

Stewardship Resource Priorities – Agriculture Lands

Cropland, Pasture, Range, Associated Agricultural Land, Farmstead

Air Quality Emissions	Pest Pressure
Aquatic Habitat	Salt Losses to Water
Concentrated Erosion	Soil Quality Limitations
Degraded Plant Condition	Source Water Depletion
Field Pesticide Loss	Storage and Handling of Pollutants
Field Sediment, Nutrient, and Pathogen Loss	Terrestrial Habitat
Fire Management	Weather Resilience
Inefficient Energy Use	Wind and Water Erosion
Livestock Production Limitation	

Stewardship Resource Priorities – Forest Lands

Air Quality Emissions	Pest Pressure
Aquatic Habitat	Salt Losses to Water
Concentrated Erosion	Soil Quality Limitations
Degraded Plant Condition	Source Water Depletion
Field Pesticide Loss	Storage and Handling of Pollutants
Field Sediment, Nutrient, and Pathogen Loss	Terrestrial Habitat
Fire Management	Weather Resilience
Inefficient Energy Use	Wind and Water Erosion
Livestock Production Limitation
