

Raft River Watershed Plan

Public Scoping Notice

PROJECT OVERVIEW

The United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS), with the Raft River Flood District, Raft River Recharge Group, and Raft River Electric as the project sponsors, is proposing to fund through the Watershed Protection and Flood Prevention Act (Public Law [PL] 83-566), the Raft River Watershed Plan. The plan will support the increased protection of communities and infrastructure, and provide water to support agricultural needs. Goals for this project include recharging and stabilizing groundwater levels, addressing flood prevention, increasing public health and safety, and reducing sediment loads to the Snake River.

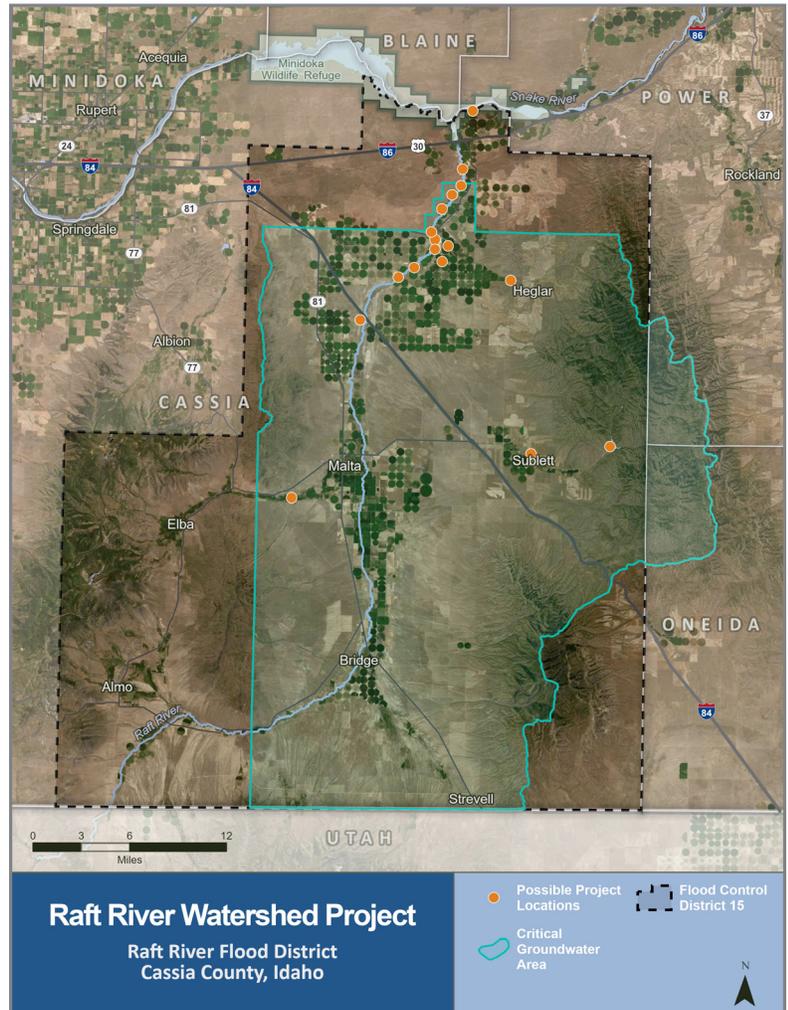

PUBLIC SCOPING VIRTUAL MEETING

Thursday, Sept. 17, 2020, 6:00 - 7:00 p.m., Zoom
