

Bay-Delta Initiative for Cache Slough Complex Watersheds Fiscal Year 2017 Application Screening Worksheet <u>A Screening Worksheet must be completed for each eligible EQIP application.</u>		
Applicant Name:		
Evaluator Name:		
Date:	Batching Number:	Application No:
<p>EQIP is a competitive financial assistance program and applications are screened and ranked based on the expected conservation benefits of planned practices in the EQIP schedule of operations. This screening worksheet must be completed for each eligible applicant applying for financial assistance. Applications are accepted on a continuous basis; however, application batching periods are established for purposes of ranking and funding decisions. A screening worksheet can be processed for each application batching period. The goal of this screening tool is to ensure that conservation technical assistance and EQIP program benefits are managed efficiently to address priority conservation needs. Completion of this worksheet and documentation does not constitute an agreement to provide EQIP program benefits nor approval of a program contract. The original screening worksheet should be filed with the applicant case file or EQIP program file and unless the application is determined to be ineligible, the screening priority (High, Medium, and Low) must be recorded in ProTracts. Upon request, a copy of any completed screening worksheet may be provided to the applicant.</p>		
Directions: Screening criteria will be answered sequentially beginning with the first question below.		
Action	Screening Criteria Question	
If Yes, continue to the next question. If No, Low Priority Status in ProTracts.	The applicant has reviewed and approved the EQIP schedule of operations that will be uploaded to the NRCS business tool, ProTracts, before or by the ranking deadline.	
If Yes, Low Priority Status in ProTracts. If No, continue to the next question.	<p>In the last two EQIP program fiscal years, the applicant:</p> <ol style="list-style-type: none"> Had a NRCS contract terminated – and/or, Failed to implement contract items in an existing EQIP contract according to the schedule in Form, NRCS-CPA-1155, "Conservation Plan and Schedule of Operations," and the contract was modified to reschedule contract items - installation delays were not due to NRCS error or design delay – and/or, Failed to implement rescheduled contract items agreed to according to Form, NRCS-CPA-153, "Agreement Covering Non-Compliance with Provisions of Contract," and Form, NRCS-CPA-1156, "Revision of Plan/Schedule of Operations or Modification of a Contract," – and/or Installed conservation practices with financial assistance from NRCS that have not been maintained according to the practice operations and maintenance for the practice lifespan. 	
If Yes, continue to the next question. If No, Low Priority Status in ProTracts.	Conservation practices in the EQIP schedule of operations are planned on land within the Cache Slough Complex Watersheds.	

Action	Screening Criteria Question		
If Yes, High Priority Status in ProTracts. If No, continue to the next question.	Scheduled practices in the EQIP schedule of operations address two or more of the screening criteria priorities listed below.		
If Yes, Medium Priority Status in ProTracts. If No, Low Priority Status in ProTracts.	Scheduled practices in the EQIP schedule of operations addresses only one of the screening criteria priorities listed below.		
Screening Criteria Priorities for the Bay-Delta Initiative for Cache Slough Complex Watersheds (Check the box for the resource concern(s) addressed by conservation practices in the EQIP schedule of operations.)			
	The EQIP schedule of operations includes at least one of the following management practices: 449 – Irrigation Water Management, 590 – Nutrient Management, 595 – Integrated Pest Management, 528 – Prescribed Grazing; OR, the contract will complete a conservation system which includes a management practice documented as applied for the land.		
	The EQIP schedule of operations includes structural or vegetative practice(s) to address surface water quality resource concern(s).		
	The EQIP schedule of operations includes structural practice(s) to address water quantity resource concern(s).		
	The EQIP schedule of operations includes practice(s) to address wildlife habitat resource concerns.
