

NW - Pastureland

National Priorities:

Scoring Multiplier: 1.000

Questions:

Number	Question	Points
1	a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other national level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	250
2	a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	15
2	b. Implementing the practices in a Nutrient Management Plan (NMP)?	10
2	c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated "impaired water body" (TMDL, 303d listed waterbody, or other State designation)?	10
2	d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a "non-impaired water body"?	10
2	e. Implementing practices that improve water quality through animal mortality and carcass management?	10
3	a. Implementing irrigation practices that reduce aquifer overdraft.	15
3	b. Implementing irrigation practices that reduce on-farm water use?	10
3	c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	10
3	d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	10
4	a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	10
4	b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	10
4	c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	10
4	d. Implementing practices that increase on-farm carbon sequestration?	10
5	a. Reduce erosion to tolerable limits (Soil "T")?	10
5	b. Increasing organic matter and carbon content, and improving soil tilth and structure?	10
6	a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	10
6	b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation Reserve Program (CRP) or other set-aside program?	10
6	c. Implementing practices benefitting honey bee populations or other pollinators?	10
6	d. Implementing land-based practices that improve habitat for aquatic wildlife?	10
7	a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	10
7	b. Implementing practice in an Integrated Pest Management Plan (IPM)?	10
8	a. Reducing on-farm energy consumption?	10
8	b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	10
9	a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	10
	Total Points	500

State Issues:

Scoring Multiplier: 1.000

Questions:

Sub-heading Number	Question Number	Question	Points
1		Soil Erosion:	
	1	a. Sheet, Rill, & Wind Erosion: Will this application result in the conversion of cropland to pasture?	50
2		Livestock Production Limitation:	
	2	a. Inadequate Feed and Forage: Will the proposed project result in the implementation of practices to address inadequate feed and forage?	60
	2	b. Inadequate Livestock Water: Will the proposed project result in the implementation of practices to assure adequate domestic livestock drinking water sources are available in the treatment unit?	55
3		Degraded Plant Condition:	
	3	a. Undesirable Plant Productivity and Health: Will the proposed project result in the implementation of practices that will result in increased pasture plant productivity and health?	60
4		General Question:	
	4	a. Will the proposed project implement practices identified in a completed prescribed grazing plan?	25
		Maximum Points: 250 Total Points	250

NW - Pastureland

Local Issues:

Scoring Multiplier: 1.000

Questions:

Sub-heading Number	Question Number	Question	Points
1		Livestock Production Limitation:	
	1	a. Inadequate feed and forage: Will the proposed project result in implementation of practices that extend the grazing season?	65
2		General Questions:	
	2	a. Will the application address concentrated flow erosion by installing a grassed waterway, WASCOB, or grade stabilization structure?	65
	2	b. Will the proposed project result in the establishment of permanent vegetation or structural practices?	65
	2	c. Will application result in establishment of native vegetation to be used for grazing purposes?	65
	2	d. Will the application convert land from annually planted cropland to pasture as the permanent land use?	65
	2	e. Will the application improve water quality by reducing impacts from sediment, nutrients, or pathogens in surface or ground water?	75
Maximum Points: 400 Total Points			400
