Please refer to the following table for a description of the specific document released. The document will be posted to Pacific Islands Area Technical Notes site and available for viewing and printing online at: http://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/pia/technical/?cid=nrcs142p2_037391

Contact.

If you have any questions, contact Tony Ingersoll, Assistant Director for Technology at (808) 541-2600 x 111 or via email at: Anthony.Ingersoll@hi.usda.gov.

The following is a description of the document being released:

Document	Description
1. Announcement PI-53	New Announcement.
2. PI Announcements Index	Revised Announcements Index.
3. Biology Technical Note 24 – Habitat Planting for Pollinators	The purpose of this technical note is to provide guidance to NRCS and partner agency staff when protecting, designing, and installing habitat for pollinators on or near farms. This technical note focuses on the biology and habitat needs of pollinators native to the PIA, but the habitat needs of honey bees and other beneficial insects are briefly discussed.
