

## **PART 511 – DESIGN**

### **ND511.11 Design Folders**

- B. Design reports shall be prepared for Job Class IV through VIII projects in North Dakota, as well as any project located at a Large Confined Animal Feeding Operation (per the EPA definition). Design reports will include an Inspection Plan detailing the items requiring inspection, frequency and timing of inspections, testing methods/standards, documentation requirements, the individual(s) who will be assigned to inspection work, and a signature of their supervisor(s) confirming their assignment to that work.
