

**Pooling Area - Pastureland
 Fund Account Fact Sheet
 Fiscal Year 2022**

Eligibility
<p>The Pooling Area - Pastureland Fund Account is available Statewide. Applications will be grouped by Work Unit, so that they compete against similar applications. In Work Units where both a Pastureland and Cropland account are available, applications will be put into one of the accounts based on the land use designation where the majority of the resource concerns are being treated. Cropland being converted to pastureland will be ranked in the pastureland account.</p>

Ranking Questions
<p>1. Is the applicant a covered producer participating in the CRP-TIP and NRCS is evaluating the assessment during the two-year period covered by the CRP-1R?</p>
<p>2. Application includes EQIP planned practices that were recommended in a Conservation Activity Plan (CAP). (Self-Explanatory)</p>
<p>2. Will the practice benefit federally listed threatened or endangered species? <i>When answering question 5 refer to the KICT Report. Points should be awarded if <u>all</u> of the following occur:</i></p> <ul style="list-style-type: none"> 1) <i>One or more species are listed in section I of the KICT report</i> 2) <i>One or more benefits are listed in section IV of the KICT report</i> 3) <i>All avoidance measures are or will be implemented in section II of the KICT report</i> 4) <i>The practices are being implemented for the reason(s) specified, and/or result in the benefits described in section IV of the KICT report</i> <p><i>It is recommended that conservation assistance notes be recorded as to the application of which benefits apply and the supporting rationale.</i></p>
<p>3. Is the majority of the treated acres included in either a well head protection area or karst area as identified by DOW? (Yes, if more than 50% of applicant's offered acreage falls within the boundaries of these special emphasis areas as per ArcMap)</p>
<p>4. Is the majority of the treated acres included in either a DOW identified watershed or high-quality waters/classified stream? (Yes, if more than 50% of applicant's offered acreage falls within the boundaries of these special emphasis areas as per ArcMap).</p>
<p>5. Are the planned land units within a Source Water Protection Designated Watershed?</p>
<p>6. Does the application include practices that will address gully and/or sheet and rill erosion on offered acres?</p>
<p>7. Does the application include practices that will improve soil quality on cropland by planting a multi-species cover crop mix for 3-5 years?</p>
<p>8. Does this application include practices that will address Livestock Production Limitations by providing additional livestock watering facilities and/or fencing to better distribute grazing?</p>
<p>9. Does this application include practices that will address Degraded Plant Condition through the planting of a more desirable forage that will improve feed and forage quality for livestock?</p>
