	2	Water Quality: Does the application include Tree Planting to convert at least 10 acres of open planning land unit acreage (or all offered planning land units if less than 10 acres) to trees (does not include sites with Ecological Site Descriptions for Prairie, Savanna or Glade)?	80
	3	Degraded Plant Condition: Does the application include at least one practice (314, 315 or 528 Biological Control with Grazing Animals scenario) to adequately address non-native invasive species that are currently crowding native forest plants, impeding tree regeneration, and degrading forest health & wildlife habitat quality, thus limiting forest management options?	80
	4	Degraded Plant Condition: Does the application include Forest Stand Improvement (666) to achieve the desired stocking rate and species diversity?	60
	5	Soil Erosion: Does the application include Access Control (472) to exclude all livestock on all forest and/or riparian areas (perennial streams, wetlands, and sinkholes), currently accessed by livestock?	50
