General Construction Notes

1. All work shall be done according to the Plans and Specifications. No changes in materials or significant changes in alignment will be made without written approval from NRCS. Field adjustments will only be made with concurrence of the NRCS representative.
2. All permits, easements, and rights of way are the responsibility of the landuser. Compliance with permit conditions is mandatory.
3. Landowners/operators and contractors are liable for damage to utilities caused by construction activities. NRCS makes no representation regarding the existence or nonexistence of any utilities. Absence of utilities on plan drawings is not an assurance that no utilities are present at the site. It is the responsibility of the landowner/operator and contractor to determine if there are buried or overhead utilities in the vicinity of the proposed work. The landowner/operator or contractor shall call 1-866-423-7287 or 811 to determine the existence of utilities at least 5 days prior to excavation.
4. Trenching and excavations shall be performed in accordance with OSHA Part 1926.651 and applicable state, territorial, and commonwealth regulations.
5. All protruding steel shall be capped or otherwise configured to prevent impalement or other personal injury.
6. For layout assistance, installation guidance, and installation verification, contact the USDA NRCS Field Office at: _____

PROJECT LOCATION

REVIEW AND ACCEPTANCE

I have received at least two copies of the drawings and specifications for this project and they have been reviewed with me and are accepted for installation. I also acknowledge that any modifications to the design without the prior review and written approval of NRCS may result in the NRCS disapproval of the installation.
