

<b>Irrigation Water Management          Fund Account Fact Sheet          Fiscal Year 2021</b>
---

<b>Eligibility</b>
<p>The Irrigation Water Management Fund Account is a Statewide account for applicants who have an Irrigation Water Management Plan (118) written by either a Technical Service Provider (TSP) or NRCS and are seeking financial assistance to incorporate the water savings recommendations into their current irrigation system.</p>

<b>Ranking Questions</b>
<p>1. Is the majority of the treated acres included in either a well head protection area or karst area as identified by DOW? <b>(Yes, if more than 50% of applicant's offered acreage falls within the boundaries of these special emphasis areas as per ArcMap)</b></p>
<p>2. Is the majority of the treated acres included in either a DOW identified watershed or high-quality waters/classified stream? <b>(Yes, if more than 50% of applicant's offered acreage falls within the boundaries of these special emphasis areas as per ArcMap).</b></p>
<p>3. Is the application located within a Sourcewater Protection Designated Watershed?</p>
<p>4. Select "Yes" to one answer ONLY, if applicable. Conservation treatment includes implementation of IWM and/or an irrigation system that results in an increase of efficiency, as documented in FIRI or the Irrigation Water Management Plan (118), of:</p>
<p>5a. More than 10% increase in efficiency</p>
<p>5b. 5-10% increase in efficiency</p>
<p>5c. Less than 5% increase in efficiency</p>
