

(B) *Industrial or Commercial Uses* – Industrial or commercial activities on the Protected Property are prohibited except for the following:

- (i) Uses consistent with the purposes of the Conservation Easement;
- (ii) The sale of excess power generated in the operation of renewable energy structures and associated equipment or other energy structures that Grantee approves in writing as being consistent with the purposes of the Conservation Easement;
- (iii) Temporary or seasonal outdoor activities or events that do not harm the Conservation Values;
- (iv) Commercial enterprises related to agriculture or forestry including but not limited to [**Select those consistent with the purposes of the Conservation Easement and that may occur on the Protected Property: agritourism, processing, packaging, and marketing of farm or forest products, farm machinery repair, and farm wineries.**]; and
- (v) Small-scale commercial enterprises compatible with agriculture or forestry, including but not limited to cafés, shops, and studios for arts or crafts.

(C) *Construction on the Protected Property* – Except as otherwise permitted in this **Section I, Paragraph 2(C)**, all structures and improvements must be located within the Building Envelope(s), [**Select One (FIXED OPTION):** containing approximately _____ total acres and described or shown in EXHIBIT _____, which is appended to and made a part of this Conservation Easement. **OR (FLOATING OPTION):** of which there shall be no more than _____ building envelopes, containing no more than _____ total acres. The Grantor must receive prior written approval of the location and boundaries of the future building envelopes from the Grantee, following which, the Grantor and Grantee shall amend this Conservation Easement to add an exhibit that describes the approved boundaries and locations of the ~~Building-building Envelopeenvelope~~(s).]

[Alternately, if the Protected Property will have no building envelopes, replace the preceding sentences with the following: Except as otherwise permitted in this **Section I, Paragraph 2(C)**, no structures or improvements, whether existing or in the future, may be constructed, replaced, or enlarged on the Protected Property.]

[Include the following subparagraph if future adjustments to approved building envelopes may be considered: The identified boundaries and locations of the approved Building Envelope(s) may be adjusted only with prior written approval from the Grantee. The adjusted Building Envelope(s) may not be larger than the approved Building Envelope(s) and must provide equal or greater protection of the

Commented [DLY1]: Not sure why building envelope is sometimes capitalized and others not. Should be consistent unless there is a distinction between the two that I am missing.

Conservation Values. Following receipt of written approval to adjust identified Building Envelope(s), the Grantor and Grantee shall amend this Conservation Easement to add an exhibit that describes the subsequently approved boundaries and locations of the Building Envelope(s).]

Agricultural structures and utilities to serve approved buildings or structures, including on-farm energy structures allowed under **Section I, Paragraph 2(B)(ii)** and in this **Section I, Paragraph 2(C)**, that neither individually nor collectively have an adverse impact on the Conservation Values, may be located outside of the Building Envelope(s) with prior written approval of the Grantee.

New roads may be constructed if they are approved in advance by Grantee, within impervious surface limits, and necessary to carry out the agricultural operations or other allowed uses on the Protected Property.

Maintenance of existing roads documented on the Baseline Documentation Report is allowed; however, existing roads may not be widened or improved unless widening and improving is within impervious surface limits, approved in advance by Grantee, and necessary to carry out the agricultural operations or other allowed uses on the Protected Property.

Fences may be maintained and replaced, and new fences installed if they are necessary for agricultural operations or other allowed uses on the Protected Property or to mark boundaries of the Protected Property. Maintenance, replacement, and installation of fences must be conducted in a manner consistent with the purposes of the Conservation Easement.

(D) Granting of Easements for Utilities and Roads – The granting or modification of easements for utilities and roads is prohibited when the utility or road will adversely impact the Conservation Values as determined by the Grantee.

(E) Surface Alteration – Grading, blasting, filling, sod farming, earth removal, or any other activity that will disturb the soil surface or materially alter the topography, surface or subsurface water systems, or wetlands of the Protected Property is prohibited, except as follows:

(i) Dam construction pursuant to a plan approved by the Grantee to create ponds for agricultural use, fire protection, or wildlife enhancement, including enhancement through wetland restoration, enhancement or creation;

(ii) Erosion and sediment control pursuant to a plan approved by the Grantee;

(iii) Soil disturbance activities required in the maintenance or construction of approved buildings, structures, roads, and utilities provided that the required alteration has been approved in writing by Grantee as being consistent with the purposes of the Conservation Easement; and

(iv) **[Select all that apply: Agricultural activities; ~~Grazing uses or grassland restoration;~~ Forest land uses or forest restoration]** and related conservation activities conducted in accordance with this Conservation Easement **[Insert if the RCPP Easement Plan paragraph is included:**

and the RCPP Easement Plan as described in Section I, paragraph 4].

(F) *Surface and Subsurface Mineral Exploration and Extraction* –

Mining or extraction of soil, sand, gravel, oil, natural gas, fuel, coal, or any other mineral substance owned by Grantor as of the date of this Conservation Easement or later acquired by Grantor, using any surface mining, subsurface mining, or dredging method, from the Protected Property is prohibited **[Include the following if either of the optional mineral extraction options below are used: except as otherwise provided in this Paragraph (F)].**

If a third party owns or leases the oil, natural gas, or any other mineral rights associated with the Protected Property prior to the time this Conservation Easement is executed, and their interests have not been subordinated to this Conservation Easement, the Grantor must require, to the greatest extent possible, that any oil, natural gas, and mineral exploration and extraction conducted by such third party is conducted in accordance with this Paragraph (F). Any mineral leases or other conveyances of minerals entered into or renewed after the date of this Conservation Easement are subordinate to the terms of this Conservation Easement and must incorporate by reference this Conservation Easement.

[Include the following subparagraph if a limited allowance for agricultural purposes may be authorized: *Limited mining activities for materials (e.g., sand, gravel, or shale) used to facilitate the agricultural operations on the Protected Property are allowed where the extraction of such materials is limited, localized, and small with a defined area and acreage [SELECT ONE: identified in EXHIBIT ____ OR approved prior to extraction by the Grantee, not to exceed ____ acres,] and does not harm the Conservation Values.***]**

[The following may be inserted to qualify the above if Grantee chooses to allow subsurface mineral development as an alternative to a complete prohibition on mineral exploration and extraction on the Protected Property – Beginning of Optional Additional Subsurface Mineral Development Language: *Subsurface mineral development on the Protected Property is allowed in accordance with this Paragraph (F), if approved by Grantee. Grantee and Grantor must demonstrate prior to the initiation of mineral development activity that such subsurface mineral development shall—*

- (i) *Be conducted in accordance with applicable State law;*
- (ii) *Have a limited and localized impact;*
- (iii) *Not harm the Conservation Values;*
- (iv) *Not materially alter or affect the existing topography, as determined by Grantee;*
- (v) *Comply with a subsurface mineral development plan that includes a plan for the remediation of impacts to the Conservation Values, which includes reclaiming and restoring all areas of the Protected Property that are impacted by the subsurface mineral development and such plan is approved by Grantee prior to the initiation of mineral development activity;*
- (vi) *Not be accomplished by any surface-mining method;*
- (vii) *Be within the impervious surface limits described in Section I, Paragraph 1; and*
- (viii) *Use practices and technologies that minimize the duration and intensity of impacts to the*

Conservation Values.

All areas of the Protected Property that are impacted by subsurface mineral development pursuant to this section must be reclaimed and restored within a reasonable time, as determined by the Grantee, at cessation of subsurface mineral development activities.

Impervious surfaces, as defined in Section I, Paragraph 1, include any surface disturbance or impervious surfaces associated with subsurface mineral development allowed by this paragraph. End of Optional Additional Subsurface Mineral Development Language]

[Include the following paragraph for all RCPP Grassland or Forest Enrollments: (G) *Crop Cultivation. Except for grazing uses and grassland restoration and conservation, the cultivation or production of crops, nonperennial forages for human or domestic animal consumption, crop seed production, or planting of orchards, vineyards, berries, tree farms, or other perennial nongrassland agricultural product is prohibited [Include the following if agricultural intensification may be permitted on RCPP Grassland Enrollments: outside of the Designated Crop Cultivation Areas on the Protected Property, identified in Exhibit _____, the extent of such areas may not exceed [Insert Percent Not to Exceed 10 Percent] _____ percent of the Protected Property, the agricultural uses, location, and boundaries of which must be compatible with the purposes of the Conservation Easement and be approved in advance, in writing by the Grantee.]*

3. _____ Allowed Uses. **[[Include the following any time the property is in agricultural use:** *The provisions of this Conservation Easement and associated exhibits will not be interpreted to restrict the types of agricultural operations that can function on the Protected Property, so long as the agricultural operations are consistent with the long-term viability of the Protected Property and the purposes of the Conservation Easement.] OR [Include the following paragraph any time the property is in grassland or forest use:* *The provisions of this Conservation Easement limit the types of agricultural operations that can occur on the Protected Property to those that restore or conserve the Conservation Values.]]* No uses will be allowed that violate Federal laws, including Federal drug laws or that decrease the Conservation Easement's protection for the Conservation Values. Allowed uses of the Protected Property include the specific uses allowed in Section I, Paragraph (2)(B) (i)-(v) and the following activities, subject to the qualifications stated below:

-(A) Agricultural Production – The production, processing, and marketing of [SELECT ONE: agricultural crops, livestock, and forest products OR livestock, agricultural products, and forest products compatible with restoration and conservation of grassland, grazing uses, and related conservation values] is allowed provided it is conducted in a manner consistent with the terms of the Conservation Easement [Insert if the RCPP Easement Plan Section I, Paragraph 4 is included: and the RCPP Easement Plan described in Section I, Paragraph 4].

(B) On-Farm Energy Production – Renewable energy production is allowed for the purpose of generating energy for the agricultural and residential needs of the Protected Property. Renewable energy sources must be built and maintained within impervious surface limits and consistent with the purposes of the Conservation Easement.

[Include the following paragraph any time the property is in grassland use: (C) Grassland Uses of the Protected Property – Grantor is allowed to graze, hay, harvest for hay and noncrop seed production, mow, construct fire breaks, conduct fire suppression and rehabilitation activities, and conduct common grazing practices, including cultural practices, consistent with the provisions and conservation purposes of the Conservation Easement. The term “common grazing practices” means those practices customary to the region where the Protected Property is located related to livestock grazing, forage management, and maintenance of infrastructure required to conduct livestock grazing on the Protected Property. Grantor must not hay, mow, or harvest for seed during certain nesting seasons for birds whose populations are in significant decline. Determinations of birds whose populations are in significant decline, nesting seasons for such birds, and the areas of the Protected Property affected by this restriction will be set forth within **[Select all that apply: the Baseline Documentation Report, the RCPP Easement Plan, and the grassland management plan described in Section I, Paragraph 4]**

-[Include the following paragraph any time the property is in forest use: (D) Forest Management and Timber Harvest – Forest management and timber harvesting is allowed, provided it is carried out, to the extent practicable, in accordance with current, generally accepted best management practices for the sites, soils, and terrain of the Protected Property.]

[Include the following paragraph and each applicable clause if the Protected Property contains highly erodible cropland and for each RCPP Easement Plan the entity has otherwise agreed to:

4. RCPP Easement Plan. *The Grantee shall prepare an RCPP Easement Plan in consultation with the Grantor and, as needed, the Chief of NRCS. The Grantee agrees to update the RCPP Easement Plan, in consultation with the Grantor and as needed, the Chief of NRCS, in the event the uses or ownership of the Protected Property change. A copy of the current RCPP Easement Plan is kept on file with the Grantee.*

[INCLUDE THE FOLLOWING ONLY IF ENTITY AGREED TO HAVE AN RCPP EASEMENT PLAN: *The RCPP Easement Plan shall describe the farm or ranch management system, describe the natural resource concerns on the Protected Property, describe the conservation measures and practices that may be implemented to address the identified resource concerns, promote the long-term viability of the land to meet the purposes of the Conservation Easement, and identify, as applicable, permissible and prohibited activities and any associated restoration plans.]*

[INCLUDE THE FOLLOWING IF PARCEL CONTAINS HIGHLY ERODIBLE CROPLAND: *The RCPP Easement Plan shall include a conservation plan that complies with 7 CFR Part 12, or successor regulations, pertaining to all highly erodible cropland on the Protected Property. If the NRCS standards and specifications for highly erodible cropland are revised after the date of this Conservation Easement based on an Act of Congress, the Chief of NRCS will work cooperatively with the Grantor and Grantee to develop and implement a revised conservation plan.]*

[INCLUDE THE FOLLOWING IF THE ENTITY HAS AGREED TO HAVE A GRASSLAND MANAGEMENT PLAN: *The RCPP Easement Plan shall include a grassland management plan that describes the grassland resource; the management system and practices that conserve, protect, or enhance the viability of the grassland; and as applicable any habitat, species, or sensitive natural resources requirements, permissible and prohibited activities, and any associated restoration plans.]*

[INCLUDE THE FOLLOWING IF THE ENTITY HAS AGREED TO HAVE A FOREST MANAGEMENT PLAN: *The RCPP Easement Plan shall include a forest management plan that*

Formatted: Font: Not Italic

U.S. Department of Agriculture
Natural Resources Conservation Service

describes the management system and practices that conserve, protect, or enhance the viability of the forest land and as applicable, any significant conservation benefits. The forest management plan must be prepared by a professional resource manager, in consultation with the Grantee.]

SECTION II – PROTECTION OF THE UNITED STATES’ INTERESTS AND EASEMENT ENFORCEMENT

1. General Disclaimer and Grantor Warranty. The United States, its employees, agents, and assigns disclaim and will not be held responsible for Grantee’s or Grantor’s negligent acts or omissions or Grantee’s or Grantor’s breach of any representation, warranty, covenant, or agreements contained in this Conservation Easement Deed, or violations of any Federal, State, or local laws, including all Environmental Laws (defined below) including, without limitation, those that give rise to liabilities, claims, demands, losses, expenses, damages, fines, fees, penalties, suits, proceedings, actions, costs of actions, or sanctions asserted by or on behalf of any person or governmental authority, and other liabilities (whether legal or equitable in nature and including, without limitation, court costs, and reasonable attorneys’ fees and attorneys’ fees on appeal) to which the United States may be subject or incur relating to the Protected Property.

Grantor must indemnify and hold harmless the United States, its employees, agents, and assigns for any and all liabilities, claims, demands, losses, expenses, damages, fines, fees, penalties, suits, proceedings, actions and costs of actions, sanctions asserted by or on behalf of any person or governmental authority, and other liabilities (whether legal or equitable in nature and including, without limitation, court costs, and reasonable attorneys’ fees and attorneys’ fees on appeal) to which United States may be subject or incur relating to the Protected Property, which may arise from, but are not limited to, Grantor’s negligent acts, omissions, or breach of any representation, warranty, covenant, agreements contained in this Conservation Easement Deed or violations of any Federal, State, or local laws, including all Environmental Laws.

2. Environmental Warranty. Grantor warrants that it is in compliance with, and will remain in compliance with, all applicable Environmental Laws. Grantor warrants that there are no notices by any governmental authority of any violation or alleged violation of, noncompliance or alleged noncompliance with, or any liability under, any Environmental Law relating to the operations or conditions of the Protected Property. Grantor further warrants that it has no actual knowledge of an undisclosed release or threatened release of Hazardous Materials (defined below), as such substances and wastes are defined by applicable Federal and State law.

Furthermore, Grantor warrants the information disclosed to Grantee and United States regarding any past violations or noncompliance with Environmental Laws and associated remedial actions, or any past releases of Hazardous Materials and any associated remedial actions is complete and accurate.

Moreover, Grantor hereby promises to hold harmless and indemnify Grantee and the United States against all litigation, claims, demands, penalties and damages, including reasonable attorneys’ fees, arising from or connected with the release or threatened release of any hazardous materials on, at, beneath or from the Protected Property, or arising from or connected with a violation of any Environmental Laws by Grantor or any other prior owner of the Protected Property. Grantor’s indemnification obligation will not be affected by any authorizations provided by Grantee or the United States to Grantor with respect to the Protected Property or any restoration

U.S. Department of Agriculture
Natural Resources Conservation Service

activities carried out by Grantee on the Protected Property; provided, however, that Grantee will be responsible for any Hazardous Materials contributed after this date to the Protected Property by Grantee.

“Environmental Law” or “Environmental Laws” means any and all Federal, State, local or municipal laws, rules, orders, regulations, statutes, ordinances, codes, guidelines, policies, or requirements of any governmental authority regulating or imposing standards of liability or standards of conduct (including common law) concerning air, water, solid waste, hazardous materials, worker and community right-to-know, hazard communication, noise, radioactive material, resource protection, subdivision, inland wetlands and watercourses, health protection, and similar environmental health, safety, building, and land use as may now or at any time hereafter be in effect.

“Hazardous Materials” means any petroleum, petroleum products, fuel oil, waste oils, explosives, reactive materials, ignitable materials, corrosive materials, hazardous chemicals, hazardous wastes, hazardous substances, extremely hazardous substances, toxic substances, toxic chemicals, radioactive materials, infectious materials, and any other element, compound, mixture, solution, or substance that may pose a present or potential hazard to human health or the environment.

3. Extinguishment, Termination, and Condemnation. The interests and rights under this Conservation Easement may only be extinguished or terminated with written approval of the Grantee and the United States. Due to the Federal funds expended for the acquisition of this Conservation Easement, any proposed extinguishment, termination, or condemnation action that may affect the Protected Property must be reviewed and approved by the United States.

With respect to a proposed extinguishment, termination, or condemnation action, the Grantee and the United States stipulate that the fair market value of the Conservation Easement is ____ percent, hereinafter the “Proportionate Share,” of the fair market value of the land unencumbered by this Conservation Easement. The Proportionate Share will remain constant over time.

If this Conservation Easement is extinguished, terminated, or condemned, in whole or in part, then the Grantor must reimburse Grantee and the United States an amount equal to the Proportionate Share of the fair market value of the land unencumbered by this Conservation Easement. The fair market value will be determined at the time all or a part of this Conservation Easement is terminated, extinguished, or condemned by an appraisal that meets the Uniform Standards of Professional Appraisal Practice (USPAP) or Uniform Acquisition Standards or Federal Land Acquisition (UASFLA). The appraisal must be completed by a certified general appraiser and be approved by the Grantee and the United States.

The allocation of the Proportionate Share between the Grantee and the United States will be as follows: (a) to the Grantee or its designee, **[Calculate and enter the percent of fair market value of the Conservation Easement provided based on the sum of the Grantee’s contributions and Grantor donations toward the acquisition value of the easement]** ____ percent of the Proportionate Share; and (b) to the United States ____ percent of the Proportionate Share. Until such time as the Grantee and the United States receive the Proportionate Share from the Grantor or the Grantor’s successor or assign, the Grantee and the United States each have a lien against the Protected Property for the amount of the Proportionate Share due each of them. If proceeds from termination, extinguishment, or condemnation are paid directly to Grantee, the Grantee must reimburse the United States for

U.S. Department of Agriculture
Natural Resources Conservation Service

the amount of the Proportionate Share due to the United States.

4. Amendment. This Conservation Easement may be amended only if, in the sole and exclusive judgment of the Grantee and United States, by and through the Chief of NRCS, such amendment is consistent with the purposes of the Conservation Easement and complies with all applicable laws, regulations, and program policy. The Grantee must provide timely written notice to the Chief of NRCS of any proposed amendments. Prior to the signing and recordation of the amended Conservation Easement, such amendments must be mutually agreed upon by the Grantee, Grantor, and United States, by and through the Chief of NRCS. Any purported amendment that is recorded without the prior approval of the United States is null and void.
