

**Manure Management
 Fund Account Fact Sheet
 Fiscal Year 2021**

Eligibility
<p>The Manure Management Fund Account is a Statewide account for applicants who have a waste management concern. All operations that meet the definition of an Animal Feeding Operation (AFO) are required to have a Comprehensive Nutrient Management Plan written by a Technical Service Provider (TSP). Operations that do not meet the definition of an AFO are required to have a Nutrient Management Plan (NMP). The NMP can be written by a TSP, an NRCS employee or the UK Ag Extension Nutrient Management Planner.</p>

Ranking Questions
1. Has this applicant received a Notice of Violation from Division of Water?
2. Is the application located within a Sourcewater Protection designated watershed?
3. Will the treatment you intend to implement using EQIP result in the treatment of an animal production system that currently has less than 6 months storage or polluted runoff, and will result in NO winter spreading of animal manures, as evidenced by the CNMP?
4. Is there a water quality concern from wastewater, milkhouse waste, or silage leachate on the farm which will be treated by implementation of the proposed contract?
5. Is the majority of the treated acres included in either a well head protection area or karst area as identified by DOW?
6. Is the majority of the treated acres included in either a DOW identified watershed or high-quality waters/classified stream?
7. Are high animal concentration areas creating an environmental problem anytime of the year, and the proposed project will address the resource concern?
